Five-Year Strategic Plan

This document includes Narrative Responses to specific questions to which grantees of the Community Development Block Grant, HOME Investment Partnerships, Housing Opportunities for People with AIDS, and Emergency Shelter Grants Programs must respond in order to be compliant with the Consolidated Planning Regulations.

Name of Jurisdiction: Atlantic County, NJ
CP Time Period: 2011 - 2015

GENERAL

EXECUTIVE SUMMARY

The Executive Summary is required and must include the objectives and outcomes identified in the plan and an evaluation of past performance.

Purpose of the Consolidated Plan

Atlantic County Improvement Authority (ACIA) receives funding annually from the U.S. Department of Housing and Urban Development under the Community Development Block Grant (CDBG) and HOME Investment Partnership programs. ACIA is the lead agency responsible for the federal grant programs covered by the Consolidated Plan, namely the CDBG and HOME programs. (Note: The City of Atlantic City is a separate HUD entitlement. Therefore, this plan does not address the needs of the City nor do the statistics presented herein include the City.) One of the requirements for receiving these funds is the development of a five-year Consolidated Plan for Housing and Community Development (CP) to provide policy direction for the next five years of funding decisions. In general, the CP is guided by three overarching goals that are applied according to a community's needs. The goals are:

- To provide decent housing by preserving the affordable housing stock, increasing the availability of affordable housing, reducing discriminatory barriers, increasing the supply of supportive housing for those with special needs and transitioning homeless persons and families into housing.

ATLANTIC COUNTY, NJ

- To provide a suitable living environment through safer, more livable neighborhoods, greater integration of low and moderate income residents throughout the cities, increased housing opportunities and reinvestment in deteriorating neighborhoods.
- To expand economic opportunities through more jobs paying self-sufficient wages, homeownership opportunities, development activities that promote long-term community viability and the empowerment of low- and moderate-income persons to achieve self-sufficiency.

This CP corresponds to the next five fiscal years, which begin September 1, 2011, and end August 31, 2015. The primary federal funding resources in the 2011-2015 Consolidated Plan are the following:

- Community Development Block Grant (CDBG): The primary objective of this program is to develop viable urban communities by providing decent housing, a suitable living environment, and economic opportunities, principally for persons of low and moderate income levels. Funds can be used for a wide array of activities, including: housing rehabilitation, homeownership assistance, lead-based paint detection and removal, construction or rehabilitation of public facilities and infrastructure, removal of architectural barriers, public services, rehabilitation of commercial or industrial buildings and loans or grants to businesses.
- HOME Investment Partnerships Program (HOME): The HOME program provides federal funds for the development and rehabilitation of affordable rental and ownership housing for low and moderate income households. HOME funds can be used for activities that promote affordable rental housing and homeownership by low and moderate income households, including reconstruction, moderate or substantial rehabilitation, homebuyer assistance and tenant-based rental assistance.

Focus of the Plan

As required by the federal government, the identification of needs and the adoption of strategies to address those needs must focus primarily on low- and moderate-income (LMI) individuals and households. The CP must also address the needs of persons with “special needs” such as the elderly, persons with disabilities, large families, single parents, homeless individuals and families and public housing residents. The CP identifies housing, homeless, community and economic development needs and resources, while providing a strategic plan to address those needs in accordance with community priorities.

Citizen Participation and Agency Consultation

Atlantic County has made the decision to encourage a high level of agency consultation in an effort to demonstrate a commitment to (a) identifying priority needs and (b) engaging the participation of public agencies and non-profit organizations in a productive and collaborative manner. A list of stakeholders was developed to include public agencies and private non-profit organizations whose missions focus on the provision of affordable housing and human services to LMI households and persons. Public and private agencies which were identified as stakeholders in the process were asked to complete written questionnaires to provide data on special needs populations such as the elderly, youth, persons with HIV/AIDS, public housing residents, persons with disabilities and the homeless. Follow up interviews were conducted with a variety of agencies.

ATLANTIC COUNTY, NJ

The series of opportunities for public engagement is detailed in full in the Citizen Participation section of the CP.

Priority Needs and Strategies

ACIA is committed to allocating funds that serve the needs of the lowest-income and most disadvantaged residents. Households with incomes less than 80% of the area median income, particularly those with extremely low incomes (less than 30% of area median income), are particular priorities. The County has also identified special needs individuals as among those who face the greatest challenges and who should receive high priority in the expenditure of federal funds, including at-risk youth, low income families, the homeless and persons threatened with homelessness, the elderly, and persons with disabilities. The following needs address this priority:

- The provision and maintenance of affordable housing
- Investment in community development activities in lower-income neighborhoods and in facilities that serve lower-income populations, and
- Supportive services for target populations.

By focusing on these needs, the County seeks to address community concerns such as:

- A need for suitable affordable housing to address the growing gap between housing costs and local incomes, which leads to rising rates of overcrowding, and overpayment for the lowest-income residents
- Programs that improve community facilities and services, particularly in low-income areas
- Adoption of a Housing-First model to prevent homelessness.
- Programs that promote economic development, create jobs and increase the job skills level of potential employees, and
- Supportive services that promote independence, particularly for elderly residents.

The CP requires the cities to specifically address needs and proposed strategies in three areas: housing, homelessness and community development.

Housing Needs

High housing costs reduce economic opportunities, access to jobs and services and the ability of lower-income households, including the elderly and persons with disabilities, to live in the communities and neighborhoods of their choice. The affordability gap results in a concentration of lower-income households in older neighborhoods that have higher levels of substandard housing and overcrowding.

HUD regulatory requirements are restricted to assisting households at 80% of the area median income or lower. Given the current market conditions, homeownership costs remain high. As a result, ACIA will focus CDBG and HOME funds to support activities across the housing spectrum, seeking to increase and improve the existing housing stock, provide incentives for homeownership and affirmatively further fair housing. Primary objectives include expanding home ownership amongst low income households, improving the existing housing stock and expanding rental housing opportunities.

ATLANTIC COUNTY, NJ

Priority Housing Strategies

The following priorities will guide investment decisions for ACIA during the five years covered by the CP:

- **Rehabilitation of Existing Housing Stock:** Promote the rehabilitation and preservation of the County's existing housing stock. Objective: Assist 150 low- and moderate-income homeowners with housing rehabilitation over the next five years.
- **Expand Homeownership:** Utilize funds to provide downpayment and closing cost assistance to help families realize homeownership and acquire and rehabilitate vacant housing to be sold to lower income families. Objectives: (1) Assist 60 low- and moderate-income buyers purchase a home; (2) Assist CHDOs with development of 10 affordable homes for sale to low- and moderate-income buyers.
- **Expand Housing Stock for Low-Income Renter Households:** Provide subsidies, primarily through the HOME Program, to Community Housing Development Organizations to rehabilitate or newly construct rental units for households at or below 80 percent of MFI. Objective: Assist CHDOs with development of 24 affordable rental housing units over the next five years.

Homeless Needs

The Atlantic County Continuum of Care is supported by the Atlantic County Department of Family and Community Development. The planning process for a new 10 year Plan to End Homelessness was initiated in January 2011. While final strategies have not yet been developed, the guiding principles of the planning process are clear and have been incorporated into this plan.

The homeless population of Atlantic County reflects the diversity, complex characteristics and needs of homeless persons across the United States. Even with other contributing factors, at its core, homelessness is a poverty issue. Poor people who have a serious mental illness or addiction are at higher risk for homelessness than are those people with those disabilities who are not poor. People living in poverty face difficult, if not impossible, choices between housing, food, childcare, transportation and other living expenses. They are often one family or financial crisis away from becoming homeless. Rent and utility arrearages, high medical bills, bad credit, inadequate income, and family conflicts can result in formal or informal evictions and homelessness.

Priority Homeless Strategies

The strategies for homeless and other special populations is to adhere to a housing-first strategy with appropriate services to stabilize the housing situation. Specific strategies to accomplish this objective include the following:

- **Homeless Activities:** Support the work of the Planning Committee and the Ten Year Plan to End Homelessness and the Continuum of Care Committee and its constituent agencies to provide supportive services and housing to the homeless population.
- **Homeless Assistance:** Create a single point of entry to prevent and end homelessness; develop a uniform assessment of all individuals and families entering the homeless system;

ATLANTIC COUNTY, NJ

improve efficiency and effectiveness; develop and integrated support network to insure sustainability and create more affordable housing including permanent supportive housing.

- Homeless Prevention: Continue to support activities that prevent homelessness.

Community Development Needs and Strategies

The strategies for community development are to provide support for improvements to infrastructure and public facilities in the participating municipalities. Specific strategies to accomplish this objective include the following:

- Public Facilities: Support improvements to or construction of public facilities
 - Support the development and improvement of facilities and services for senior citizens which allow them to continue to live independently.
 - Develop and expand park and recreation opportunities in low-income areas.
 - Rehabilitate, develop and expand neighborhood facilities, including ADA compliance.
- Infrastructure: Expand and improve the capacity of local municipalities to provide adequate water, sewer and storm drainage facilities, and streets and sidewalks. Promote handicap barrier removal in public facilities and sidewalks to ensure access and mobility for all of Atlantic County residents.
- Blight Mitigation: Promote the rehabilitation or demolition of vacant and underutilized structures that present a health and safety hazard to the community. Encourage rehabilitation when such structures have historic or cultural significance.
- Economic Development: Support activities that promote the growth of jobs that provide economic opportunity for low-income residents.

Non-Homeless Special Needs and Strategies

Within Atlantic County, there are individuals and families with special needs, such as the elderly and frail elderly, persons with severe mental illness, persons with mental retardation, persons with drug and/or alcohol addictions, persons with AIDS and related diseases, the physically disabled, youth in danger of separation from their families and youth aging out of foster care who require supportive housing. In addition to housing assistance, supportive housing provides a range of services that are integral to the ability of persons with special needs to transition to independent, community living. Those in need are assisted by various service providers in the public and non-profit sectors.

The strategies for the non-homeless special needs population is to provide support for the development of supportive housing and continue to provide services to meet their needs. Specific strategies to accomplish this objective include the following:

- Provide supportive housing and services for persons with special needs.

ATLANTIC COUNTY, NJ

Funding to Implement the Plan

The primary resources available to implement the Consolidated Plan come from two HUD entitlement programs: CDBG and HOME. Of the two, CDBG is the largest and most flexible source, providing eligibility for a variety of activities.

Evaluation of Past Performance

Atlantic County's FY 2009 CAPER provides an evaluation of the County's performance in that year (Atlantic County's Program Year runs from September 1, 2009 to August 31, 2010) and through the four years of the 2006 – 2010 Consolidated Plan. In 2009, Atlantic County allocated all of its CDBG funds to activities that benefit low income households. The FY 2008 CP included a multi-year blight certification including 2008, 2009 and 2010. The cumulative benefit for the 3 year period is 100%.

In FY 2009, Atlantic County assisted 33 low and moderate income households with rehabilitation. Atlantic County's Housing Rehabilitation Program provides a 100 percent interest free deferred loan repayable at time of sale. The primary funding source is HOME funds. Additionally, some of the municipalities used CDBG funds from Atlantic County to assist with housing rehabilitation. Through 2008, 278 households were assisted since the inception of the 5 year cycle beginning in FY 2006. This exceeds the goal of 250 units set for the 5 year period.

First-time home buyers are provided with assistance to purchase a home. The County provides households with a deferred loan of up to \$20,000. Loans are forgiven after the period of affordability has expired. Households are eligible to receive up to \$25,000 for down payment and closing and rehabilitation of the unit that is purchased. In FY 2009, 18 households were provided down payment and closing cost assistance.

Homeownership is also supported by new housing construction. Funding has been provided to non-profit sponsors to construct homes for sale to lower income buyers at affordable rates. During 2010, Habitat for Humanity completed a homeownership unit which was sold to a low-income household. Two municipalities in Atlantic County received NSP funds from NJ DCA, Pleasantville and Buena Vista. These programs will provide additional affordable housing opportunities.

The number of households assisted through both closing costs as well as CHDO construction of new affordable housing during the period is a cumulative total of 97 assisted homebuyers. The five year goal was 40 households.

Rental housing development was also supported. During 2009, the Camden Diocese received a commitment for assistance in the development of a 73 unit senior building in Pleasantville expected to open in 2011. The County supported HUD Section 811 applications for CARING, Inc. to purchase and renovate group homes for persons with disabilities. A total of 20 units are in service. In 2006 CARING, a CHDO, received \$303,075 of HOME funds from prior years to develop 10 units for disabled seniors in Pleasantville City. The five year goal was 30 units. The cumulative accomplishment is anticipated to be 103 units.

Municipalities undertook infrastructure projects during 2009. Projects completed in FY 2009 from prior year and FY 2009 funding included:

ATLANTIC COUNTY, NJ

- Northfield – ADA improvements at Park
- Brigantine – Street improvements
- Pleasantville – pump station
- Ventnor – water system improvements
- Linwood - curb ramps
- Hammonton - curb ramps

Absecon undertook a public service providing transportation services to the elderly

Cumulative: 35 infrastructure and public facilities projects and 2 public services transportation projects have been undertaken and completed in the 4 years of this CP.

STRATEGIC PLAN

Due every three, four or five years (length of period is at the grantee's discretion) no less than 45 days prior to the start of the grantee's program year start date. HUD does not accept plans between August 15 and November 15.

Mission:

Atlantic County will utilize CDBG funds and other federal funds provided by the U.S. Department of HUD to address community revitalization, affordable and suitable housing, infrastructure improvements, and public services in ways that facilitate improvement within the County.

MANAGING THE PROCESS

CONSULTATION 91.200(B)

1. Identify the lead agency or entity for overseeing the development of the plan and the major public and private agencies responsible for administering programs covered by the consolidated plan.

The Atlantic County Improvement Authority (ACIA) is responsible for preparing the CP under the direction of the County Board of Chosen Freeholders. ACIA is the lead agency responsible for the administration of the federal grants programs covered by the Consolidated Plan, namely the CDBG and HOME programs. ACIA works closely with the Atlantic County Department of Family and Community Development in the administration of other federal grants, particularly those related to assisting homeless individuals and families and preventing homelessness. The Atlantic County Department of Family and Community Development provides assistance to the Social Services for the Homeless Committee of Atlantic County throughout the year and with the annual application to HUD for Supportive Housing Programs. The County is the local HMIS administrator.

ACIA also works closely with the Pleasantville Housing and Redevelopment Corporation (PHRC). PHRC is a recognized Community Housing Development Organization (CHDO) and as such is eligible to receive

ATLANTIC COUNTY, NJ

the required minimum 15% set aside of the HOME allocation. Habitat for Humanity is a second CHDO that the County recognizes.

2. Identify agencies, groups, and organizations that participated in the process. This should reflect consultation requirements regarding the following:

General §91.100 (a)(1) - Consult with public and private agencies that provide health services, social and fair housing services (including those focusing on services to children, elderly persons, persons with disabilities, persons with HIV/AIDS and their families, homeless persons) during the preparation of the plan.

Homeless strategy §91.100 (a)(2) – Consult with public and private agencies that provide assisted housing, health services, and social services to determine what resources are available to address the needs of any persons that are chronically homeless.

Lead lead-based paint hazards §91.100 (a)(3) – Consult with State or local health and child welfare agencies and examine existing data related to lead-based paint hazards and poisonings.

Adjacent governments §91.100 (a)(4) -- Notify adjacent governments regarding priority non-housing community development needs.

Metropolitan planning §91.100 (a)(5) -- Consult with adjacent units of general local government, including local government agencies with metropolitan-wide planning responsibilities, particularly for problems and solutions that go beyond a single jurisdiction, i.e. transportation, workforce development, economic development, etc.

HOPWA §91.100 (b) -- Largest city in EMSA consult broadly to develop metropolitan-wide strategy for addressing needs of persons with HIV/AIDS and their families.

Public housing §91.100 (c) -- Consult with the local public housing agency concerning public housing needs, planned programs, and activities.

General

The Five Year Consolidated Plan has been developed in accordance with Title I of the Cranston-Gonzalez National Affordable Housing Act and pursuant to the requirements of HUD. ACIA solicited input for the development of the CP from County departments and private agencies.

Health Services

Homeless persons

- Women's Center
- Jewish Family Services
- Atlantic City Rescue Mission
- Veteran's Services
- Atlantic County Department of Family and Community Development

Homeless strategy

The Atlantic County Continuum of Care is supported by the Atlantic County Department of Family and Community Development. The planning process for a new 10 year Plan to End Homelessness was initiated in January 2011. The CP was coordinated with the Plan to End Homelessness planning effort. The Continuum of Care Committee is a working group of the Human Services Advisory Board which is a function of County government. Extensive outreach was conducted on the homeless planning effort in order to accurately count the number of homeless in Atlantic County and to devise strategies that would address needs of the homeless in the County.

Lead-based paint hazards

The County's Public Health Officer in the Department of Health monitors lead-based paint problems. When children are reported with an Elevated Blood Lead Level (EBLL), the Public Health Officer is responsible to ensure that the housing unit is tested and appropriate steps are taken to remediate the problem. State data from the NJ Department of Health and Senior Services FY 2007 Annual Report, the most recent report available, was consulted.

Adjacent governments

ACIA meets annually with the individual municipalities that participate in the Urban County program. The municipalities were provided an opportunity to discuss their needs and contribute to the CP during the annual meeting on Feb. 2, 2011. A questionnaire was provided to obtain additional comments.

In addition, letters were sent to surrounding counties notifying them of the opportunity to comment on the County's Five Year Strategic Plan and 2011 Annual Action Plan.

ATLANTIC COUNTY, NJ

Metropolitan planning

Several groups were contacted to provide input at the County level:

- Atlantic County Regional Planning And Economic Development
- Work Force Investment Board
- Atlantic County Economic Development Advisory Committee
- South Jersey Economic Development

HOPWA

HOPWA services in Atlantic County are administered by the NJ Department of Community Affairs. The state department was consulted in preparation of this CP.

Public housing

There are two housing authorities in Atlantic County serving specific communities within the county:

- Pleasantville Housing Authority
- Buena Vista Housing Authority

CITIZEN PARTICIPATION 91.200 (B)

3. Based on the jurisdiction's current citizen participation plan, provide a summary of the citizen participation process used in the development of the consolidated plan. Include a description of actions taken to encourage participation of all its residents, including the following:
 - low- and moderate-income residents where housing and community development funds may be spent;
 - minorities and non-English speaking persons, as well as persons with disabilities;
 - local and regional institutions and other organizations (including businesses, developers, community and faith-based organizations);
 - residents of public and assisted housing developments and recipients of tenant-based assistance;
 - residents of targeted revitalization areas.

To provide access to the draft Consolidated Plan, a Notice of Availability was published in *The Press of Atlantic City* and on the county website. Copies of the notice of availability were sent to agencies identified in the previous section as a means to inform the population of the County that is difficult to reach through mainstream media due to language or disability. The agencies disseminated information to their constituents. There are no alternative language media in Atlantic County in which to announce the availability of the CP.

Municipalities were also informed of the availability of the CP for public comment and urged to announce this at their Council meetings.

Further, a copy of the Notice was sent to the two housing authorities with a request to post it in the public housing and in their tenant offices and Section 8 offices.

4. Provide a description of the process used to allow citizens to review and submit comments on the proposed consolidated plan, including how the plan (or a summary of the plan) was published for review; the dates, times and locations of a public hearing, or hearings; when and how notice was provided to citizens of the hearing(s); the dates of the 30 day citizen comment period, and if technical assistance was provided to groups developing proposals for funding assistance under the consolidated plan and how this assistance was provided.

In agreement with 24 CFR 91.115(e) Atlantic County has adopted a Citizen Participation Plan describing the citizen participation requirements of its CDBG program and HOME program. The Citizen Participation Plan is on file at the Atlantic County Improvement Authority Office of Community Development.

On March 17, 2011, three public hearings were held at different times and locations in the County to solicit input from social service agencies, housing providers, local municipalities, and County departments. Atlantic County held the hearing three times at three different locations in order to maximize the opportunity for citizen participation. The public hearings were held in the Atlantic County Libraries in Egg Harbor Township and Mays Landing, and at the Galloway municipal building. It was at these public hearings that the County solicited input from the municipalities for use in developing the objectives and priorities for the 5-Year Strategic Plan. The public hearings were advertised in *The Press of Atlantic City*.

In agreement with 24 CFR 91.100(4), Atlantic County notified the adjacent units of government that it was completing this CP. Copies of the letters are contained in Appendix 3 of this document. Atlantic County also has sent a copy of the completed CP to the New Jersey Department of Community Affairs.

On Thursday, May 26, 2011, a summary of the CP was published in *The Press of Atlantic City* alerting interested persons as to the availability of the CP. The CP was placed at the following locations in Atlantic County for public review.

- Atlantic County Improvement Authority
Office of Community Development
5909 Main Street 2nd Floor
Mays Landing, NJ 08330
- Atlantic County Government Center
1333 Atlantic Avenue
Atlantic City, NJ 08401
- Atlantic County Library
40 Farragut Avenue
Mays Landing, NJ 08330

The Consolidated Plan was available through the website for ACIA.

ATLANTIC COUNTY, NJ

The public review period was from May 26, 2011 to June 27, 2011. Three public hearings were held on June 16, 2011, to allow for review and discussion of the County's Five-Year CP and proposed use of FY 2011 Program Funds. The Board of Chosen Freeholders approved submittal of the Action Plan on June 28, 2011. Documentation of the Citizen Participation process is included in Appendix 3 of this document.

5. Provide a summary of citizen comments or views received on the plan and explain any comments not accepted and reasons why these comments were not accepted.

There were no comments received on the planning documents.

HOUSING AND HOMELESS NEEDS

HOUSING NEEDS

91.205

If not using the CPMP Tool: Complete and submit CHAS Table from <http://socds.huduser.org/scripts/odbic.exe/chas/index.htm>

If using the CPMP Tool: Complete and submit the Needs/Housing Table

6. In this narrative, describe the estimated housing needs projected for the next five-year period for the following categories of persons: extremely low-income, low-income, moderate-income, and middle-income families, renters and owners, elderly persons, persons with disabilities, including persons with HIV/AIDS and their families, single persons, large families, public housing residents, victims of domestic violence, families on the public housing and section 8 tenant-based waiting list, and discuss specific housing problems, including: cost-burden, severe cost-burden, substandard housing, and overcrowding (especially large families) and substandard conditions being experienced by extremely low-income, low-income, moderate-income, and middle-income renters and owners compare to the jurisdiction as a whole. The jurisdiction must define the terms “standard condition” and “substandard condition but suitable for rehabilitation.”

Overview of Demographic Trends and General Housing Needs

The following narrative describes the demographic characteristics of Atlantic County and its estimated housing needs for the five years covered by the Consolidated Plan. The information in this section is based primarily on data from the U.S. Census Bureau, county departments, comprehensive and neighborhood strategic plans, local agency consultations, and statistics provided through HUD for the 2000 Comprehensive Housing Affordability Strategy (CHAS). Data from Census 2000 have been updated with five-year estimates from the 2005-2009 American Community Survey where possible.

Atlantic County’s population in 2000 was 212,035, representing an increase of 25,694 persons (13.8%) from a total of 186,341 in 1990. Recent estimates indicate that the county’s population has continued to grow since 2000, rising to 230,344 in 2009. According to this estimate, the total change in population between 1990 and 2009 was 23.6%. Note that this analysis was for Atlantic County, not including Atlantic City.

Households

As of 2009, there were 85,095 households in Atlantic County. Of these:

- 26,744 (31.4%) had children under age 18 living with them,
- 43,530 (51.2%) were married couples living together,
- 11,369 (13.4%) had a female householder with no husband present, and
- 26,520 (31.2%) were non-family households.

The total number of households in Atlantic County increased by 9,623 (13.8%) from 69,516 in 1990 to 79,139 in 2000. Estimates for 2009 show a further increase to 85,095 total households. This equates to an addition of 15,579 (22.4%) households over 19 years. The number of persons per household was

ATLANTIC COUNTY, NJ

stable, from 2.68 in 1990 to 2.68 in 2000 before increasing to 2.71 in 2009.

**Atlantic County:
Trends in Household Size and Type, 1990 - 2009**

	1990		2000		2009	
	#	%	#	%	#	%
Total Households	69,516	100.0%	79,139	100.0%	85,095	100.0%

Among all racial/ethnic group households in 2009, White households had the highest MHI at \$61,787. In Atlantic County, Hispanic households had the second-highest MHI at \$40,914, and Black households had

ATLANTIC COUNTY, NJ

the third-highest MHI at \$37,811.

The figure below shows data on household income by race and ethnicity. In Atlantic County, 37.8% of White households earn less than \$50,000 annually, compared to 49.6% of Black households and 49.7% of Hispanic households.

In Atlantic County, a significantly larger percentage of White households are in the highest income bracket than for either Black or Hispanic households.

Since 1990, the number of persons below poverty level, and their percentage of the total population, has increased across the state of New Jersey and Atlantic County. Over the time period from 1990 to 2009, persons below the poverty level as a percentage of the total population have been growing faster in Atlantic County than in the state as a whole.

Income Below Poverty Level, 1990 - 2009

Cost Burden and Other Housing Problems

The following provides an estimate of the number and type of households in need of housing assistance. The review considers needs for the households according to the following categories:

- Extremely low income households (income less than 30% of MFI)
- Very low income households (income between 30% and 50% of MFI)
- Low income households (income between 50% and 80% of MFI)
- Households with income above 80% of MFI (moderate, middle and high income households)

The description of housing needs contained in this part includes discussion of cost burden and severe cost burden, overcrowding and substandard housing conditions being experienced by income category.

As used in this plan and in the administration of the program, the County will use the following definitions when describing actions taken to improve or evaluate housing for the purposes of rehabilitation or relocation.

Standard Condition: Properties which are in conformity with the standards of the International

ATLANTIC COUNTY, NJ

Residential Code (IRC) adopted by the state of New Jersey. IRC is one of the 9 building codes developed by the International Code Council and adopted for use state-wide.

Substandard but Suitable for Rehabilitation: Properties that are not in standard condition, but are structurally and financially feasible to rehabilitate. These properties have no serious structural deficiencies and the cost of rehabilitation to bring the property to code compliance does not exceed 75% of the appraised value of the property after rehabilitation.

Estimated Housing Needs of Extremely Low, Very Low and Low Income Households

Much of the data reported in this portion of the Atlantic County CP was derived from CHAS Data 2000. CHAS Data 2000 is a special tabulation prepared for HUD by the Census Bureau. HUD reports that the Census Bureau uses a special rounding scheme on special tabulation data. As a result, there may be discrepancies between the data reported by CHAS Data 2000 and the data reported by Census 2000 Summary File 3, which is the source of much of the data in other parts of the CP. (While CHAS data from 2000 may appear dated, it is the only source of data for this analysis and is required by HUD.)

The following table reports on households with any housing problem for renters and owners. As defined by CHAS Data 2000, any housing problem includes: 1) cost burden greater than 30% of income and/or, 2) overcrowding and/or, 3) units without complete kitchen or plumbing facilities. The table also identifies cost-burdened households. Cost burden is distinguished by households paying from 30% to 50% of their income on housing and households paying more than 50%. Households paying more than 50% are classified as severe cost-burdened.

Atlantic County: Households with Housing Problems by Household Income, 2000

* Any housing problem: Cost burden greater than 30 percent of income, and/or overcrowding, and/or without complete kitchen or plumbing.

** Other housing problems: Overcrowding, and/or without complete kitchen or plumbing.

As shown in the table above, CHAS Data 2000 reports 109,889 households in Atlantic County with 27,973 (25.5%) renters and 81,916 (74.5%) owners.

Notably:

- 35,457 households (32.3%) had housing problems.

ATLANTIC COUNTY, NJ

- 24,710 households with any housing problems were low income, with annual incomes at or below 80% of the MFI. Lower-income households are most likely to have housing needs due to limited resources.
- 11,461 renter households (41.0%) had a housing problem. Renters comprised 32.3% of the 35,457 households with a housing problem.
- Of the 27,973 renter households, 15,129 (54.1%) had incomes classified as low, very low, or extremely low. Of the 11,461 renter households with a housing problem, 9,931 (86.7%) had incomes at or below 80% of MFI.
- 23,996 owner households (29.3%) had a housing problem. Owners comprised 67.7% of the 35,457 households with a housing problem.
- Of the 81,916 owner households, 22,421 (27.4%) had incomes classified as low, very low, or extremely low. Of the 23,996 owner households with a housing problem, 14,779 (61.6%) were low income.

The preceding table also provides information regarding cost burden by income category. According to the table, 32,522 households (29.6%) pay 30% or more of their income for housing. Of the cost-burdened households, 12,770 (39.3%) pay more than 50% of their income for housing. Notably:

- 9,811 (35.1%) of the 27,973 renter households are cost-burdened. Renters make up 30.2% of the 32,522 cost-burdened households.
- 22,711 (27.7%) of the 81,916 owner households are cost-burdened. Owners make up 69.8% of the 32,522 cost burdened homes.
- In total, Atlantic County has 9,072 extremely low income households, of which 7,096 (78.2%) are cost-burdened. Of the 7,096 households, 6,027 (84.9%) pay 50% or more of their income for housing costs.
- In total, the County has 10,910 very low income households, of which 8,089 (74.1%) are cost-burdened. Of the 8,089 households, 3,740 (46.2%) pay 50% or more of their income for housing costs.
- In total, Atlantic County has 17,568 low income households, of which 8,544 (48.6%) are cost-burdened. Of the 8,544 households, 2,019 (23.6%) pay 50% or more of their income for housing costs.
- Finally, the County has 72,339 households with income above 80% of MFI, of which 8,793 (12.2%) are cost-burdened. Of the 8,793 households, 984 (11.2%) pay 50% or more of their income for housing costs.

Using CHAS data, it is possible to calculate households by household income with “Other Housing Problems.” Other housing problems exclude cost burden but include overcrowding, in addition to lacking complete kitchen or plumbing. The previous CHAS table identifies the following characteristics about other housing problems in Atlantic County:

- Of the 35,457 households with housing problems, 2,935 (2.7%) are classified as having other housing problems.
- Of the 2,935 households with other housing problems, 981 (33.4%) are low income, with annual income at or below 80% of MFI.
- Of the 981 low income households classified as having other housing problems, 703 (71.7%) are renters.

ATLANTIC COUNTY, NJ

Cost-burdened renters need decent, affordable housing. Extremely low income households have the greatest need for continued assistance in the form of a subsidy or an affordable unit. Very low income and low income renters with a housing problem need assistance with supportive services, such as childcare, health care or transportation services. Assistance with supportive services reduces demands on their incomes, freeing up income to pay for housing. Very low income and low income renters who are provided assistance with other services may be able to save money that can be used for a down payment and closing costs on an owner unit. Because the majority of the low income renters are experiencing cost burden, all would benefit from improved economic opportunities. Education and job training is needed to assist these populations to take advantage of higher-skilled jobs that pay more and provide the potential for advancement.

Low income owners who are cost-burdened need assistance with maintenance and upkeep of their units so that they do not deteriorate. Low income owners also need assistance with supportive services that reduce the competing demands on their limited incomes. Finally, low income owners would benefit from improved economic opportunities.

Estimated Housing Needs of Elderly Households, Small Households, Large Households and Other Household Types

This section considers housing needs based on household type. For the purposes of this section, elderly households are one- or two-person households with either person 62 years old or older. Small households consist of two to four persons. Large households have five or more persons. All other households are those that do not fall into any of the three previous categories.

The following table shows the 27,973 renter households reported in Atlantic County by CHAS Data 2000. The households are distinguished by household type and income category. The table also shows the 11,458 renter households with a housing problem by household type and income category. The following characteristics emerge from the table:

- There are 5,595 elderly households, which is 20.0% percent of the total renters, of which 4,214 (75.3%) are low income. Of the total elderly households, 2,697 (48.2%) have a housing problem. Of the low income elderly households, 2,604 (61.8%) have a housing problem.
- 10,540 (37.7%) are small households, of which 5,150 (48.9%) are low income. Of the total small households, 4,052 (38.4%) have a housing problem. Of the low income small households, 3,528 (68.5%) have a housing problem.
- 2,216 (7.9%) are large households, of which 1,194 (53.9%) are low income. Of the total large households, 1,408 (63.5%) have a housing problem. Of the low income large households, 922 (77.2%) have a housing problem.
- The remaining 9,622 (34.4%) renters are all other households, of which 4,571 (47.5%) are low income. Of the total other households, 3,301 (34.3%) have a housing problem. Of all other low income households, 6,308 (63.0%) have a housing problem.

Small households represent the largest group of renters with housing problems, although large households have the greatest percentage of renter households with a problem. Low income large households often live in overcrowded homes and face many financial burdens. Low income renters of all types continue to need assistance to make housing affordable.

The following table shows the 81,916 owner households reported in Atlantic County by CHAS Data 2000. The households are distinguished by household type and income category. The table also shows the 24,006 owner households with a housing problem by household type and income category. The following characteristics emerge from the table.

- 2,216 (7.9%) are large households, of which 1,194 (53.9%) are low income. Of the total large households, 1,408 (63.5%) have a housing problem. Of the low income large households, 922 (77.2%) have a housing problem.
- The remaining 9,622 (34.4%) renters are all other households, of which 4,571 (47.5%) are low income. Of the total other households, 3,301 (34.3%) have a housing problem. Of all other low income households, 6,308 (63.0%) have a housing problem
- There are 21,368 elderly households, which is 26.1% percent of the total owners, of which 10,929 (51.1%) are low income. Of the total elderly households, 7,441 (34.8%) have a housing problem. Of the low income elderly households, 6,236 (57.1%) have a housing problem.
- 41,044 (50.1%) are small households, of which 6,323 (15.48%) are low income. Of the total small households, 9,734 (23.7%) have a housing problem. Of the low income small households, 2,765 (74.0%) have a housing problem.
- 8,940 (10.9%) are large households, of which 2,219 (24.8%) are low income. Of the total large households, 3,203 (35.8%) have a housing problem. Of the low income large households, 1,775 (80.0%) have a housing problem.
- The remaining 10,564 (12.9%) are all other households, of which 2,950 (27.9%) are low income. Of the total other households, 3,628 (34.3%) have a housing problem. Of the all other low income households, 2,087 (70.7%) have a housing problem.

Small households represent the largest group of renters with housing problems, although large households have the greatest percentage of renter households with a problem. Low income large households often live in overcrowded homes and face many financial burdens. Low income owners of all types continue to need assistance to make housing affordable.

ATLANTIC COUNTY, NJ

Estimated Housing Needs for Households with Disabled Persons

The Census Bureau reports disability status for non-institutionalized persons age 5 and over. As defined by the Census Bureau, a disability is a long-lasting physical, mental, or emotional condition. This condition can make it difficult for a person to do activities such as walking, climbing stairs, dressing, bathing, learning, or remembering. This condition can also impede a person from being able to go outside the home or to work at a job or business.

Census 2000, the latest source of data available, estimated that of 193,730 Atlantic County residents in the survey sample, 37,205 (19.2%) were living with a disability. Of the disabled population in the County, 4,360 (11.7%) had incomes below the poverty level.

The decennial Census, last completed in 2000, provides more detailed data on disabilities in Atlantic County. Persons may report multiple types of disabilities in the Census. In 2000, there were 66,624 individual disabilities reported in Atlantic County. Physical disabilities represented 23.9% of all disabilities reported, the largest share. Among persons over 65 years of age, physical disabilities accounted for 34.6% of all disabilities. Other disability types included mental disabilities (13.1%), sensory disabilities (9.5%), and self-care disabilities (7.8%), as well as “going outside the home” disabilities that prevent persons from leaving home by themselves to shop or visit a doctor (12.2%) and employment disabilities (25.8%).

There is no source of data that enumerates the number of persons with disabilities with housing needs, as local providers do not keep waiting lists. However, many disabled persons in Atlantic County are served by public and assisted housing facilities as a result of local public housing preferences.

Estimated Housing Needs for HIV/AIDS Households

Persons living with HIV/AIDS require several levels of service. In addition to substance abuse and mental health services, clients are also in need of life skills training, including employment and vocational training and managing activities of daily living such as living on a fixed income. Increasingly, supportive services are also dealing with the complications of aging, as medical advances have increased the life expectancy of those living with HIV/AIDS.

Atlantic County has one of the highest HIV infection rates in the state. According to the South Jersey AIDS Alliance, of the estimated 400 persons living with HIV in Atlantic County, 60% are homeless or under-housed. This figure does not separate City from non-County residents.

According to the South Jersey AIDS Alliance, a group that provides support and prevention services to over 3,500 persons in Atlantic County and adjoining counties in the area, housing, particularly low-cost rentals or assisted living, is the major unmet need for those with HIV/AIDS.

Estimated Housing Needs for Public Housing Residents, Section 8 Voucher Holders and Households on the Waiting Lists

Persons living in public or assisted housing may want to leave public housing if their living situation is stabilized or if homeownership opportunities were available. Family self-sufficiency programs and homeownership programs provide such opportunities.

The City of Pleasantville Housing Authority administers a Section 8 Homeownership Program that permits eligible participants in the Section 8 housing choice voucher program, including participants

ATLANTIC COUNTY, NJ

with portable vouchers, the option of purchasing a home with their Section 8 assistance rather than renting.

In addition, the City of Pleasantville Housing Authority developed a HOPE VI funded development called the “New Hope Community.” The Pleasantville New Hope Community HOPE VI project centered around the re-development of the decaying Woodland Terrace public housing project. Comprised of two rental and two homeownership phases, it offers a total of 128 rental and 12 for-sale units. The project addresses the high demand for affordable housing while reflecting both the historical and architectural context of Pleasantville. Tenants of Woodland Terrace were actively involved in the development process. In the Phase I rental portion, 57 rental units were built scattered throughout Pleasantville, consisting of single family residences, detached houses and duplexes. There are 9 two-bedroom, 37 three-bedroom, 10 four-bedroom, and one five-bedroom unit in Phase 1. The Phase I homeownership portion includes 3 for-sale units. Of the 57 rental units, 36 are designated for public housing residents. As a result of the tremendous positive impact this development had on the community, it was the 2007 recipient of the NJHMFA’s Project of the Year award. The Phase II rental component took the next big step by demolishing the existing project and then re-developing 71 rental units. The rental portion includes 36 two-bedroom, 28 three-bedroom, and 7 four-bedroom units. The majority of the units are twin-style structures with the remainder built as singles. In the Phase II homeownership component, 9 more new for-sale units were added. All units provide sustainable design features that make them more durable, desirable, and environmentally-friendly. The development also includes a 4,700 square foot community building. The total development costs for the Pleasantville New Hope Community were approximately \$28 million.

The New Jersey Department of Community Affairs (DCA) administers a County-wide Section 8 program. No project-based units exist in Atlantic County. The agency only subsidizes tenant-based units, although DCA has several variations of the HUD sponsored Section 8 Housing Choice Voucher program, in addition to the State Rental Assistance Program. DCA has recently emptied the waiting list and they have approximately 100 applicants at various stages of housing search. The waiting list is expected to open again by June 1, 2011.

Section 8 Housing Choice Vouchers: currently 736 active participants are involved with an additional 30 in the process of being relocated. Some of these participants are on the wait list for HOPWA, HOPWA2, VASH, and Shelter Plus Care Programs as well. The average wait list time is three years.

There are currently 174 active participants in the State Rental Assistance Program. There is no established waiting list procedure and no current plans to expand the program. Over 60% of the program participants are either elderly or disabled.

7. To the extent that any racial or ethnic group has a disproportionately greater need for any income category in comparison to the needs of that category as a whole, the jurisdiction must provide an assessment of that specific need. For this purpose, disproportionately greater need exists when the percentage of persons in a category of need who are members of a particular racial or ethnic group is at least ten percentage points higher than the percentage of persons in the category as a whole.

Disproportionately Greater Housing Problems

Using CHAS Data 2000, the following considers the housing needs for all households in comparison to the households by race in Atlantic County. Also considered are the housing needs of Hispanic households in comparison to all households. The review serves to consider disproportionately greater need. As defined by HUD, a disproportionately greater need among any racial or ethnic group exists when a particular racial or ethnic group has housing problems at least 10 percentage points higher than the percentage of persons in that category as a whole.

There are 14,437 renter households in Atlantic County with incomes at or below 80% of MFI. The following table compares the percentage of households with housing problems for White non-Hispanic, Black non-Hispanic, and Hispanic households. CHAS Data 2000 did not contain complete information about other races. The data table reports the following characteristics for renters in Atlantic County:

- 65.5% of all low income renters have a housing problem. While White and Black households had similar rates (62.8% and 67.7%, respectively), Hispanic households reported a significantly higher rate (76.0%).
- There are 2,621 low income elderly renter households with a housing problem, which is 61.6% of all elderly households. No disproportionately greater need was reported. Black and Hispanic households reported lower rates of problems (50.9% and 55.3%, respectively), while White households reported a slightly higher rate (62.7%).
- There are 4,062 low income small and large renter households with a housing problem, which is 69.8% of all small and large renter households. Black households reported a slightly higher rate (73.1%), while the rate for Hispanic households was significantly higher (80.5%).
- There are 2,774 low income “all other” renter households with a housing problem, which is 63.6% of households in this category. Hispanic households reported problems at a significantly higher rate (68.6%).

There are 22,019 owner households in Atlantic County with income at or below 80% of MFI. The following table compares the percentage of households with housing problems for White non-Hispanic, Black non-Hispanic, and Hispanic households. CHAS Data 2000 did not contain complete information about other races. The data table reports the following characteristics for home owners in Atlantic County:

- 65.7% of all low income owners have a housing problem. Black homeowners reported instances of problems at slightly higher rates (71.7%), while Hispanic owners reported significantly a higher rate (86.8%).
- There are 6,257 low income elderly owner households with a housing problem, which is

ATLANTIC COUNTY, NJ

- 57.0% of all elderly households. Black owners reported instances of problems at a significantly higher rate (69.6%), while Hispanic owners reported a much higher rate of 88.6%, although the sample size was small.
- There are 6,158 low income small and large owner households with a housing problem, which is 75.5% of all small and large renter households. Hispanic households reported a significantly higher rate of problems (87.8%).
 - There are 2,047 low income “all other” households with a housing problem, which is 71.0% of all other low income owner households. Hispanic households reported instances of problems at a significantly higher rate (81.2%).

HOMELESS NEEDS 91.205 (C)

**Refer to the Homeless Needs Table 1A or the CPMP Tool's Needs.xls workbook*

8. Homeless Needs— The jurisdiction must provide a concise summary of the nature and extent of homelessness in the jurisdiction, (including rural homelessness and chronic homelessness where applicable), addressing separately the need for facilities and services for homeless persons and homeless families with children, both sheltered and unsheltered, and homeless subpopulations, in accordance with Table 1A. The summary must include the characteristics and needs of low-income individuals and children, (especially extremely low-income) who are currently housed but are at imminent risk of either residing in shelters or becoming unsheltered.

The Atlantic County Continuum of Care (CoC) was established by the CEAS Committee and later became an independent committee to provide more emphasis on the problem of homelessness. The CoC is empowered to apply for funding through the U.S. Department of Housing and Urban Development. Agencies seeking funding through the Stewart B. McKinney programs (Supportive Housing Program, Shelter Plus Care, etc.) must be part of a cooperative effort.

Each year, a Point-in-Time count is made of the persons residing in shelter and transitional facilities and living unsheltered throughout the County. In January 2011, the total number of persons housed in shelter and transitional housing was 447.

Continuum of Care Gaps Analysis Chart – Table 1A

Indicate date of last point-in-time count: <u>January 26, 2011</u>

Source: Atlantic County Continuum of Care, 2011

The complete picture of homelessness is not accurately portrayed by a static one-night count. The Point in Time committee estimates that the actual number of people who are homeless over the course of the year may be between two to four times larger than the number counted at one point in time. Using the statistical formula developed in the publication "Estimating the Need," it is projected that over the course of a year, 751 adults and children are homeless in Atlantic County.

Atlantic City, due to the lure of the casinos, draws more than its share of homeless persons from the wider region.

Persons Threatened by Homelessness

It is difficult to accurately measure the number of persons "at-risk" of becoming homeless. It is impossible to gauge at any one time the number of people who are threatened with eviction, unemployment, foreclosure, or termination of utilities. Families and individuals are at-risk of becoming homeless when they no longer have any cushion against the perils of life. Most commonly, a family is at risk when it lives paycheck-to-paycheck without any savings for sudden emergencies. An example of an individual at risk would be a person with a mental illness facing the threat of eviction because of improper behavior. If only one lost paycheck, a small rent increase, one stint of illness, a temporary layoff from work, or one "episode" can cause people to lose their housing, then they are considered "at-risk." Furthermore, those who are vulnerable to residing in shelters or on the street and are at risk of becoming homeless include:

- Persons leaving institutions (detox, mental hospitals, prisons, etc.)
- Households with incomes less than 30% of the median family income
- Households paying in excess of 50% of income for housing costs
- Victims of domestic violence
- Special needs populations (i.e. persons with AIDS, disabilities, drug and/or alcohol addiction, etc.)
- Single parent head of households who are unemployed
- Large low-income families
- Renters facing eviction
- Homeowners facing foreclosure
- Young adults aging out of foster care systems

Households that exhibit one or more of the characteristics listed constitute a population that is "at-risk" of becoming homeless. These individuals and families are considered at-risk of becoming homeless because they have a lesser chance of being able to make economic improvements in their lives. Currently, the number of persons in each of the groups identified above is unknown. It is recognized that these populations exist in the County given the current recession.

The County has been active in preventing homelessness using funds from the state through the Social Services for the Homeless grant, administered by the CEAS committee and more recently augmented by

ATLANTIC COUNTY, NJ

federal stimulus funded Homeless Prevention and Rapid Re-housing Program (HPRP). During 2010, 33 households with 94 persons received assistance through HPRP to prevent homelessness.

9. Describe, to the extent information is available, the nature and extent of homelessness by racial and ethnic group. A quantitative analysis is not required. If a jurisdiction provides estimates of the at-risk population(s), it should also include a description of the operational definition of the at-risk group and the methodology used to generate the estimates.

The race and ethnicity of the persons counted in the 2011 Point in Time count shows that the majority of homeless were either White (31.8%) or Black (37.5%). Hispanic or Latino made up 10.6% of respondents which are incorporated by race as either White, Black, or other race. Asian, Hawaiian Native/Pacific Islander and American Indian/Alaskan Native each represent 7.7% of the homeless population. The balance, 2.5%, defined their race as Other.

For each race and ethnicity 24% and 32%, respectively, declined to respond. Since 2009, there has been a large increase in homelessness by persons of color.

NON-HOMELESS SPECIAL NEEDS 91.205 (D) INCLUDING HOPWA

**Please also refer to the Non-homeless Special Needs Tables 1A & 1B or, in the CPMP Tool, the Needs.xls workbook.*

10. Estimate, to the extent practicable, the number of persons in various subpopulations that are not homeless but may require housing or supportive services, including the elderly, frail elderly, persons with disabilities (mental, physical, developmental, persons with HIV/AIDS and their families), persons with alcohol or other drug addiction, victims of domestic violence, public housing residents, and any other categories the jurisdiction may specify and describe their supportive housing needs. The jurisdiction can use the Non-Homeless Special Needs Table (Table 1B or Needs.xls in CPMP Tool) of their Consolidated Plan to help identify these needs.

**Note: HOPWA recipients must identify the size and characteristics of the population with HIV/AIDS and their families that will be served in the metropolitan area.*

Need for Supportive Housing

Supportive housing is defined as living units that provide a planned services component with access to a range of services identified as necessary for the residents to achieve personal goals. Various populations with special needs require supportive housing. The needs of the sub-populations are described below. Because it is not possible to always determine the number of persons who have supportive housing needs, this CP uses a combination of census data and standards recommended by national agencies to determine the number of persons with supportive housing needs in Atlantic County. The review focuses on persons residing outside of Atlantic City. The information is supplemented with information collected from service providers.

Elderly and Frail Elderly

The 2000 Census reports that there were 28,070 persons age 65 and over in the County outside of Atlantic City and the City of Egg Harbor. Of the total, 26,706 lived outside of an institution. The County's non-institutionalized elderly population includes 1,782 persons age 75 and over. In 1999 the mean retirement income in Atlantic County was \$15,827 and the median household income for households over the age of 65 was \$20,976. 10.5 percent of the elderly have income below poverty. The 2000 Census reported on persons with a long-lasting disability, which is one lasting six months or more. The following table identifies the non-institutionalized elderly population, including those with a disability.

Non-Institutionalized Elderly with a Long Lasting Disability- 2000

Non-institutionalized Elderly				With a Long Lasting Disability				
65 – 74	75 and over	Total	% of Total Population	65 – 74	75 and over	Total	% of Elderly	% with 2 or more
14,924	11,782	26,706	14.7	4,407	6,191	10,598	39.7	53.0

Source: U.S. Bureau of the Census

- 5,119, or 19.2 percent of the non-institutionalized elderly, had disability that limited their ability to go outside their home. 65 percent were age 75 and over.
- 2,668 (10 percent) had a self-care disability that limits the ability to dress, bath, or get around inside the home. About 71 percent were age 75 and over.

ATLANTIC COUNTY, NJ

CHAS Data 2000 reports on elderly households in the Atlantic County with mobility and self-care disabilities. Mobility and self-care limitations are 1) a long-lasting condition that substantially limits one or more basic physical activity, such as walking, climbing stairs, reaching lifting, or carrying; and/or 2) a physical, mental or emotional condition lasting more than six months that creates difficulty with dressing, bathing, or getting around inside the home. CHAS Data 2000 provides the information by income category and reports on those with a housing problem. The data distinguishes the elderly by age as follows.

- Elderly are one or two member households, where either person is 62 to 74 years.
- Extra elderly are one or two member households, either person 75 years or older.

The following table reports elderly households with a mobility and safe care limitation in the County outside of Atlantic City and the City of Egg Harbor.

- Of 18,509 elderly households, 6,219 (34 percent) have a mobility and self-care limitation.
- 2,663 (42.8 percent) of the households with a mobility and self-care limitation, have a housing problem.
- Of those with a housing problem 2,332 (87.6 percent) have income at or below 80 percent of MFI. 69 percent of the low income households with housing problems are owners.

Source: HUD State of the Cities Data Systems: CHAS Data 2000

There has been a 9.5% increase in the population of persons age 65 and over between 2000 and 2009. Elderly persons age 65 to 74 increased by 7.7%; however, the increase was more significant among the older elderly. During the 2000's, the population of persons age 75 and over increased by 11.6% from 13,008 in 2000 to 14,515 in 2009. Persons age 75 and over comprised slightly more than six percent of the County's population in 2009.

ATLANTIC COUNTY, NJ

Persons with Disabilities

The 2000 Census reported on non-institutionalized disabled persons age five and over. The enumeration excludes institutionalized disabled persons, which consists of persons under formally authorized, supervised care or custody in institutions. The Census clarifies that a disability is a long-lasting condition lasting six months or more.

- In the County outside of Atlantic City and the City of Egg Harbor there were 215,676 non-institutionalized persons age 5 and over. Almost 16%, or 33,745 persons of the non-institutionalized population age 5 and over reported a disability.
- There were 18,296 working age persons between the ages of 16 and 64 with a disability.

Mentally Disabled

The 2000 Census reports on the non-institutionalized population with a mental disability. The Census defines mental disability as an emotional condition that makes it difficult to learn, remember, or concentrate. The following table shows the non-institutionalized persons in the County outside of Atlantic City and the City of Egg Harbor with a mental disability.

Non-Institutionalized Persons with a Mental Disability - 2000

Non-Institutionalized Population Aged 5 & Over	Mental Disability		Age								
			5 - 15			16 - 64			65 & Over

Source: U.S. Bureau of the Census

CHAS Data 2000 reports on non-elderly households with mobility and self-care disabilities. Information is available by tenure and income, and identifies those with a housing problem. The following table reports the non-elderly households with a mobility and self care limitation in the County outside of Atlantic City and the City of Egg Harbor.

- 7,745 (13.1 percent) have a mobility and self-care limitation.

ATLANTIC COUNTY, NJ

- 3,162 (40.8 percent) have a housing problem. 2,140 (67.7 percent) of the households with a housing problem have income at or below 80 percent of MFI.
- 57 percent of the low income households with housing problems are owners.

Persons with Alcohol and Other Drug Addictions

A 2002 study prepared by the National Institute on Alcohol Abuse and Alcoholism (NIAAA), completed through a survey done by the Census Bureau as part of the 2000 Census, found that 4.65 percent of adults abused alcohol and 3.81 percent were alcohol dependent. As defined by NIAAA, alcohol abuse is defined as causing failure to fulfill major role obligations at work, school, or home; interpersonal social and legal problems; and drinking in hazardous situations. Alcohol dependence, also known as alcoholism, is characterized by impaired control over drinking, compulsive drinking, pre-occupation with drinking, tolerance to alcohol, and withdrawal symptoms. The study found that alcohol disorder rates are highest among men and people aged 18 to 44. Alcohol abuse is more prevalent among whites than among Hispanics, blacks, and Asians. The study does not provide conclusions regarding those who will have housing needs.

Persons Diagnosed with HIV/AIDS

Atlantic County has one of the highest HIV infection rates in the state. The New Jersey Department of Health Division of HIV/AIDS Services reports that as of December 31, 2009, there were 717 persons in Atlantic County living with AIDS and 738 persons who are HIV positive. Seventy percent of the persons with HIV/AIDS are men, 42 percent are between the ages of 45 and 54, and 70 percent are black or Hispanic. A breakdown of persons with HIV/AIDS between City residents and those that reside in the rest of the County is not available.

According to the South Jersey AIDS Alliance, of the estimated 400 persons living with HIV in Atlantic County, 60% are homeless or under-housed.

ATLANTIC COUNTY, NJ

Victims of Domestic Violence

The Atlantic County Women's Center (ACWC) works with victims of domestic violence in Atlantic County. The ACWC is a non-profit social service agency dedicated to empowering and supporting women, children, and families. The Center runs a protective emergency shelter in non-disclosed location. The Center offers a number of services for victims of domestic abuse, including crisis intervention, domestic violence and sexual assault response teams, outpatient counseling, and a 24-hour hotline for reporting issues such as human trafficking, assault, and domestic violence.

The emergency shelter has a maximum capacity of 16 beds. Individuals utilizing the Center's facility have an average stay of 60 days, with allowances for special circumstance extensions provided that the individual participates in group counseling and intensive case management therapy. Upon leaving the emergency shelter, transitional housing is available for individuals for up to 1 year after their stay. The Women's Center recently opened a transitional shelter housing 12 women. This program is funded through the New Jersey Division of Children and Families. In 2009, ACWC housed 47 women and 42 children in their shelter facility; in 2010, the numbers rose to 72 women and 63 children. For transitional housing, in 2009 ACWC placed three women and seven children; in 2010, ACWC placed three children and eight children.

Public Housing Residents

The table below shows the wait lists for a public housing unit identifying the need for assisted rental housing. The Buena Housing Authority and the Pleasantville Housing Authority report that their wait lists are open. In Buena, the wait for a unit is about two years while in Pleasantville the wait is about six months.

Public Housing Unit and Section 8 Wait Lists – February 2011

ATLANTIC COUNTY, NJ

1-bedroom	38	100%				
2-bedroom						

Source: Buena Housing Authority, Pleasantville Housing Authority

Neither public housing agency in Atlantic County reported any critical unmet needs among its residents. The Pleasantville Housing Authority expresses the concern that HUD Section 8 Voucher payments are too low, making it difficult for extremely low income households to find an affordable unit in the County. This situation increases the demand for public housing units.

The Pleasantville Housing Authority also indicated that the wait list was open three years ago and 1,000 people signed-up. The list is currently down to 800. The Housing Authority stated that the wait list is not likely to open soon.

The New Jersey Department of Community Affairs (DCA) administers a state-wide Section 8 program. DCA reports that there are 500 households on the Section 8 waiting list, including three with persons with a disability. The greatest need is for 1-bedroom units and the wait is about six years. DCA did not report on the demographics of the households on the wait list. Priority is given to the disabled and families of domestic violence victims.

NJHMFA also provides vouchers.

LEAD-BASED PAINT 91.205 (E)

- 11.** Estimate the number of housing units* that contain lead-based paint hazards, as defined in section 1004 of the Residential Lead-Based Paint Hazard Reduction Act of 1992, and are occupied by extremely low-income, low-income and moderate-income families.

**If using the CPMP Tool, this number can be provided on the Housing Needs Table in the Needs.xls file.*

HUD has made the elimination of housing units containing lead-based paint a priority. The Center for Disease Control (CDC) has recognized the poisoning of children from contact with lead-based paint as a major public health problem. According to the CDC, lead is the No. 1 environmental health hazard to American children, affecting an estimated 10-15% of all preschoolers in the United States. Lead poisoning causes IQ reductions, reading and learning disabilities, decreased attention span, hyperactivity, and aggressive behavior. Lead-based paint was banned from residential paint in 1978. All homes built prior to that time may contain lead-based paint.

More than half of the housing stock in Atlantic County occupied by low and moderate income households consists of homes built before lead-based paint was banned in 1978. This implies that a significant percentage of the homes and apartment buildings that have not been rehabilitated or renovated in the last 32 years contain some lead-based paint.

Using data provided by HUD, it is possible to approximate the number of housing units that may contain lead-based paint and that are occupied by LMI households. The significance of this data is that LMI owner households that are cost burdened may not have the resources to abate lead-based paint in their homes. LMI renter households may not even be aware that their leased units contain lead-based paint, or they may be hesitant to ask their landlord to abate the problem for fear of being evicted or having

ATLANTIC COUNTY, NJ

their rent increased. The following table provides an estimate of the number of housing units estimated to contain lead-based paint by household income level. This data is determined by identifying the number of units built before 1970 (the number units built before 1978 is unavailable), and utilizing an industry-standard 75% approximation rate to estimate the number of units occupied by LMI households that potentially contain lead-based paint.

Atlantic County: Estimated Number of Housing Units that Potentially Contain Lead-based Paint by Income Category, 2000

Housing Units by Affordability	Renter-Occupied Units	Owner-Occupied Units	Total Units
0% - <30% of MFI			
Occupied Units	3,029	N/A	3,029
Built Prior to 1970	1,699	N/A	1,699
Estimated # of Units w/Lead-based Paint	1,274	N/A	1,274
30% - <50% of MFI			
Occupied Units	4,792	13,438	18,230
Built Prior to 1970	3,321	7,614	10,935
Estimated # of Units w/Lead-based Paint	2,491	5,711	8,201
50% - <80% of MFI			
Occupied Units	16,673	32,613	49,286
Built Prior to 1970	8,133	21,209	29,342
Estimated # of Units w/Lead-based Paint	6,100	15,907	22,007

Note: HUD CHAS data is not available for housing units built from 1970-1978.

Source: U.S. Department of HUD, SOCDS Data

The following analysis is based on the above table:

0-<30% of MFI:

HUD estimated that 1,699 (56.1%) housing units in Atlantic County were built prior to 1970 and are occupied by extremely low income households. HUD also estimates that 1,274 housing units built prior to 1970 contain lead-based paint, which is about 42.1% of the housing stock affordable to households with incomes of less than 30% of the MFI.

30-<50% MFI:

A total of 10,935 (60.0%) housing units were constructed prior to 1970 and are occupied by households with incomes between 30-50% of the MFI. HUD estimates that 8,201 housing units built prior to 1970 contain lead-based paint, which is 45.0% of the housing stock affordable to households with incomes between 30-50% of the MFI.

50-<80% MFI:

A total of 29,342 (59.5%) housing units were built prior to 1970 and are occupied by households with incomes between 50-80% of MFI. HUD estimates that 22,007 housing units built prior to 1970 contain lead-based paint, which is 44.7% of the housing stock affordable to households with incomes between 50-80% of the MFI.

HOUSING MARKET ANALYSIS

HOUSING MARKET ANALYSIS 91.210

Refer to the Housing Market Analysis Table in the Needs.xls workbook

- 12.** Based on information available to the jurisdiction, describe the significant characteristics of the housing market in terms of supply, demand, condition, and the cost of housing; the housing stock available to serve persons with disabilities; and to serve persons with HIV/AIDS and their families.

Characteristics of the Housing Market

Since 1990, the supply of housing units in Atlantic County has increased significantly. In 1990, there were 85,251 housing units in the County. The inventory rose to 93,871 in 2000 and an estimated 103,204 in 2009, which amounts to a 21.1% increase over 19 years. The number of occupied units has also increased since 2000, although it has not kept pace with the increase in supply since 2000, which has resulted in a higher vacancy rate. The 2005-2009 American Community Survey estimated that 17.5% of all housing units in Atlantic County were vacant, compared to 15.7% in 2000 and 18.6% in 1990. All data in this section that refers to Atlantic County the city of Atlantic City.

HUD's State of the Cities Data System maintains data on local building permits. As shown below, Atlantic County issued permits for 12,774 single-family units and 1,064 units in multi-family housing structures between 2001 and 2010.

Atlantic County: Permits Issued for New Residential Construction, 2001 - 2010

Units by structure type:	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	Total
Single-family	1,561	1,783	1,999	1,889	1,769	1,455	973	534	435	376	12,774
Multi-family	102	38	224	101	132	166	93	96	19	93	1,064
Two-unit	16	20	28	44	20	34	36	10	4	16	228

Five or more units	83	15	192	34	95	105	45	75	11	74	729
Total	1,663	1,821	2,223	1,990	1,901	1,621	1,066	630	454	469	13,838

Source: U.S. Department of Housing and Urban Development, SOCDS Building Permits Database

In 2009, there were 103,204 housing units in Atlantic County, 72.1% of which were single-family attached or detached units. The balance was comprised of multi-family structures with two or more units (24.8%) and other units such as mobile homes and trailers (3.1%). The table below provides a review of units per structure for the county and state.

ATLANTIC COUNTY, NJ

Atlantic County: Housing Units per Structure, 2009

	Total Units	Single-Family units (detached & attached)	Multi-Family Units				Mobile, trailer or other
			2 to 4	5 to 9	10 or more	Total	
New Jersey	3,492,160	2,203,796	559,217	172,782	519,789	1,251,788	36,576
Atlantic County	103,204	74,396	8,939	5,165	11,534	25,638	3,170

Occupancy and Tenure of Housing Units

Atlantic County's homeownership rate was 77.2% in 2009. The 2005-2009 American Community Survey reported that 65,726 of the County's 85,095 occupied housing units were owner-occupied, while 19,369 (22.8%) were renter-occupied.

Atlantic County: Occupancy and Tenure Characteristics, 1990 - 2009

	Housing Units		Owner Occupied		Renter Occupied		Vacant	
	Total	Occupied	Total	% of Occupied	Total	% of Occupied	Total	% of Total
1990	85,251	69,392	50,140	72.3%	19,252	27.7%	15,859	18.6%
2000	93,871	79,176	58,457	73.8%	20,719	26.2%	14,695	15.7%
2009	103,204	85,095	65,726	77.2%	19,369	22.8%	18,109	17.5%

Source: 1990 Census SF3 (H001, H004, H008); Census 2000 SF3 (H1, H6, H7); 2005-2009 American Community Survey (B25001, B25002, B25003)

Rental Rates

The National Low Income Housing Coalition provides annual information on the Fair Market Rent (FMR) and affordability of rental housing in each county in the United States for 2011. In Atlantic County, the Fair Market Rent (FMR) for a two-bedroom apartment is \$1,100. In order to afford this level of rent and utilities without paying more than 30% of income on housing, a household must earn \$3,666 monthly, or \$44,000 annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into a housing wage of \$21.15.

In Atlantic County, a minimum-wage worker earns an hourly wage of \$7.25. In order to afford the FMR for a two-bedroom apartment, a minimum-wage earner must work 117 hours per week, 52 weeks per year. Alternately, a household must include 2.9 minimum wage earner(s) working 40 hours per week year-round in order to make the two-bedroom FMR affordable.

The estimated mean (average) wage for an area renter is \$10.35 an hour. In order to afford the FMR for a two-bedroom apartment at this wage, a renter must work 82 hours per week, 52 weeks per year. Or, working 40 hours per week year-round, a household must include 2.0 worker(s) earning the mean renter wage in order to make the two-bedroom FMR affordable.

Monthly Supplemental Security Income (SSI) payments for an individual are \$705 in New Jersey. If SSI represents an individual's sole source of income, \$212 in monthly rent is affordable, while the FMR for a one-bedroom is \$1,092.

ATLANTIC COUNTY, NJ

Trends in the Market for Housing Sales

The housing market in Atlantic County over the past five years reflects the tremendous volatility of the real estate market across the country.

-Atlantic County Real Estate MLS Data: 2006 - 2010

	2006	2007	2008	2009	2010
Number of Sales	3,963	3,434	2,543	2,461	2,445
Average Sold Price	\$315,836	\$340,495	\$307,963	\$276,109	\$277,485
Median Sold Price	\$249,000	\$255,000	\$236,345	\$215,000	\$208,750

Source: Atlantic City and County Board of Realtors

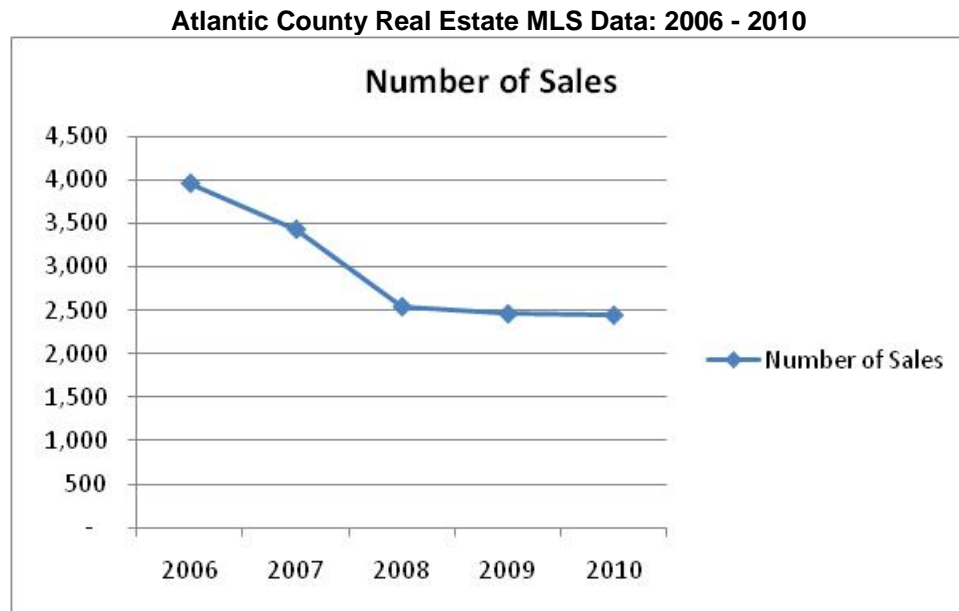

MLS data from the Atlantic City and County Board of Realtors from 2006 to 2010 shows the change in the market over the past five years. All of the MLS data refers to Atlantic County, excluding the city of Atlantic City. The number of sales reached its peak in 2006, with both prices and sales reaching a peak the following year before declining.

Source: Atlantic City and County Board of Realtors

Although the median sold price continued to decline between 2009 and 2010, the average sold price rose, indicating a potential trend of upward movement in overall housing prices.

ATLANTIC COUNTY, NJ

Source: Atlantic City and County Board of Realtors

The number of sales reflected the severity of the housing crisis. Sales dropped precipitously by nearly 56% from 2006 to 2008 before stabilizing. Sales declined by only 16 units between 2009 and 2010, indicating a potential stabilization of the housing market.

According to a discussion with the president of the local board of realtors, the end of 2010 saw greater stability in the market, with a less than 1% variation in prices from 2009 to 2010, after double-digit declines the previous years. Affordability was out of proportion in 2006 due to the steep rise in prices, with an “over-correction” of the market currently underway. In addition, housing inventory has been impacted, with have taken homes off of the market, moving the market from too much inventory to too little inventory. In addition, the ongoing foreclosure crisis may result in additional housing units being placed into the market which will further depress housing prices and the number of sales.

Condition of Local Housing Stock

Using indicators of housing deficiency available from the 2005-2009 American Community Survey, the following narrative describes the condition of the housing stock in Atlantic County.

A structure’s age is used to demonstrate the amount of time a unit has been in the housing inventory and the duration of time over which substantial maintenance is necessary. In the absence of routine maintenance, older housing usually becomes substandard. The age threshold used to signal a potential deficiency is 50 years or more. The 2005-2009 American Community Survey reported that 27.9% of the total owner-occupied and 29.3% of the renter-occupied housing stock in Atlantic County was built prior to 1960.

Other deficient characteristics of the housing stock may indicate the degree to which housing maintenance has been deferred or neglected. For example, the Census Bureau considers a lack of plumbing facilities to constitute a substandard unit. The Census Bureau defines complete plumbing facilities as hot and cold piped water, a bathtub or shower, and a flush toilet. Among owner units in Atlantic County, 251 (0.4%) lacked complete plumbing in 2009; among renter units, 211 (1.1%) lack complete plumbing in 2009.

ATLANTIC COUNTY, NJ

Overcrowding is directly related to the wear and tear sustained by a housing unit. More than one person per room is used as the threshold for defining living conditions as overcrowded. In 2009, there were 617 owner housing units (0.9%) and 942 renter units (4.9%) in Atlantic County with more than one person per room.

The following table summarizes deficiency types for owner housing in Atlantic County compared to the state. Data for renter-occupied units follows.

Atlantic County: Housing Quality Indicators among Owner-Occupied Units, 2009

	Total Owner-Occupied Units	Units Built Prior to 1960		Units Lacking Complete Facilities		Overcrowded Units	
		#	%	#	%	#	%
New Jersey	2,116,888	895,095	42.3%	6,860	0.3%	23,301	1.1%

Vacant, Available Units Affordable at Various Income Levels

CHAS Data 2000 provided data on the number of vacant dwelling units available for sale or for rent to households by income category. While this dataset is very dated, there is no other current source for this information. Atlantic County recognizes that current housing market conditions make this data obsolete for all practical purposes. However, HUD requires the inclusion and use of this data in the CP.

CHAS data based on the 2000 Census reported a total of 805 vacant for-sale units in Atlantic County. The table below lists the number of vacant for-sale units that were affordable to extremely low, very low, and low income households in 2000.

**Vacant For-Sale Units Affordable to Households
with Incomes at or below 80% MFI, 2000**

Unit Size	Number Affordable to Households with Incomes:		
	0-30% of Median	31%-50% of Median	51%-80% of Median
Atlantic County			
0-1 Bedroom	N/A	12	23
2 Bedrooms	N/A	176	198
3+ Bedrooms	N/A	175	221
Total	N/A	363	442

Source: HUD SOCDS CHAS Data 2000

ATLANTIC COUNTY, NJ

Notably:

- Sales data on units affordable to households below 30% of MFI was not available.
- Atlantic County had 363 units (45.1%) available and affordable to households with incomes between 31% and 50% of MFI.
- There were 442 units (54.9%) available and affordable to households with incomes between 51% and 80% of MFI in Atlantic County.

CHAS Data 2000 also reported there were a total of 2,139 vacant for-rent units in Atlantic County. The table below lists the number of vacant for-rent units that are affordable to low, very low, and low income households.

**Vacant For-Rent Units Affordable to Households
with Incomes at or below 80% MFI, 2000**

Unit Size	Number Affordable to Households with Incomes		
	0-30% of Median	31%-50% of Median	51%-80% of Median
Atlantic County			
0-1 Bedroom	4	213	439
2 Bedrooms	40	327	710
3 Bedrooms	54	151	201
Total	98	691	1,350

Source: HUD SOCDS CHAS Data 2000

Of these:

- Atlantic County had 98 units (4.6%) available and affordable to households with incomes below 30% MFI.
- Atlantic County had 691 units (32.3%) available and affordable to households with incomes between 31% and 50% of MFI.
- There were 1,350 units (63.1%) available and affordable to households with incomes between 51% and 80% of MFI in Atlantic County.

- 13.** Provide an estimate; to the extent information is available, of the number of vacant or abandoned buildings and whether units in these buildings are suitable for rehabilitation.

According to the 2005-2009 American Community Surveys, there were 18,109 vacant units. The vacancy rate decreased from 20 percent in 2000 to 17.5% by 2009. The decline in vacant units indicates that there are more full-time year round residents living in Atlantic County.

Of the County's 18,109 vacant units, more than three-quarters (13,855) were for seasonal, recreational, or occasional use. Removing the vacant units that are used seasonally reduces the vacant units in the County to just 4,254, or 5.0% of the total housing stock. In 2009, 1,971 of the vacant units (10.9%) were for rent and 1,526 (7.6%) were for sale, with 774 (4.3%) having been rented or sold but not occupied. Of the 3,166 units in Atlantic County classified by the Census as "Other Vacant" (i.e. not for rent, for sale, held for seasonal use, or rented or sold), 1,206 (38.1%) were in Atlantic City.

There is no information available to determine vacant units that are abandoned or those that are suitable for rehabilitation.

PUBLIC AND ASSISTED HOUSING 91.210 (B)

- 14.** In cooperation with the public housing agency or agencies located within its boundaries, describe the needs of public housing, including
- a. the number of public housing units in the jurisdiction,
 - b. the physical condition of such units,
 - c. the restoration and revitalization needs of public housing projects within the jurisdiction,
 - d. the number of families on public housing and tenant-based waiting lists and
 - e. results from the Section 504 needs assessment of public housing projects located within its boundaries (i.e. assessment of needs of tenants and applicants on waiting list for accessible units as required by 24 CFR 8.25).

The jurisdiction can use the optional Priority Public Housing Needs Table of the Consolidated Plan to identify priority public housing needs to assist in this process.

The following provides a review of the assisted rental housing in Atlantic County. Assisted rental housing includes public housing units owned and managed by a public housing agency. Assisted rental housing also describes the Section 8 Public Housing Choice Voucher Program available in Atlantic County. Finally, other assisted rental housing described by this Part includes units available to low income households assisted by local, State or federally funded programs.

Public Housing Units

There are two public housing agencies in Atlantic County outside of Atlantic City. The Agency Plans for the public housing agencies are on file at the Atlantic County Improvement Authority. Additionally, the State of New Jersey Department of Community Affairs administers a Section 8 program in Atlantic County. The following is information regarding public housing in Atlantic County.

Public Housing – 2011

	Total Units			Bedrooms				
Development	Family	Elderly	Accessible Units	0	1	2	3	4 or more
Park View Gardens, 600 Central Ave., Buena	0	60	0	0	60	0	0	0

Source: Buena Borough Housing Authority, City of Pleasantville Housing Authority

Pleasantville Housing Authority

The Pleasantville Housing Authority (PHA) manages the Housing Choice Voucher program. Section 8, also known as the Housing Choice Voucher (HCV) Program, provides funding for rent subsidies for eligible low and very low-income families, the elderly, and disabled to afford safe, decent, sanitary and affordable housing in the private market. Families can select housing within a neighborhood of their choice from a landlord willing to participate in the program. Since housing assistance is provided on behalf of the family or individual, participants are able to find their own housing, including single family homes, townhouses, and apartments. Rent subsidies (vouchers) allow families to pay a reasonable share of their income toward rent while the program, within specific limits, makes up the difference.

ATLANTIC COUNTY, NJ

The following table outlines the current Section 8 HCV holders and public housing tenants and.

**Public Housing Choice Vouchers and Section 8
Housing Choice Voucher Holders, 2011**

Condition of Public Housing and revitalization needs

Both of the public housing agencies report that the buildings are in good condition. The Public Housing Assessment System score for Pleasantville was 89 of 100, making it a standard performer.

The Buena Borough Housing Authority completed a Physical Needs Assessment (PNA) of its housing stock in 2009.

None of the above units are expected to be lost from the inventory.

Waiting list

As described in the prior section, Pleasantville and the Buena Vista Housing Authorities maintain waiting lists. The combined waiting list is shown on page 30.

ATLANTIC COUNTY, NJ

Section 504 Needs Assessment

Both of the public housing authorities report that they have modified public housing units for the handicapped in agreement with the Section 504 requirements. Neither is required to increase the number of accessible units by a Section 504 Voluntary Compliance Agreement.

The Buena Borough Housing Authority last updated its 504 needs assessment and transition plan in 2006.

15. Describe the number and targeting (income level and type of household served) of units currently assisted by local, state, or federally funded programs, and an assessment of whether any such units are expected to be lost from the assisted housing inventory for any reason, (i.e. expiration of Section 8 contracts).

Assisted Housing

The NJ Guide to Affordable Housing in New Jersey, 2010 for Atlantic County shows that there are 2,078 other assisted rental housing units in Atlantic County outside of Atlantic City. Of these units, 650 are reserved for the elderly, 273 for special needs populations and 1,115 are available for families.

Appendix E contains the Guide to Affordable Housing for Atlantic County. The listing does not include all affordable units, only those built under certain federal or State initiatives. However, the guide identifies the housing in Atlantic County by special needs (SPC), Elderly (AGE), and families (FAM). Housing is further identified by community and funding program. The 3 agencies providing Section 8 rental assistance vouchers: Pleasantville, NJ HMFA and NJ DCA are also identified. Additional information on the guide is available at:

<http://www.state.nj.us/dca/divisions/codes/publications/guide.html>

A new elderly building will be opening in Pleasantville in 2011 with 73 units. Atlantic County provided a HOME program subsidy for this development.

Units available by income:

Almost all of the units shown in the guide are available to persons with incomes below 80% of the median.

Many units are further restricted to families with incomes below 50% of the median. Based on the formula for subsidy of rental units using 30% of income, most of the programs target families with incomes under 50% of median. The tax credit rules require that 20% of the units be available to household with incomes below 50% of the median.

None of the housing programs specifically target households below 30% of median.

According to HMFA, none of the Assisted Rental Housing units in Atlantic County are expected to be removed from the pool of affordable housing units for low income households over the next five years.

HOMELESS INVENTORY 91.210 (C)

16. The jurisdiction shall provide a concise summary of the existing facilities and services (including a brief inventory) that assist homeless persons and families with children and subpopulations identified in Table 1A or in the CPMP Tool Needs Table. These include outreach and assessment, emergency shelters and services, transitional housing, permanent supportive housing, access to permanent housing, and activities to prevent low-income individuals and families with children (especially extremely low-income) from becoming homeless. This inventory of facilities should include (to the extent it is available to the jurisdiction) an estimate of the percentage or number of beds and supportive services programs that are serving people that are chronically homeless.

The jurisdiction can use the optional Continuum of Care Housing Activity Chart and Service Activity Chart to meet this requirement.

Outreach and Assessment:

Atlantic County has long adhered to a Housing-First policy for families. When a family is threatened with homelessness or becomes homeless, the Atlantic County Department of Family and Community Development provides services to quickly re-house that family.

Outreach to persons living on the streets is conducted on a regular basis by a team consisting of case-managers and counselors from the PATH Program and Jewish Family Services. Two teams of two persons each canvass empty buildings, the boardwalk in Atlantic City, and other places homeless persons frequent. Connections are made to the Rescue Mission for shelter and other services. A nurse practitioner accompanies teams to provide primary health care services.

Emergency Shelter:

The table below identifies emergency shelter space in Atlantic County. Emergency shelter is a facility or program that offers a homeless persons or family a safe place to stay on a temporary basis, in most cases for a period up to 30 days. None of the beds are specifically allocated to chronically homeless.

Emergency Shelter

Provider Name/Shelter Name	Target Population	Year-Round Units/Beds			All Beds		
		Family Units	Family Beds	Individual Beds	Total Beds	Seasonal	Overflow/Voucher
Atlantic County Rescue Mission	all	11	46	304	350		80
Atlantic County Women's Center	victims of domestic violence and their children	7	14	5	19		
Covenant House	single men and women – young adults	6	12	29	41		
Total					410		80

Source: 2011 HDX data, Atlantic Co. COC

In addition, motel vouchers are available from service providers in the county. During the point in time count, 14 families and 26 individuals were housed in motels.

ATLANTIC COUNTY, NJ

Transitional Housing:

The table below identifies transitional housing in Atlantic County. Transitional housing is a facility or program that offers temporary housing with supportive services in most cases for up to two years.

Transitional Housing

Provider Name/Shelter Name	Target Population	Year-Round Units/Beds			Total Beds
		Family Units	Family Beds	Individual Beds	
Women's Center	Victims of Domestic Violence			12	12

Source: 2011 HDX data, Atlantic Co. COC

Permanent Supportive Housing:

The table below identifies permanent supportive housing in Atlantic County. Permanent supportive housing is long-term community based housing with supportive services for a homeless person or family with a disability to enable them to live as independently as possible.

Permanent Supportive Housing

Provider Name/Shelter Name	Target Population	Year-Round Units/Beds			Total Beds
		Family Units	Family Beds	Individual Beds	
NJDCA S + C	Single men and women			13	13
JFS/CSP S + C	Chronic homeless			5	5
ACRM Absecon Homes	Single men and women			10	10
ACRM Barnabas House	Single men			10	10
Covenant House	Young adults			20	20
CODI	Single individuals			4	4
Veterans Administration - VASH	Veterans	4	12	26	38
Total		4	12	88	100

Source: 2011 HDX data, Atlantic Co. COC

The permanent housing above largely serves chronically homeless individuals. The four units at CODI, plus the 13 unit S+ C and four of the five new JFS S+C units, must serve chronic homeless individuals and account for 21 beds.

Access to Permanent Housing:

The availability of permanent housing for very low income and low income families in much of Atlantic County is limited. The County is largely rural with few housing alternatives. Within the more densely settled towns there is a wider range of housing, including multi-family housing but costs are high.

When guests are ready to leave the shelter, a Housing Locator assists with finding new housing.

Services:

Services to address the needs of homeless persons and persons threatened with homelessness in Atlantic County are extensive. The Atlantic County Department of Family and Community Development effectively works as an anti-poverty agency offering comprehensive supportive services. The Department includes a WorkFirst New Jersey unit, which is responsible for ensuring that TANF and GA recipients follow a specific program designed to move clients into employment. The Department provides rent assistance, utility assistance, medical assistance, case management and counseling

ATLANTIC COUNTY, NJ

services to assist with financial management and benefit entitlement assistance, and other varied programs that that empower low income households assisting them to develop skills for independent living. Its Wheels to Work Program provides free bus transportation to customers who rely on public transportation and live in areas of the County where public transportation is not available.

Case management and access to services is provided by a long list of agencies. There is no wrong door for access to supportive services. County agencies provide access to mental health and drug and alcohol addiction treatment services for those that do not have private insurance. AtlantiCare Behavioral Health, co-located at Rescue Mission, provides intensive acute care as well as counseling.

One-Stop Career Centers provide job readiness and help in assistance in obtaining jobs. The WorkFirst New Jersey Program works to move homeless persons into employment. All homeless adults receiving assistance must participate in the WorkFirst Program.

Prevention:

Atlantic County employs the Housing First model. When a family is in need of Emergency Assistance, the case managers at the County EA office take steps to place them in permanent housing as quickly as possible. When needed, most homeless families are housed at the Atlantic City Rescue Mission (ACRM). ACRM employs a Housing Locator Specialist who works with local landlords to place families in appropriate housing. The County received both HPRP and additional Social Services for the Homeless (SSH) funds from the stimulus program. ACRM has administered the Homeless Prevention and Rapid Re-housing Program (HPRP) for Atlantic County. Through these funds, individuals and families threatened with imminent homelessness were able to access funds for several months for payment of rent and utilities while they worked with a case manager to stabilize their housing situation. The County is seeking additional funds to continue this program. A one month subsidy is available through CEAS funds.

The COC Planning committee is seeking to expand the work of the Housing Locator at ACRM and JFS. To prevent eviction, the housing locator develops relationships and provides rental owners with resources to contact when families are falling behind. Thus, an early warning system will be established so that families at risk of becoming homeless can be identified. When a family is in trouble, rather than evict, the landlord will have the knowledge of community resources to help stabilize that family.

SPECIAL NEED FACILITIES AND SERVICES 91.210 (D)

17. Describe, to the extent information is available, the facilities and services that assist persons who are not homeless but require supportive housing, and programs for ensuring persons returning from mental and physical health institutions receive appropriate supportive housing.

Housing Stock for Non-homeless Special Needs

The following table includes facilities and services that assist persons who are not homeless but who require supportive housing, and programs that ensure that persons returning from mental and physical health institutions receive appropriate supportive housing.

The following is a list of housing opportunities for persons with disabilities and special needs in Atlantic County.

Local Resources for Special Needs Populations	
Domestic Abuse Victims	Youth
The Women's Center	Covenant House
Elderly	Substance Abuse
The Atlantic County Division of Intergenerational Services	Hansen House
See <i>Affordable Housing Guide</i>	
Physically/Mentally/Developmentally Disabled	
Zion, Inc.	HIV/AIDS
Vineland Development Center	The Atlantic County Division of Intergenerational Services - AIDS Community Care Alternatives Program
ARC	The New Jersey Department of Health, Division of AIDS Prevention and Control -AIDS home and community-based care program
CARING, Inc.	HOPWA rental assistance is available through NJ DCA. HOPWA is administered state-wide by NJ Dept. of Health and Senior Services.
Career Opportunity Development Center, Inc.	Veterans
Collaborative Support Programs of NJ	Veteran's Point at the Gate, Somers Point
Community Options Inc.	VASH – Veterans Assistance Supportive Housing
Developmental Resources Corp.	

The inventory of assisted housing is provided in the previous section. Further the *Guide to Affordable Housing* in Exhibit E provides a listing of programs available to special needs populations.

Through discharge planning, persons leaving mental institutions and the County Prison are directed to appropriate housing. The policies of the State and County regarding discharge prohibit discharge to a condition of homelessness.

The Atlantic County Social Services for the Homeless Committee continues to work with AtlanticCare, the region's largest health care provider, to ensure appropriate discharge from in-patient care as well.

BARRIERS TO AFFORDABLE HOUSING 91.210 (E)

18. Explain whether the cost of housing or the incentives to develop, maintain, or improve affordable housing are affected by public policies, particularly those of the local jurisdiction. Such policies include tax policy affecting land and other property, land use controls, zoning ordinances, building codes, fees and charges, growth limits, and policies that affect the return on residential investment.

The 2000 Census reports that there is housing in Atlantic County within the affordability range of low income households, particularly those in the range of 70 percent to 80 percent of MFI.

Atlantic County has very limited ability to address barriers that are imposed due to local regulations. In New Jersey, the power behind land development decisions resides with the municipal governments through the formulation and administration of local controls including master plans, zoning ordinances, and subdivision ordinances. Building and development permits are also regulated by the municipalities. County master plans in New Jersey are advisory only. The County does not charge impact fees, request set-asides, require referendums nor any other process or policy that increases the cost of the construction of housing.

New Jersey is working to address the need for affordable housing by low income households on a regional basis through its Council on Affordable Housing (COAH). COAH's mission is to implement and enforce New Jersey's Fair Housing Act of 1985 (the Act). The Act amended the New Jersey Municipal Land Use Law requiring that for a municipality to have the power to zone it must adopt a land use element and a housing element within their Master Plan.

Through a detailed formula, COAH establishes need numbers for all municipalities. There are various methods for municipalities to address their fair share obligation for the provision of affordable housing. The methods include rehabilitation and resale of existing units, zoning specific areas for low income housing, accessory apartments, buy-down programs, congregate living, and group homes for physically handicapped and mentally disabled persons. COAH certification is not mandatory, but by having a municipal housing element and a fair share plan certified by COAH, a municipality is deemed in compliance, limiting exposure from exclusionary lawsuits. More importantly the certification ensures a municipality has addressed its need for affordable housing by low income households. COAH reports that as of March 2011, the following municipalities have petitioned for third round certification:

- Brigantine City
- Buena Vista Township
- Egg Harbor City
- Galloway Township
- Linwood City
- Mullica Township

The municipalities are working to expand affordable housing opportunities locally in furtherance of removal of barriers to affordable housing. As of November, 2010, COAH identified 548 new units constructed and 136 units rehabilitated in Atlantic County that are part of the affordable housing stock of the County.

ATLANTIC COUNTY, NJ

Atlantic County is a fast growing community that is part of a Primary Metropolitan Statistical Area. Development in much of the County is limited due to the States policies of the Coastal Area Facilities Review Act of 1973 and the Pinelands Protection Act of 1979. Despite a short-term decline due to the mortgage crisis, the limited land and proximity to the shore continue to exert upward pressure on development costs that are reflected by rising housing costs. Recognizing the concerns that have impacte the creation of affordable housing, Atlantic County continues to fund housing programs including a Housing Rehabilitation Program and a Down Payment Closing Cost Assistance Program.

STRATEGIC PLAN

The strategic plan must describe how the jurisdiction plans to provide new or improved availability, affordability, and sustainability of decent housing, a suitable living environment, and economic opportunity, principally for extremely low-, low-income, and moderate-income residents.

GENERAL PRIORITY NEEDS ANALYSIS AND STRATEGIES 91.215 (A)

19. In this narrative, describe the reasons for setting priorities for allocating investment among different activities and needs, as identified in tables* prescribed by HUD. 92.215(a)(1)

****If not using the CPMP Tool:** Complete and submit Table 1A Homeless and Special Needs Population; Table 1B Special Needs (Non-Homeless) Populations; Table 2A Priority Housing Needs/Investment Plan Table; and Table 2B Priority Community Development Needs.*

****If using the CPMP Tool:** Complete and submit the Needs Table file: Needs.xls*

Table 2A identifies the community development priority needs that Atlantic County will work to achieve over the next five years. The following section provides a review of the objectives that the priorities will help to achieve. It should be noted that there are instances where recognized high priority needs have been assigned low priority. These instances reflect the availability of alternative funding resources for those needs. The allocation of funds to activities that have an alternative funding option decreases funding available for those underserved needs that don't have other capital resources available.

High priority has been established for housing rehabilitation for owner occupied housing, affordable homeownership opportunities, the creation of new rental housing opportunities, public infrastructure, services to seniors, particularly transportation and services and facilities for the homeless.

HOME funds are allocated to housing rehabilitation, homeownership and to housing development. The need to maintain housing is evidenced by:

- About 70 percent of the low income owners have a housing problem. 82 percent of extremely low income owners have a housing problem. Large households have the greatest percentage with housing problems while elderly households have the largest number.
- Among owner units, 54 percent that are affordable to low income households are estimated to be at highest risk for lead-based paint.
- Over 30 of the owner occupied housing in Atlantic County is over 40 years old and 12 percent was constructed prior to 1940.
- Demand for rehabilitation among low income households remains high. As of March 2011 there continued to be households on the wait list for the County's Housing Rehabilitation Program.

The need to create new housing opportunities is evidenced by:

- The County-wide rate of home ownership remains high. Rates by municipality, however, vary substantially. In over one-quarter of the municipalities, less than two-thirds of the households are owners.

ATLANTIC COUNTY, NJ

- Expanding home ownership among low income households, particularly among those residing in the older established towns will boost neighborhoods in support of community revitalization. Expanding home ownership among low income households will also support expanded ownership among minority households in agreement with national objectives.
- Almost 67 percent of low income renter households have a housing problem. 80 percent of very low income renter households have a housing problem. Large households have the highest percentage with housing problems while small households have the greatest number.
- Elderly owners also would greatly benefit by expansion of renter housing for low income households. Among low income owner households, elderly households have the greatest number with housing problems. During the 1990s the population of elderly persons age 75 and over was significant, increasing by 15.1 percent from 14,076 in 1990 to 16,205 in 2000. Trends indicate the continued need for housing among the elderly. The long tenure of the households that age in place contributes to neighborhood stability and allows elderly households to continue to reside near their families. The aging of the population, however, can place a strain on the housing stock particularly when the senior citizens lack the energy or means to maintain the larger structures.
- There are over 700 low income elderly renter households with a mobility or self-care disability with a housing problem. There are about 1,100 low income non-elderly renter households with a mobility or self-care disability with a housing problem. Decent safe rental housing is important to the disabled, many of whom live on very limited incomes with their housing choice limited to rental housing.

20. Describe the geographic areas of the jurisdiction (including areas of low income families and/or racial/minority concentration) in which assistance will be directed.

Priority funding areas in Atlantic County include those where the percentage of low and moderate income (LMI) persons exceeds 45.1%. The County also prioritizes areas of racial and ethnic concentration, defined as census tracts where the percentage of a specific racial or ethnic group is at least 10 percentage points higher than the County's rate overall. The following narrative describes the characteristics of these areas.

Concentrations of Minority and Hispanic Persons

Atlantic County has become increasingly diverse since 1990. Between that year and 2009, the County's percentage of minority residents increased from 14.9% to 26.8%. The minority share of the population grew during a time of population increase, as the County continued to gain White residents, although at a slower rate than it gained persons of other races.

In Atlantic County, diversity has also recently expanded within the non-White population. The percentage of Black residents has decreased slightly since 2000, although it increased since 1990. Additionally, there have been sizable increases in the number of Asian/Pacific Islanders, persons of "other" race, and persons of Hispanic ethnicity. Between 1990 and 2009, the following trends could also be noted:

- Atlantic County's Black population increased by 6.3% and Black persons now represent a larger share of the total population than they did in 1990.

ATLANTIC COUNTY, NJ

- In Atlantic County, Native Americans decreased in number from 372 in 1990 to 340 in 2009, a change of -8.6%.
- The number of Asian/Pacific Islanders more than tripled, increasing at the greatest rate among racial and ethnic groups (265.4%).
- Persons of “some other race,” increased by 255.7% in Atlantic County.
- “Persons of two or more races” was a new category in the 2000 Census. At that time, persons in this category comprised 2.2% of the total population of Atlantic County. This segment changed little, increasing to 2.3% of the County’s population in 2009.
- Persons of Hispanic origin¹ account for 12.9% of Atlantic County’s total population, an increase from 5.5% in 1990.

Atlantic County: Population Trends by Race and Ethnic Origin, 1990 to 2009

	1990		2000		2009		% Change 1990-2009
	#	%	#	%	#	%	
Atlantic County	186,341	100.0%	212,035	100.0%	230,344	100.0%	23.6%
White	158,622	85.1%	161,823	76.3%	168,631	73.2%	6.3%
Black	19,573	10.5%	26,642	12.6%	28,295	12.3%	44.6%

Some Other Race	4,501	2.4%	9,732	4.6%	16,009	7.0%	255.7%
Two or More Races*	N/A		4,714	2.2%	5,405	2.3%	14.7%
Hispanic	10,304	5.5%	20,622	9.7%	29,741	12.9%	188.6%

* Data for Two or More Races was not available in 1990.

Source: 1990 Census SF1 (P1, P6, P8); Census 2000 SF1 (P1, P3, P4); 2005-2009 American Community Survey (B01003, B02001, B03001)

The following table presents population data for Atlantic County by race and ethnicity. The data is presented by municipality for all 230,344 Atlantic residents in 2009. HUD defines areas of racial or ethnic concentration as geographical areas where the percentage of a specific minority or ethnic group is 10 percentage points higher than in the County overall.

In Atlantic County, Black residents comprised 12.3% of the population. Therefore, an area of racial concentration includes census tracts where the percentage of Black residents is 22.3% or higher. Of the 22 total municipalities in Atlantic County (not including Atlantic City), five include census tracts that qualify using this definition. In the County, Asian/Pacific Islander residents comprised 5.1% of the population; therefore, an area of racial concentration includes census tracts where the percentage of Asian/Pacific Islander residents is 15.1% or higher. Of the 22 total municipalities in Atlantic County, two include census tracts that qualify using this definition. Further, persons of Hispanic ethnicity represent 12.9% of Atlantic County’s population. Therefore, an area of ethnic concentration would include census tracts of 22.9% or higher. Of the 22 total municipalities in Atlantic County, four include census tracts that qualify using this definition.

¹ Hispanic origin is defined by the Census Bureau as “people whose origins are from Spain, the Spanish-speaking countries of Central or South America, the Caribbean, or those identifying themselves generally as Spanish, Spanish-American, etc. Origin can be viewed as ancestry, nationality, or country of birth of the person or person’s parents or ancestors prior to their arrival in the United States. Spanish/Hispanic/Latino people may be of any race.”

ATLANTIC COUNTY, NJ

The locations of areas of racial concentration in Atlantic County are illustrated in the following map.

Low Moderate Income Areas

The following table presents information regarding low and moderate income (LMI) persons in Atlantic County. LMI persons, as determined by HUD, have incomes at or below 80% of the median family income (MFI). In its 2010 estimates, HUD determined that there were 74,393 LMI persons in Atlantic County, equivalent to 35.9% of the population for whom this rate is determined.

HUD defines an LMI census block group in Atlantic County as one in which 45.1% or more of the population have incomes of 80% or less of MFI. According to these criteria, 37 of the County's 152 census block groups qualify as LMI areas. The table below lists all block groups for which LMI status has been determined.

Source: Housing and Urban Development FY2010 LMI estimates

ATLANTIC COUNTY, NJ

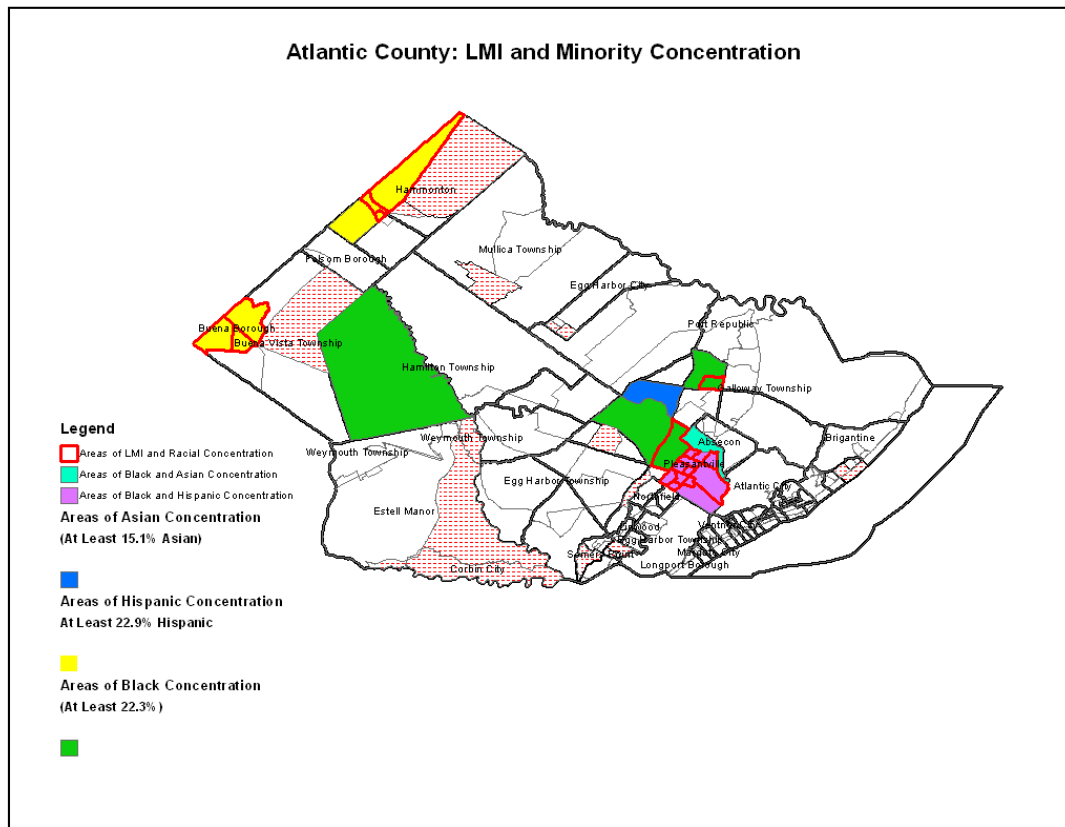

Atlantic County's LMI areas are illustrated in the following map.

ATLANTIC COUNTY, NJ

Concentrations of LMI Persons and Minority Persons

In Atlantic County, of the 24 census tracts which contained block groups identified as LMI areas, nine were noted also to be areas of racial or ethnic concentration. The census tracts that qualified as both areas of racial concentration and LMI concentration were: 105.03, 108, 111, 113, 117.02, 119, 120, 121, and 122. These areas are illustrated in the following map.

21. If applicable, identify the census tracts for Neighborhood Revitalization Strategy Areas and/or any local targeted areas.

There are no locally designated target areas nor Neighborhood Revitalization Strategy areas.

22. Describe the basis for allocating investments geographically within the jurisdiction (or within the EMSA for HOPWA) (91.215(a)(1)) and the basis for assigning the priority (including the relative priority, where required) given to each category of priority needs (91.215(a)(2)).

Atlantic County provides funds to the local jurisdictions based on a per capita formula. The local municipalities are encouraged to consult their community in requesting funds for CDBG activities. Activities must benefit a low income population.

ATLANTIC COUNTY, NJ

Housing opportunities utilizing HOME funds are available county-wide. Development is encouraged in the areas of the County that are served by appropriate infrastructure and transportation and serve to further the aims of providing diverse housing opportunities in all communities, particularly those that are not racially segregated.

- 23.** If appropriate, the jurisdiction should estimate the percentage of funds the jurisdiction plans to dedicate to Neighborhood Revitalization Strategy Areas and/or any local targeted areas.

There are no locally designated target areas nor Neighborhood Revitalization Strategy areas.

- 24.** Identify any obstacles to meeting underserved needs.

Underserved needs are evidenced by the lengthy waiting lists for housing rehabilitation, rental assistance, public housing and other services. The lack of funding is the key obstacle in meeting these needs. The combined impact of a lack of housing affordability and few employment options creates a high demand for housing services. In addition, remedies to affordability are hampered by the increasing land costs, despite the real estate downturn, particularly in the more developed portions of the County that are convenient to transportation, infrastructure, and services.

SPECIFIC OBJECTIVES 91.215 (A) (4)

25. Summarize priorities and specific objectives the jurisdiction intends to initiate and/or complete in accordance with the tables* prescribed by HUD. Outcomes must be categorized as providing either new or improved availability/accessibility, affordability, or sustainability of decent housing, a suitable living environment, and economic opportunity.

<input type="checkbox"/>	Objective Category Decent Housing Which includes:	<input type="checkbox"/>	Objective Category: Suitable Living Environment Which includes:	<input type="checkbox"/>	Objective Category: Expanded Economic Opportunities Which includes:
<input checked="" type="checkbox"/>	assisting homeless persons obtain affordable housing	<input checked="" type="checkbox"/>	improving the safety and livability of neighborhoods	<input checked="" type="checkbox"/>	job creation and retention
<input checked="" type="checkbox"/>	assisting persons at risk of becoming homeless	<input checked="" type="checkbox"/>	eliminating blighting influences and the deterioration of property and facilities	<input type="checkbox"/>	establishment, stabilization and expansion of small business (including micro-businesses)
<input checked="" type="checkbox"/>	retaining the affordable housing stock	<input checked="" type="checkbox"/>	increasing the access to quality public and private facilities	<input type="checkbox"/>	the provision of public services concerned with employment
<input checked="" type="checkbox"/>	increasing the availability of affordable permanent housing in standard condition to low-income and moderate-income families, particularly to members of disadvantaged minorities without discrimination on the basis of race, color, religion, sex, national origin, familial status, or disability	<input type="checkbox"/>	reducing the isolation of income groups within areas through spatial deconcentration of housing opportunities for lower income persons and the revitalization of deteriorating neighborhoods	<input type="checkbox"/>	the provision of jobs to low-income persons living in areas affected by those programs and activities under programs covered by the plan
<input checked="" type="checkbox"/>	increasing the supply of supportive housing which includes structural features and services to enable persons with special needs (including persons with HIV/AIDS) to live in dignity and independence	<input type="checkbox"/>	restoring and preserving properties of special historic, architectural, or aesthetic value	<input type="checkbox"/>	availability of mortgage financing for low income persons at reasonable rates using non-discriminatory lending practices
<input checked="" type="checkbox"/>	providing affordable housing that is accessible to job opportunities	<input type="checkbox"/>	conserving energy resources and use of renewable energy sources	<input type="checkbox"/>	access to capital and credit for development activities that promote the long-term economic social viability of the community

Table 1C can be found in Appendix C.

HOUSING

PRIORITY HOUSING NEEDS

91.215 (B)

26. Describe the relationship between the allocation priorities and the extent of need given to each category specified in the Housing Needs Table (Table 2A or Needs.xls). These categories correspond with special tabulations of U.S. census data provided by HUD for the preparation of the Consolidated Plan.

Table 2A in Appendix C.

ATLANTIC COUNTY, NJ

Funds for various housing programs are allocated based on relative demand as evidenced by waiting list. There is a strong demand, despite the economy, for home purchase assistance. Housing rehabilitation for lower income owners has always had a high level of demand.

Funds are allocated to rental activities as developers request assistance. Community Housing Development Organizations (CHDOs) must receive a minimum of 15% of each year's HOME allocation. Often the County provides a larger percentage to meet the funding need for a particular development. Housing developed for rental often does target a special needs population – elderly or disabled.

27. Provide an analysis of how the characteristics of the housing market and the severity of housing problems and needs of each category of residents provided the basis for determining the relative priority of each priority housing need category, particularly among extremely low-income, low-income, and moderate-income households.

Note: Family and income types may be grouped in the case of closely related categories of residents where the analysis would apply to more than one family or income type.

In determining the allocation of funds, the characteristics of the market and severity of the housing problem is considered. The United Way of Atlantic County produced a Community Needs Assessment (2010). This survey of the community identified the top needs in the county by town or community as well as county-wide. Affordability of Living was cited repeatedly as:

- The ability to meet the costs of utility bills
- A lack of housing choices in line with income
- The ability to meet the costs of maintaining or fixing a personal vehicle
- Unemployment
- Homelessness

More than 30% of the Atlantic County population rent where they reside. (US Census, 2009) According to the National Low Income Housing Coalition's Out of Reach Report, the Fair Market Rent (FMR) for a two-bedroom apartment is \$1,100 in Atlantic County. In order to keep housing costs at the recommended benchmark of no-more than 30% of income, household wage-earners must collectively make \$3,670 monthly or \$44,000 annually (2011).

The minimum wage worker earns an hourly wage of \$7.25 in Atlantic County. In order to afford the FMR for a two-bedroom apartment, a minimum wage earner must work 117 hours per week, 52 weeks per year. Or, a household must include 2.9 minimum wage earner(s) working 40 hours per week year-round in order to afford the cost of a two-bedroom rental (National Low Income Housing Coalition, 2011).

Monthly Supplemental Security Income (SSI) payments for an individual are \$705 in New Jersey. If an individual's sole source of income is SSI, they can afford a monthly rental cost of \$212. The FMR for a one-bedroom unit is \$1,092. A unit is considered affordable if it costs no more than 30% of the renter's income. (National Low Income Housing Coalition, 2011)

One unexpected expense, such as a car repair or illness requiring medical care, can nudge a hard-working family toward the poverty line. Respondents rank their inability to meet the costs of maintaining or fixing a personal vehicle as the 5th most important household issue.

ATLANTIC COUNTY, NJ

According to The Surface Transportation Policy Partnership, the poorest fifth of Americans spend 42% of their annual household budget on the purchase, operation, and maintenance of automobiles. This is more than two times the national average. Low income people typically have older cars and therefore unexpected repair costs. Their often poor credit histories translate into sub-prime loans with higher interest rates. They often are victims to predatory lending which can result in car repossession, damaged credit, and no job transportation. (2010)

28. Identify any obstacles to meeting underserved needs.

There continues to be large underserved needs of Atlantic county residents for housing rehabilitation and homebuyer assistance, affordable rental housing, emergency rental assistance and emergency mortgage assistance. The federal funds are insufficient to address these needs.

Atlantic County continues to use its entitlement funds to provide assistance with activities that meet the underserved needs of the community. Through continued support of the Comprehensive Emergency Assistance Systems Committee and the Homeless Assessment Resource Team, Atlantic County remains apprised of the needs of the underserved and the changes in the needs over time. This facilitates use of scarce funds in an efficient way.

SPECIFIC OBJECTIVES/AFFORDABLE HOUSING 91.215 (B)

Note: Specific affordable housing objectives must specify the number of extremely low-income, low-income, and moderate-income households to whom the jurisdiction will provide affordable housing as defined in 24 CFR 92.252 for rental housing and 24 CFR 92.254 for homeownership. (24 CFR 91.215(b)(2))

29. Identify each specific housing objective by number (DH-1, DH-2, DH-3), proposed accomplishments and outcomes the jurisdiction hopes to achieve in quantitative terms over a specified time period, or in other measurable terms as identified and defined by the jurisdiction.

Complete and submit Table 1C Summary of Specific Objectives or, if using the CPMP Tool, the Summaries.xls file.

The ability to clearly demonstrate program results at a national level is having serious consequences on program budgets. In response, HUD has developed an outcomes performance measurement system to collect information on outcomes of activities and to aggregate that information at the local and national level. The outcomes that HUD is tracking include:

- Availability/accessibility
Availability is related to making services, infrastructure, housing, or shelter available or accessible to individual residents/beneficiaries.
- Affordability
Affordability may include the creation or maintenance of affordable housing, basic infrastructure hook-ups or services such as transportation or day care.
- Sustainability: Promoting livable or viable communities

ATLANTIC COUNTY, NJ

Sustainability is specifically tied to activities that are meant to ensure that a particular geographic area as a whole (neighborhood, downtown, etc) remains viable. It is targeted at supporting a specific physical location.

Each outcome is paired with an objective:

- Create a suitable living environment
This objective relates to activities that are intended to address a wide range of issues faced by LMI persons from physical problems with their environment such as poor quality infrastructure to social issues such as crime prevention, literacy or elderly health services.
- Provide decent affordable housing
This objective focuses on housing programs where the purpose of the program is to meet individual family or community needs and not programs where housing is an element of a larger effort since they would be more appropriately reported under suitable living environment.
- Create economic opportunities
This objective applies to the types of activities related to economic development, commercial revitalization or job creation.

The objectives, outcomes, and output indicators will be combined to produce outcome narratives that will be comprehensive and will demonstrate the benefits that result from the expenditure of these federal funds.

HUD Specific Objectives Matrix

	Availability/ Accessibility	Affordability	Sustainability
Decent Housing	DH-1	DH-2	DH-3
Suitable Living Environment	SL-1	SL-2	SL-3
Economic Opportunity	EO-1	EO-2	EO-3

Table 1C Summary of Specific Objectives

			2012				%
			2013				%
			2014				%
			2015				%
		MULTI-YEAR GOAL				%	

The Housing Rehabilitation goal was derived as follows:

- Approximately 30 units of single family owner occupied rehabilitation per year
- Approximately 10 units of new construction by CHDOs over 5 years
- Approximately 10 units per year of assistance for homebuyers

30. Describe how federal, state and local public and private sector resources that are reasonably expected to be available will be used to address identified needs for the period covered by the strategic plan.

Through the ACIA, several housing programs will continue to be available to address the needs of low income residents.

a. Housing Rehabilitation

Atlantic County's Housing Rehabilitation Program provides a 100 percent interest free deferred loan repayable at time of sale. The primary funding source is HOME funds. Additionally, some of the municipalities used CDBG funds from Atlantic County to assist with housing rehabilitation.

b. Homebuyer Assistance

First-time home buyers are provided with assistance to purchase a home. The County provides households with a deferred loan of up to \$20,000. Loans are forgiven after the period of affordability has expired. Households are eligible to receive up to \$25,000 for down payment and closing and rehabilitation of the unit that is purchased. HOME funds are primarily used for this activity.

c. Housing Development

Homeownership is also supported by new housing construction. HOME funding will be provided to non-profit sponsors to construct homes for sale to lower income buyers at affordable rates.

d. Rental Development

HOME funds will be provided to developers to expand the supply of affordable rental housing. Such funding may be leveraged with Low Income Housing Tax Credits (LIHTC) and other federal and state funding.

Pleasantville Housing Authority is seeking to construct additional elderly housing using a variety of funding mechanisms.

e. Special Needs Housing

Atlantic County is preparing a Plan to End Homelessness which will allow the County to create an Affordable Housing Trust fund. This fund will be used to support housing and services for persons experiencing homelessness.

The Continuum of Care Shelter Plus Care and Supportive Housing Programs may continue to be available to increase the supply of supportive housing.

New Jersey Housing and Mortgage Finance Agency has a special needs housing program that provides funding for housing for special needs populations.

HOPWA funds and Section 8 Vouchers provided through local and state agencies contribute to the affordability of housing.

- 31.** Indicate how the characteristics of the housing market will influence the use of funds made available for rental assistance, production of new units, rehabilitation of old units, or acquisition of existing units.

The housing market in Atlantic County is still characterized as having higher prices due to the “shore” effect and the restrictions on development on environmentally sensitive lands. In-fill housing may be developed in existing communities but land prices inflate construction costs. To create affordable units, the County must provide financial support.

The County will continue to provide support to buyers to make existing housing affordable.

Rehabilitation is also necessary to maintain affordability of existing units.

Likewise, rental assistance and the need to provide support for the development of rental housing to ensure its affordability are necessary to counter the high cost of living.

- 32.** If the jurisdiction intends to use HOME funds for tenant-based rental assistance, specify local market conditions that led to the choice of that option.

Not applicable – Atlantic County does not plan to apply HOME funds to tenant-based rental assistance in the next five years.

PUBLIC HOUSING STRATEGY 91.215 (C)

- 33.** Describe the public housing agency's strategy to serve the needs of extremely low-income, low-income, and moderate-income families residing in the jurisdiction served by the public housing agency (including families on the public housing and section 8 tenant-based waiting list).

There is no public housing agency serving all of Atlantic County. The Pleasantville Housing Authority and the Buena Housing Authority serve the residents of their respective communities. The state DCA and NJHMFA provide Section 8 rent vouchers for low income residents in the remainder of the County.

Pleasantville Housing Authority has taken steps to create new housing and plans to continue to do so. Using HOPE VI, the Pleasantville Housing Authority has created new housing for renters and homebuyers. They intend to expand the stock of affordable housing by construction of additional senior rentals and homebuyer units. Atlantic County will support the efforts of the Pleasantville Housing Authority.

ATLANTIC COUNTY, NJ

- 34.** Describe the public housing agency's strategy for addressing the revitalization and restoration needs of public housing projects within the jurisdiction and improving the management and operation of such public housing.

The public housing managed by both Pleasantville and Buena Housing Authorities is considered to be in good condition. Each agency maintains the housing and works with their Resident Advisory Boards to develop their capital funds program each year.

The Pleasantville Housing Authority has tenant councils in each of the elderly high-rises that coordinate with the Authority on recreational programming for the tenants.

- 35.** Describe the public housing agency's strategy for improving the living environment of extremely low-income, low-income, and moderate families residing in public housing.

The Pleasantville Housing Authority has a ROSS Coordinator who works with the elderly and disabled to address their needs to maintain their ability to live independently. The Family Self-Sufficiency Coordinator works with the Section 8 voucher holders to increase their financial stability.

Under the HOPE VI grant, a program called the Program Coordinating Committee was formed. The committee is composed of local professionals who are willing to serve as role models and mentors to model behaviors for residents of New Hope. There are currently 20-30 professional members.

- 36.** Describe the manner in which the plan of the jurisdiction will help address the needs of public housing and activities it will undertake to encourage public housing residents to become more involved in management and participate in homeownership. (NAHA Sec. 105 (b)(11) and (91.215 (k))

Atlantic County supports the efforts of the Housing Authorities. There is good coordination between the case managers at the County and the Authority staff when working with specific tenants.

- 37.** If the public housing agency is designated as "troubled" by HUD or otherwise is performing poorly, the jurisdiction shall describe the manner in which it will provide financial or other assistance in improving its operations to remove such designation. (NAHA Sec. 105 (g))

Not applicable – The Pleasantville Housing Authority and Buena Housing Authority have not been designated as "troubled."

HOMELESS

PRIORITY HOMELESS NEEDS

**Refer to the Homeless Needs Table 1A or the CPMP Tool's Needs.xls workbook*

- 38.** Describe the jurisdiction's choice of priority needs and allocation priorities, based on reliable data meeting HUD standards and reflecting the required consultation with homeless assistance providers, homeless persons, and other concerned citizens regarding the needs of homeless families with children and individuals.

Atlantic County is currently in the process of preparing a 10-Year Plan to End Homelessness. The plan is being developed under the auspices of Atlantic County government and the United Way. Several task forces have been created which are composed of diverse representation from the community. They are engaged in identifying the priority needs in the following areas:

1. Education and Advocacy
2. Prevention
3. Discharge
4. Sustainability
5. Permanent Housing

Based on the communities experience with Homeless Connect, the Point – in –Time and the utilization of services such as Jean Webster’s Kitchen, homeless individuals are the largest population of homeless persons in the community. Mental health, substance abuse and gambling addiction all contribute to homelessness. Atlantic County is often the destination for homeless from other areas of New Jersey and the nation due to the draw of the casinos.

A growing number of homeless young single mothers is also a concern. Covenant House has started to provide shelter and was recently awarded Supportive Housing Program funds to serve this population.

- 39.** Provide an analysis of how the needs of each category of residents (listed in question #38) provided the basis for determining the relative priority of each priority homeless need category.

Homeless individuals are provided with emergency shelter services through the Atlantic City Rescue Mission. There are also a range of services that target individual homelessness including street outreach, a drop-in center, soup kitchens and permanent supportive housing.

In contrast, there are few shelter beds for homeless families and very few services that target homeless families. The county has maintained a housing first strategy with regard to families for many years but the young single mothers remain underserved.

- 40.** Provide a brief narrative addressing gaps in services and housing for the sheltered and unsheltered chronic homeless.

HUD defines the term chronically homeless as unaccompanied individuals with disabilities who have been continually homeless for 12 months or more or who have had 4 episodes of homelessness in a 3 year period. This definition was expanded in 2010 to include families with 3 or more episodes of homelessness as well. In Atlantic County, 81 individuals were identified as chronically homeless during the 2011 Point in Time count. Of those 60 individuals were sheltered and 21 people were unsheltered. There were also 6 homeless families identified in shelter and one unsheltered.

Chronic homeless individuals continue to be served in the shelters, soup kitchens and mental health facilities in Atlantic county. The lack of funding for mental health and substance abuse treatment results in more recidivism and on-going homelessness. Street outreach targets those with mental health problems.

Homeless families too cycle through the systems without ending their homelessness. Mental health and substance abuse plays a large role in this as well. For young single mothers, a history of abuse and homelessness may also lead to continuing the cycle.

A community should give a high priority to chronically homeless persons, where the jurisdiction identifies sheltered and unsheltered chronic homeless persons in its Homeless Needs Table - Homeless Populations and Subpopulations.

The Continuum of Care committee is the lead agency for addressing homeless needs and prevention services in Atlantic County. There is a high priority on identifying permanent supportive housing to which chronic homeless persons can access the services and housing that they need.

HOMELESS STRATEGY 91.215 (D)

Homelessness

- 41.** Describe the jurisdiction's strategy for developing a system to address homelessness and the priority needs of homeless persons and families (including the subpopulations identified in the needs section). The jurisdiction's strategy must consider the housing and supportive services needed in each stage of the process which includes preventing homelessness, outreach/assessment, emergency shelters and services, transitional housing, and helping homeless persons (especially any persons that are chronically homeless) make the transition to permanent housing and independent living.

The Ten Year Strategic Planning process for a Plan to End Homelessness is in the development stages. Unfortunately the full strategy is not yet ready. At this writing, the principles governing the direction of the plan have been clearly articulated however. These are:

- Single Point of Entry to prevent and end homelessness;
- A uniform assessment of all individuals and families entering the homeless system;
- An open and shared network to improve efficiency and effectiveness of all service providers;

ATLANTIC COUNTY, NJ

- Development of an integrated support network to insure sustainability;
- A target of the number of new housing units that will be needed to be developed;
- Expansion of the Housing First and Rapid Re-housing initiatives in the county.

Atlantic County Department of Family and Community Development uses the resources at its disposal to support the Housing First concept. To the extent possible, families are moved to permanent housing with services as quickly as possible. The Atlantic City Rescue Mission, the emergency shelter provider, also works to quickly re-house families that become homeless.

Like-wise, Jewish Family Service through the PATH Program, and other outreach efforts, seek to provide housing and services as quickly as possible to homeless persons with mental health issues. This process often takes more time to establish trust, but the emphasis is on moving individuals to stable housing situations.

42. Describe the jurisdiction's strategy for helping extremely low- and low-income individuals and families who are at imminent risk of becoming homeless.

Atlantic County uses funds it receives from the state to provide housing and services to persons at risk of becoming homeless. Federal Homeless Prevention and Rapid Re-housing Program (HPRP) funds were also used in 2011 to augment this effort. The County will seek HEARTH funds to continue to provide rent and utility assistance and case management to help families and individuals keep their housing. SEE question 45 below – Duplicated question in template.

Chronic Homelessness

43. Describe the jurisdiction's strategy for eliminating chronic homelessness. This should include the strategy for helping homeless persons make the transition to permanent housing and independent living. This strategy should, to the maximum extent feasible, be coordinated with the strategy presented in Exhibit 1 of the Continuum of Care (CoC) application and any other strategy or plan to eliminate chronic homelessness.

Consistent outreach efforts throughout the year establish a level of trust between persons who are chronically homeless and outreach workers. Jewish Family Services provides street outreach to the homeless and Jean Webster's Kitchen and the Salvation Army provide regular feeding sites where outreach workers are available to assist homeless individuals connect to services. Establishing trust is the first step to engagement in services.

Prevention of homelessness through discharge planning and engagement in community services is also important in ending chronic homelessness. The state mandates that persons leaving psychiatric institutions have an appropriate housing placement. The COC policy is that discharges are not made to the Atlantic City Rescue Mission shelter. Discharges are made to permanent housing or to transitional facilities operated by CODI and CSP as well as other providers. JFS provides case management to individuals leaving the state psychiatric facilities. Should the individual leave this permanent housing, PATH services provided by JFS looks to re-house the person in a permanent situation.

The Atlantic County Department of Public Safety formally implemented a discharge-planning project at the County facility in an effort to both better identify the causality of why people were returning to the jail and provide on-site services at the facility to assist with re-entry of these persons back in the community. By close coordination between the county jail and probation/parole, the plan is developed to ensure that the inmate is heading in a positive direction and to ensure that the jail's recommended plan and probation/parole's plan are never antagonistic. Establishing relationships with support agencies that the inmate can use on the outside allows for a smoother passage back to the community. Every Tuesday, the inmates slated to be released within the next two (2) weeks are transported to the minimum-security cafeteria where agency representatives meet with each individual in a private setting. Those agencies that participate each week are determined by the assessment mutually agreed upon by the inmate and the clinician. Discharge plans include housing options that do not result in homelessness.

The Veteran's Administration has a homeless veterans program that includes outreach/education, treatment, prevention, housing/supportive services, income/employment/benefits, and continued/increased community partnerships. The VA continues to have homeless representation which responds to homeless veteran referrals in Atlantic County, with a goal to connect veterans to VA healthcare and services, including housing/employment programs at Veterans Haven or VA Domiciliary/treatment programs. In addition to the VA homeless coordinator, the VA has implemented the HUD-VASH program providing thirty-five Section 8 housing choice vouchers to homeless veterans. An additional twenty-five vouchers have been slated for Southern New Jersey homeless veterans for 2010/2011. A VA Justice Outreach coordinator, who will help incarcerated veterans re-enter society is also available working with veterans in the early stages of the justice system aiming to prevent homelessness. Other current VA homeless initiatives include continued emergency housing placement

ATLANTIC COUNTY, NJ

through the ACRM, as well as, planning for Grant Per Diem programs, contract beds, transitional housing (12-24 months) and long term housing (HUD-VASH). The VA is also looking to pilot prevention initiatives designed to help veterans and their families prevent homelessness.

- 44.** Describe the efforts to increase coordination between housing providers, health, and service agencies in addressing the needs of persons that are chronically homeless.(91.215(l))

The Continuum of Care and 10 Year Plan to End Homelessness has brought together a more diverse range of representatives of services, businesses and the community to address the needs of persons who are homeless and chronically homeless. By examining the issues and solutions to homelessness together, these individuals and their respective agencies are building a stronger and more coordinated effort to end homelessness.

Among the guiding principles are efforts to expand coordination through centralized intake, uniform assessment, and creating an open and shared network to improve efficiency and effectiveness of all service providers.

Homelessness Prevention

- 45.** Describe the jurisdiction's strategy to help prevent homelessness for individuals and families with children who are at imminent risk of becoming homeless.

Atlantic County employs the Housing First model. When a family is in need of Emergency Assistance, the case managers at the County EA office take steps to place them in permanent housing as quickly as possible. When needed, most homeless families are housed at the Atlantic City Rescue Mission (ACRM). ACRM employs a Housing Locator Specialist who works with local landlords to place families in appropriate housing. The County received both HPRP and additional Social Services for the Homeless (SSH) funds from the stimulus program. ACRM has administered the Homeless Prevention and Rapid Re-housing Program (HPRP) for Atlantic County. Through these funds, individuals and families threatened with imminent homelessness were able to access funds for several months for payment of rent and utilities while they worked with a case manager to stabilize their housing situation. The County is seeking additional funds to continue this program. A one month subsidy is available through CEAS funds.

The COC Planning committee is seeking to expand the work of the Housing Locator at ACRM and JFS. To prevent eviction, the housing locator develops relationships and provides rental owners with resources to contact when families are falling behind. Thus, an early warning system will be established so that families at risk of becoming homeless can be identified. When a family is in trouble, rather than evict, the landlord will have the knowledge of community resources to help stabilize that family.

Institutional Structure

46. Briefly describe the institutional structure, including private industry, non-profit organizations, and public institutions, through which the jurisdiction will carry out its homelessness strategy.

The Social Services for the Homeless Committee is the lead organization for the development of the Continuum of Care process. This committee is composed of representatives of social service agencies, interested persons, formerly homeless individuals, Atlantic City and Atlantic County representatives, state agencies, and funding organizations (United Way). This Committee meets regularly throughout the year to address the immediate needs of those who are homeless as well as prevention of homelessness and the root causes of homelessness.

The committee is working closely with the County in the development of a new Plan to End Homelessness in Atlantic County. The Department of Family and Community Development of Atlantic County government is the contracting agency for the consultant engaged in the plan.

The Consolidated Plan reflects the goals and objectives of this new plan.

Discharge Coordination Policy

47. Every jurisdiction receiving McKinney-Vento Homeless Assistance Act Emergency Shelter Grant (ESG), Supportive Housing, Shelter Plus Care, or Section 8 SRO Program funds must develop and implement a Discharge Coordination Policy, to the maximum extent practicable. Such a policy should include “policies and protocols for the discharge of persons from publicly funded institutions or systems of care (such as health care facilities, foster care or other youth facilities, or correction programs and institutions) in order to prevent such discharge from immediately resulting in homelessness for such persons.” The jurisdiction should describe its planned activities to implement a cohesive, community-wide Discharge Coordination Policy, and how the community will move toward such a policy.

The Continuum of Care application for 2010 identifies the discharge planning that has occurred to date in Atlantic County. The COC continues to develop and evolve better means to find housing for persons being discharged from institutions.

- a. Youth Aging out of Foster Care:
DYFS oversees Foster Care in the state of NJ. There is a state mandate that requires DYFS to ensure that youth are not discharged to homelessness. Youth are given the option to move to Independent Living at age 15 and stay until 18 or 21 if in school. However, many youth do not take advantage of this program and choose to leave unprepared. More emphasis is now placed on earlier transitional services to improve housing outcome. Youths are then transitioned to permanent housing. Covenant House works closely with DYFS as does the County's Division of Family and Community Development to ensure a smooth and stable transition.

b. Health Care

AtlantiCare, as the largest area health provider, has a formal relationship with the Atlantic City Rescue Mission to place homeless persons who received inpatient care in the special medical treatment unit, Mission Health Care, which they support financially. More discussion have been ongoing about discharge to develop a protocol for homeless persons who were not treated as in-patients. The COC Planning committee now includes AtlantiCare representatives and discussions are moving forward.

c. Mental Health

The state mandates that persons leaving psychiatric institutions have an appropriate housing placement. The COC policy is that discharges are not made to the Atlantic City Rescue Mission shelter. Discharges are made to permanent housing or to transitional facilities operated by CODI and CSP as well as other providers. JFS provides case management to individuals leaving the state psychiatric facilities. Should the individual leave this permanent housing, PATH services provided by JFS looks to re-house the person in a permanent situation.

d. Corrections

The Atlantic County Department of Public Safety formally implemented a discharge-planning project at the County facility in an effort to both better identify the causality of why people were returning to the jail and provide on-site services at the facility to assist with re-entry of these persons back in the community. By close coordination between the county jail and probation/parole, the plan is developed to ensure that the inmate is heading in a positive direction and to ensure that the jail's recommended plan and probation/parole's plan are never antagonistic. Establishing relationships with support agencies that the inmate can use on the outside allows for a smoother passage back to the community.

Every Tuesday, the inmates slated to be released within the next two (2) weeks are transported to the minimum-security cafeteria where agency representatives meet with each individual in a private setting. Those agencies that participate each week are determined by the assessment mutually agreed upon by the inmate and the clinician. Discharge plans include housing options that do not result in homelessness. Most discharges result in housing with families or friends.

SPECIFIC OBJECTIVES/HOMELESS (91.215)

48. Identify specific objectives that the jurisdiction intends to initiate and/or complete in accordance with the tables* prescribed by HUD, and how Federal, State, and local public and private sector resources that are reasonably expected to be available will be used to address identified needs for the period covered by the strategic plan. For each specific objective, identify proposed accomplishments and outcomes the jurisdiction hopes to achieve in quantitative terms over a specified time period (one, two, three or more years) or in other measurable terms as defined by the jurisdiction.

Complete and submit Table 1C Summary of Specific Objectives or, if using the CPMP Tool, the Summaries.xls worksheets.

Table 1C
Summary of Specific Housing/Community Development Objectives
(Table 1A/1B Continuation Sheet)

NON-HOMELESS SPECIAL NEEDS

**Refer to Table 1B Non-Homeless Special Needs or the CPMP Tool's Needs.xls workbook*

PRIORITY NON-HOMELESS NEEDS 91.215 (E)

49. Identify the priority housing and supportive service needs of persons who are not homeless but may or may not require supportive housing, i.e., elderly, frail elderly, persons with disabilities (mental, physical, developmental, persons with HIV/AIDS and their families), persons with alcohol or other drug addiction by using the Non-homeless Special Needs Table.

It is hard to quantify the specific needs within the County. Part 2B of this CP reports on needs using information provided by services providers and through use of census indicators including CHAS Data 2000 and. The service providers generally did not quantify unmet needs.

The United Way's Needs Assessment in 2010 identified the need for mental health services.

Local health and human service professionals cite a lack of available funding for substance abuse and mental health treatment programs for youth, particularly for uninsured youth. Detoxification treatment services are also in short supply. 17% of Atlantic County adults report binge drinking in the past month according to The County Health Rankings 2010. The Crime in New Jersey – 2008 Uniform Crime Report notes that there were 2,303 drug related arrests in Atlantic County. (2008)

More than 70% of survey respondents reported Anxiety, Stress and Depression as a major community issue. According to the National Institute of Mental Health an estimated 57.7 million Americans ages 18 and older suffer from a diagnosable mental disorder a year. Additionally, one in five Americans report being depressed or unhappy, and report high levels of stress, anxiety and sadness. (2009)

Within Atlantic County there are individuals and families with special needs, such as the elderly and frail elderly, persons with severe mental illness, persons with mental retardation, persons with drug and/or alcohol addictions, persons with AIDS and related diseases, the physically disabled, youth in danger of separation from their families and youth aging out of foster care who require supportive housing. In addition to housing assistance, supportive housing provides a range of services that are integral to the ability of persons with special needs to transition to independent, community living. Those in need are

ATLANTIC COUNTY, NJ

assisted by varying service providers who continue to work diligently to address those needs.

a. Elderly/Frail Elderly

The increase in the older elderly suggests that there will be increased demand for home-based services that enable them to age in place. Similarly there will be increased demand for service enriched housing at a variety of prices because of the increase in the very old population.

Concerns regarding the elderly are as follows.

- Home maintenance assistance, including minor home repairs is the most needed supportive housing service.
- Adaptive modifications that allow them to remain in their homes as their physical conditions change.
- For people age 75 and over, the need for medical and other types of professional care rises sharply as evidenced by the large number of the elderly age 75 and over with self-care and go-outside the home disabilities.
- As people live longer, there will likely be more people in need of care because of dementia or other illnesses that diminish their mental capacity. The 2000 Census reports that there were 2,809 non-institutionalized persons age 65 and over in Atlantic County with a mental disability.

b. Persons with Disabilities

The organizations that represent persons with disabilities identified a number of needs, which for the most part, mirror those of all low income people. These needs were identified:

- Affordable housing and housing subsidies
A person on SSI receives \$705 per month but FMR for a one – bedroom unit is \$1,092.
- Housing repairs to major systems
- Home modification for wheelchair access in rental units
- Permanent supportive housing for adults and families with special needs
- Transportation to work, shopping and medical appointments

c. Persons with HIV/AIDS and their Families

The housing needs and problems of people living with HIV and AIDS are similar to those of people of similar health or socio-economic status. Many people living with HIV and AIDS have other psychosocial, health, and emotional problems such as chemical dependency and mental health problems. Key housing problems include:

- Affordability
- Security
- Transportation
- Child care issues

Financial constraints are central to most housing issues faced by people living with HIV and AIDS in the community. Financial problems often appear to be accentuated by the inability to work and expenses for medical care and medicines beyond the scope of insurance.

d. Persons with Alcohol and Drug Addictions

ATLANTIC COUNTY, NJ

The primary need for persons with substance abuse is detox and treatment services. Housing needs are similar to other populations with mental and physical health issues and lack of stable income.

50. Describe the basis for assigning the priority given to each category of priority needs.

Priorities for the special needs non-homeless populations were established from input received from a variety of consultations and meetings. The priorities were created using the following definitions:

- **High** priorities are those activities that WILL be funded with CDBG and/or HOME funds.
- **Medium** priorities are those activities that MAY be funded with CDBG and/or HOME funds, but only after high priorities have been funded.
- **Low** priorities are those activities that will NOT be funded with CDBG and/or HOME funds by the County; however, the County will consider providing certifications of consistency and supporting applications submitted for other funding by other entities.

The priorities categorized as Medium and Low priority activities are still important and are not meant to be understood as being unnecessary in Atlantic County. Rather, it is perceived that those needs may have other, more appropriate funding sources. There is no specific allocation for special needs housing but recognized that these needs may be met in the course of providing housing services and supporting housing development as opportunities arise.

51. Identify any obstacles to meeting underserved needs.

There are a myriad of issues affecting the availability of programs, services and housing options for persons with disabilities, substance abuse and HIV/AIDS. Barriers to affordable housing include discrimination, the Not in My Backyard (NIMBY) syndrome, higher development standards imposed on group homes, zoning restrictions, costly permit processes, and lack of infrastructure in some communities. Individuals may have poor credit and housing histories which make them undesirable tenants for scrupulous landlords. There is a shortage of rental assistance. Incomes are insufficient to afford decent housing.

52. To the extent information is available, describe the facilities and services that assist persons who are not homeless but require supportive housing, and programs for ensuring that persons returning from mental and physical health institutions receive appropriate supportive housing.

The following identifies the range of services offered by County government. In addition, there is a wide range of social service agencies that provide services to persons with special needs.

Aging Services

- **ADULT PROTECTIVE SERVICES** - Designed to protect frail and vulnerable people age 18 and older who are risk of abuse, neglect, or exploitation. Call 1-888-426-9243
- **BOARDING HOME AND HEALTH CARE FACILITY RESIDENT SERVICES** (Board and Care Unit) Placement, social and protective services for residents in boarding homes and licensed health care facilities.
- **CAREGIVER ASSISTANCE PROGRAM (CAP)** - Provides in-home services to seniors at risk of placement in a nursing facility. It supplements the assistance an individual receives from his/her natural support network. Call 1-888-426-9243
- **CAREGIVER-NJ** is a NJ Dept. of Health and Senior Services guide to available resources for adults and their families living in New Jersey.
- **COMMUNITY CARE PROGRAM FOR THE ELDERLY AND DISABLED (CCPED)** - Home care services for the elderly and disabled who are deemed nursing home eligible but elect to remain in the community. Call 1-888-426-9243
- **COMMUNITY MEDIATION SERVICES** - Mediation is a process in which two or more disputing parties discuss their viewpoints face-to-face in the presence of a mediator to resolve conflicts peacefully and appropriately.
- **DENTAL SERVICES** - The John Cronin Dental Center offers general dentistry to low income families and senior citizens over the age of 60, having no dental insurance and based on a sliding scale payment fee. Appointments are necessary and proof of income is required. Medicaid is accepted. Open to Atlantic County residents only. Hours of operation are Monday-Friday, 8:30 a.m. to 5:00 p.m. For appointments and information, phone (609) 645-5814.
- **FIX-IT** - The Fix-It Program is available to any senior citizen 60 or older, whose safety is at risk due to the need of handrails and minor home repairs, enabling them to remain living at home. Call 1-888-426-9243
- **HOME CARE SERVICES** - The Office of Home Care provides case management and outreach services to eligible individuals seeking to remain in the community rather than live in a long-term care facility through the use of specific home and community based services and informal supports. 1-888-426-9243
- **HOUSING ASSISTANCE - HOPE** (Section 8 housing assistance and home services to eligible individuals age 62 and older. Call 1-888-426-9243
- **NUTRITION PROJECT FOR THE ELDERLY** - The Nutrition Project for the Elderly offers two components: Senior Centers and Home Delivered Meals.
- **TRANSPORTATION** - This service provides transportation to senior citizens, the disabled and rural residents of Atlantic County

Services for the Disabled

- **AIDS COMMUNITY CARE ALTERNATIVE PROGRAM (ACCAP)** - Eligible individuals diagnosed with AIDS may receive Medicaid covered services including private duty nursing services in the community rather than in a nursing home. Call 1-888-426-9243
- **ATLANTIC COUNTY ALLIANCE** - Provides support to local Alliances which are community-based committees that address the community's substance abuse needs and problems.
- **DISABLED RESOURCES** - A listing of locally available resources for the disabled.
- **LEGAL RESOURCES FOR INDIVIDUALS OR BUSINESSES HAVING ACCESS OR ACCOMODATION PROBLEMS** - Information resources for addressing accessibility issues for the disabled.

ATLANTIC COUNTY, NJ

- **MENTAL HEALTH SERVICES** - Any member of the community having concerns about an individual who is experiencing difficulties accessing mental health services for themselves or others, may follow this link to contact the County Mental Health Administrator.
- **RECREATION IN ATLANTIC COUNTY FOR INDIVIDUALS WITH DISABILITIES** - A guide to low cost recreational and social opportunities for persons with disabilities.
- **TRANSPORTATION** - Provides Life Enhancing transportation services for education, compensated and voluntary employment, and more.

53. If the jurisdiction plans to use HOME or other tenant based rental assistance to assist one or more of these subpopulations, it must justify the need for such assistance in the plan.

The County does not intend to use HOME for Tenant Based Rental Assistance.

SPECIFIC SPECIAL NEEDS OBJECTIVES**91.215 (E)**

- 54.** Identify each specific objective developed to address a priority need by number and contain proposed accomplishments and outcomes the jurisdiction expects to achieve in quantitative terms through related activities over a specified time period (i.e. one, two, three or more years), or in other measurable terms as identified and defined by the jurisdiction.

The jurisdiction may satisfy this requirement by using Table 1C or, if using the CPMP Tool, the Projects.xls worksheets

See Table 1C in Appendix C.

- 55.** Describe how federal, state and local public and private sector resources that are reasonably expected to be available will be used to address identified needs for the period covered by the strategic plan.

It is increasingly difficult for the County to fund non-homeless special needs projects due to the limited amount of funding received annually to support housing and community development initiatives and the increasing amount of basic community needs resulting from current economic conditions. However, other resources are available on the federal, state, and local levels that area organizations can solicit to help provide affordable housing opportunities and supportive services to non-homeless special needs populations. There are several resources available to support non-homeless special needs housing initiatives, including HUD Section 202 housing funds (elderly projects), HUD Section 811 housing funds (housing for people with disabilities), Section 8 tenant-based rental assistance, Low Income Housing Tax Credits (LIHTC), Federal Home Loan Bank funds, funds from private foundations and other private entities, public housing funds, HOPWA funds, and other state and federal resources.

The County will continue to support the efforts of local and regional organizations that provide housing and supportive services to local non-homeless special needs individuals.

COMMUNITY DEVELOPMENT

PRIORITY COMMUNITY DEVELOPMENT NEEDS 91.215 (F)

**Refers to Table 2B or to the Community Development Table in the Needs.xls workbook*

- 56.** Identify the jurisdiction's priority non-housing community development needs eligible for assistance by CDBG eligibility category specified in the Community Development Needs Table* – i.e., public facilities, public improvements, public services and economic development.

The objective for community development is to provide support for improvements to infrastructure and public facilities in the participating municipalities. Specific strategies to accomplish this objective include the following:

- Support the development and improvement of facilities and services for senior citizens which allow them to continue to live independently.
- Develop and expand park and recreation opportunities in low income areas.
- Expand and improve the capacity of local municipalities to provide adequate water, sewer and storm drainage facilities, and streets and sidewalks. Promote handicap barrier removal in public facilities and sidewalks to ensure access and mobility for all of Atlantic County residents.
- Promote the rehabilitation or demolition of vacant and underutilized structures that present a health and safety hazard to the community. Encourage rehabilitation when such structures have historic or cultural significance

*Unmet priority need is defined as the need that can be met with CDBG or HOME resources

57. Describe the basis for assigning the priority given to each category of priority needs provided on Table 2B or the Community Development Table in the CPMP Tool's Needs.xls worksheet.

Priorities for public facilities and infrastructure were established from input received from local municipalities. The priorities were created using the following definitions:

- **High** priorities are those activities that WILL be funded with CDBG and/or HOME funds.
- **Medium** priorities are those activities that MAY be funded with CDBG and/or HOME funds, but only after high priorities have been funded.
- **Low** priorities are those activities that will NOT be funded with CDBG and/or HOME funds by the County; however, the County will consider providing certifications of consistency and supporting applications submitted for other funding by other entities.

The priorities categorized as Medium and Low priority activities are still important and are not meant to be understood as being unnecessary in Atlantic County. Rather, it is perceived that those needs may have other, more appropriate funding sources. There may be medium priority activities that receive funding in any given year.

58. Identify any obstacles to meeting underserved needs.

Atlantic County will use its HUD entitlement funds to meet its objectives. The County has continuously sought public and private resources to leverage its entitlement funds in assisting with implementation of policies and programs to create the vision. Despite the available resources, obstacles remain in achieving the planning goals as follows.

- Limited resources.
- Increasing costs to complete projects.
- Fragmented approach to local planning and lack of coordination in addressing infrastructure needs.
- Limited inter-municipal communication in addressing public facility needs.

SPECIFIC COMMUNITY DEVELOPMENT OBJECTIVES

59. Identify specific long-term and short-term community development objectives (including economic development activities that create jobs), developed in accordance with the statutory goals described in section 24 CFR 91.1 and the primary objective of the CDBG program to provide decent housing and a suitable living environment and expand economic opportunities, principally for low- and moderate-income persons.

Complete and submit Table 2C Summary of Specific Objectives or, if using the CPMP Tool, the Summaries.xls worksheets.

NOTE: Each specific objective developed to address a priority need, must be identified by number and contain proposed accomplishments, the time period (i.e., one, two, three, or more years), and annual program year numeric goals the jurisdiction hopes to achieve in quantitative terms, or in other measurable terms as identified and defined by the jurisdiction.
24 CFR 91.215(a)(4)

- Community Development/Public Facilities Objectives
- Community Development/Public Improvements Objectives
- Community Development/Public Services Objectives
- Community Development/Economic Development Objectives
- Neighborhood Revitalization Strategy Areas 91.215(g)

This section provides a summary of five-year non-housing community development objectives for Atlantic County outside of Atlantic City and the City of Egg Harbor. While these objectives are described by output-based performance measures, the County will also evaluate the results of program activity in terms of outcome-based measures in each year's Consolidated Annual Performance and Evaluation Report (CAPER). Each objective here is classified using HUD's numbering system for specific objectives, as described below.

HUD Specific Objectives Matrix

	Availability/ Accessibility	Affordability	Sustainability
Decent Housing	DH-1	DH-2	DH-3
Suitable Living Environment	SL-1	SL-2	SL-3
Economic Opportunity	EO-1	EO-2	EO-3

Neighborhood Revitalization (NR-1) – Not applicable							

60. If the jurisdiction has one or more approved Neighborhood Revitalization Strategy Areas, the jurisdiction must provide, with the submission of a new Consolidated Plan, either: the prior HUD-approved strategy, or strategies, with a statement that there has been no change in the strategy (in which case, HUD approval for the existing strategy is not needed a second time) or submit a new or amended neighborhood revitalization strategy, or strategies, (for which separate HUD approval would be required).

The County does not have a Neighborhood Revitalization Strategy area designated.

BARRIERS TO AFFORDABLE HOUSING 91.215 (H)

61. Describe the strategy to remove or ameliorate negative effects of public policies that serve as barriers to affordable housing, except that, if a State requires a unit of general local government to submit a regulatory barrier assessment that is substantially equivalent to the information required under this part, as determined by HUD, the unit of general local government may submit that assessment to HUD and it shall be considered to have complied with this requirement.

The policies that may impact affordable housing, including zoning and other land use controls and building and development permits are regulated by the municipalities in Atlantic County. While housing costs have depreciated in the last two years, there is still a gap in housing that is affordable to low income households in Atlantic County and housing that is available. The cost of land and construction and rehabilitation costs, however, continue to rise. The increasing costs are passed on by way of increased housing prices and rents that negatively impact the affordability of housing by low income households. Within the resource constraint, Atlantic County diligently works to alleviate the cost burden and provide housing opportunities for low income households.

In agreement with the HOME program requirements, Atlantic County will continue to spend its funds on direct housing initiatives. HOME funds will be used to support the Housing Rehabilitation Program and the Homebuyer Program. Funds will also continue to be used to support development of housing.

ATLANTIC COUNTY, NJ

Some of the municipalities in the County also elect to use CDBG funds to assist residents with housing rehabilitation. In terms of dollar amount, the resources comprise a significant commitment to improving the quality of the housing stock and the ability of households to afford housing.

Municipalities in New Jersey are required to complete a Fair Share Plan in agreement with the rules and regulations of the New Jersey Council on Affordable Housing (COAH). The Fair Share Plan, which is certified by COAH, indicates that the community has a plan to address its regional fair share for affordable housing. COAH reports that as of March 2011, six municipalities have petitioned for certification. The municipalities are working to expand affordable housing opportunities locally in furtherance of the goal to remove barriers to affordable housing.

Atlantic County has a fair housing officer who works foster compliance with the Fair Housing Act in order to overcome the effects of the impediments to fair housing choice. Over the last five years, the fair housing office has not received any fair housing complaints. A new Analysis of Impediments to Fair Housing will be prepared in 2011.

LEAD-BASED PAINT 91.215 (I)

62. Describe the jurisdiction's plan to evaluate and reduce lead-based paint hazards and describe how lead based paint hazards will be integrated into housing policies and programs, and how the plan for the reduction of lead-based hazards is related to the extent of lead poisoning and hazards.

All children in New Jersey are at risk of lead poisoning; therefore, New Jersey State law (Public Law 1995, chapter 328) requires every physician, professional registered nurse, and health care facility to screen all children under six years of age who come to them for care.

The state's 2007 report from the NJ Department of Health and Senior Services is the most current report on the number of children with elevated blood lead levels. This report shows that of the 6,403 children 6 to 29 months old in Atlantic County, 40.9% were tested, and of those outside Atlantic City, five were shown to have some level of elevated blood lead levels with two having 20 to 44 ug/dL, and five with an EBLL of 15-19 ug/dL, significantly high levels of lead. An additional 8 had EBLL of 10-14 ug/dL which is still considered an elevated level.

Of the children in Atlantic County under age six, 20,219 were tested (23%) of which 79 had EBLL, of which 39 were in Atlantic City and 40 resided outside Atlantic City.

Lead based paint hazard reduction has been integrated into the County's housing policies and programs as follows.

- The guidelines for the Housing Rehabilitation Program comply with the lead based paint hazards at 24 CFR Part 35 and the new EPA guidelines.
- When paint is disturbed in the course of non-emergency rehabilitation work in properties constructed prior to January 1, 1978, only a qualified contractor performs lead hazard reduction activities. The contractor must employ a certified lead-based paint abatement supervisor, or have employees certified in lead-based paint abatement. Certified testing companies perform a

ATLANTIC COUNTY, NJ

pre-rehabilitation risk assessment for lead-based paint hazards and a post-rehabilitation clearance test for lead dust hazards where the non-emergency work disturbs a painted surface.

- Where emergency work is completed, to the maximum extent practicable, occupants must be protected from exposure to lead in dust and debris generated.
- Lead paint hazard reduction is an eligible rehabilitation activity funded by the Housing Rehabilitation Program.

Households participating in the Homebuyer Program are not allowed to purchase units that have deteriorated interior or exterior painted surfaces. An exception to the requirement is allowed where minimal deteriorated paint surfaces exist and the seller is willing to have the surfaces tested, at their expense, by certified lead-based paint inspectors or risk assessors to determine if the deteriorated paint contains lead. If the paint contains lead, the household is not permitted to purchase the property and the agreement of sale becomes null and void. If it is determined by the testing that there is no lead-based paint, then the household can purchase the property provided that all deteriorated paint surfaces and any other Housing Quality Standards violations are corrected prior to settlement. The counseling agencies working with the prospective homebuyers make them aware of the lead-based paint requirements. The counseling agencies also inform all home inspection companies used by the participating homebuyers, of the requirements.

The County's Health Department refers households with children with elevated blood lead levels to ACIA to determine if the household is eligible to receive assistance through the housing rehabilitation program.

The NJ Lead-Safe Housing Registry is a service provided to New Jersey residents who are interested in Lead-Safe Housing. The registry can be accessed on line at http://www.state.nj.us/dca/dcr/leadsafe/lead_hsg_registry_list.pdf or call 1-877-DCA-LEAD. Units are listed in Absecon, Brigantine, Buena Borough, Buena Vista Township, Egg Harbor City, Egg Harbor Township, Galloway Township, Hamilton Township, Hammonton, Linwood, Longport, Margate, Northfield, Pleasantville, Somers Point, Ventnor and Weymouth Township.

ANTIPOVERTY STRATEGY 91.215 (J)

- 63.** Describe the jurisdiction's goals, programs, and policies for reducing the number of poverty level families (as defined by the Office of Management and Budget and revised annually).

Atlantic County, in conjunction with the public and private agencies and institutions, provides low income households with the opportunity to gain the knowledge and skills, as well as the motivation, to become fully self-sufficient. The Atlantic County Workforce Investment Board offers a One Stop Career Center, which is a customer driven and outcome-based system that assists individuals in reattachment to the labor force. The Atlantic County Department of Family and Community Development will continue to work as an anti-poverty agency, providing job training, safety net services and case management.

Job creation is the principal means to reduce poverty. The loss of business in the entertainment industry has hurt the economy of the region. The South Jersey Economic Development District has developed varied programs in support of expanding the community's tax ratable base and creating living

ATLANTIC COUNTY, NJ

wage jobs. Plans are underway to create a new technology park with a concentration on aviation research.

Engaging local residents in the construction trades on CDBG and HOME funded activities in the goal of the Section 3 program. By engaging local residents in the construction projects that impact low income communities, a double benefit is achieved.

- 64.** Identify the extent to which this strategy will reduce (or assist in reducing) the number of poverty level families, taking into consideration factors over which the jurisdiction has control.

This strategy is not funded with CDBG nor HOME funds. Job training and engagement is the only means to overcome poverty. Impact on the jobless and those in poverty has not improved the poverty situation in Atlantic County over the past 10 years. While the strategy has been successful with individuals, the economy, mental health, substance abuse, incarceration and a host of issues over which the County has no control continue to result in increasing number of families living below the poverty level.

INSTITUTIONAL STRUCTURE 91.215 (K)

- 65.** Provide a concise summary of the institutional structure through which the jurisdiction will carry out its consolidated plan, including private industry, non-profit organizations, community and faith-based organizations, and public institutions.

The Atlantic County Improvement Authority (ACIA) is the lead agency for federal grants programs through HUD. ACIA also applies for and administers other funding sources, ensuring all resources are highly integrated and administered efficiently. The daily oversight of activities for all programs and initiatives comes under the Executive Director of ACIA. ACIA is responsible for the following:

- Program management and oversight
- Inter-Department/Agency Coordination
- Sub-recipient contract administration and monitoring
- Program evaluation
- Report preparation and submission
- Public education and participation
- Special project development
- Consolidated Plan preparation, monitoring, and evaluation
- Housing programs

ACIA will continue to administer the CDBG and HOME programs. ACIA provides CDBG funds to entitlement communities in the County based on a formula approved by the Freeholders. The formula allows for a distribution of funds among the municipalities participating in the CDBG program, based on population, low income population and a distress index. The entitlement communities use CDBG funds for various projects in the community based on local priorities. The HOME funds are used to primarily to assist with housing rehabilitation and homebuyer assistance.

ATLANTIC COUNTY, NJ

ACIA coordinates with other county agencies, CHDOs, and housing developers to implement the various programs and meet the goals stated in the CP. Such federal programs may require support from Atlantic County, expressed as a certification of consistency with the CP, provided by the Board of Chosen Freeholders.

County Agencies

The Department of Family and Community Development is the lead agency in the County for social services programs, specifically the Continuum of Care for the homeless and the Homeless Prevention and Rapid Re-housing Program.

Non-Profit Organizations

Non-Profit housing developers and Community Housing Development Organizations (CHDOs) play a role in the implementation of the CP. Through the construction of new housing, and the rehabilitation of existing units, the non-profit developers access financing sources such as the Low Income Housing Tax Credit, NJHMFA funding, and charitable contributions that increase the supply of affordable housing. While some groups focus on the rehabilitation of single units for resale to first time homebuyers, others have created assisted rental developments. In the future, the union of such groups with social service agencies that serve specific special needs populations will address the Five-Year Plan strategy for creation of supportive housing and affordable housing opportunities.

Community and Faith-based Organizations are primarily involved in the CP through the Social Services for the Homeless Committee. Through this Committee, many organizations that work with the homeless come together to address the immediate needs of persons who are homeless as well as identify the underlying causes of homelessness.

Private Industry

Lending institutions can play an important role in providing financing for special programs that would not otherwise be available to the public.

66. Provide an assessment of the strengths and gaps in the delivery system.

The major gap remains scarce resources which contribute to limited staff to effectively operate programs. Coordination through the above listed organizations assists with networking, ensuring that overlap of missions is minimized and facilitating more efficient use of resources. The following table provides a description of strengths and weaknesses associated with agencies involved in the administration of the program process.

ATLANTIC COUNTY, NJ

Assessment of Institutional Strengths and Weaknesses

Agency	Strength	Weakness
Public		
Atlantic County Improvement Authority	<ul style="list-style-type: none"> • Coordination of programs • Capacity to conduct varied activities • Technical Expertise 	<ul style="list-style-type: none"> • Limited resources • Limited staff
Pleasantville and Buena Housing Authorities	Housing for extremely low income, including elderly and disabled	<ul style="list-style-type: none"> • Limited resources
County Agencies	One-stop resource for many social service, education, and employment resources	<ul style="list-style-type: none"> • Limited resources • Limited staff
State Agencies (NJ/HMFA, DCA)	Varied programs to address varied housing and community development needs	<ul style="list-style-type: none"> • Limited resources
Nonprofit		
Nonprofit Organizations	Support services	<ul style="list-style-type: none"> • Long-term financial stability • Technical expertise • Limited resources
Private		
Banks, Lenders	Underwriting, funding, servicing	<ul style="list-style-type: none"> • Aversion to risk • Timeliness • Rate variation

67. Describe efforts to enhance coordination with private industry, businesses, developers, and social service agencies, particularly with regard to the development of the jurisdiction's economic development strategy. (91.215(I))

See response to Question 71 (same question).

COORDINATION 91.215 (L)

68. Describe the efforts to enhance coordination between public and assisted housing providers and governmental health, mental health, and service agencies.

Through the auspices of the Comprehensive Emergency Assistance Services (CEAS) Board, the various agencies meet regularly to review the human services needs of the county. Coordination between service providers and programs is maintained through on-going contact between the agencies and individuals in this forum. The Homeless Continuum of Care is another venue that brings together housing providers, service organizations and government departments. The Atlantic County

ATLANTIC COUNTY, NJ

Improvement Authority participates in these committees which bring the larger perspective to the allocation of funding and priorities for the use of grant funds.

- 69.** Describe efforts in addressing the needs of persons that are chronically homeless with respect to the preparation of the homeless strategy.

At the time of drafting of this CP, the County had just embarked on the preparation of a new Strategy to End Homelessness. This effort was facilitated by Monarch, Inc. The CP incorporated the information from the new strategy as the basis for the homeless strategy in this plan.

- 70.** Describe the means of cooperation and coordination among the state and any units of general local government in the metropolitan area in the implementation of the plan.

The basis for the allocation of CDBG funds is a distribution to the local participating jurisdictions in the Urban County. The local communities are responsible for implementation of the approved activities in each plan. ACIA monitors and works with each community to ensure the timely performance under this plan.

- 71.** Describe efforts to enhance coordination with private industry, businesses, developers, and social service agencies, particularly with regard to the development of the jurisdiction's economic development strategy.

The purpose of the Work Force Investment Board (WIB) is specifically to enhance coordination between industry, business, and service providers. The workforce training needs and economic development agencies meet regularly to coordinate their efforts.

- 72.** Describe the jurisdiction's efforts to coordinate its housing strategy with local and regional transportation planning strategies to ensure to the extent practicable that residents of affordable housing have access to public transportation.

Atlantic County has been actively working to link affordable housing with public transportation. Limited financial resources have been a hindrance to some of the efforts, but the County has looked at creating better links to the airport, with a recently added Pleasantville shuttle to the airport. There are issues of service to outlying areas, since the current delivery model is focused on east-west routes, with few north-south connections. The Stockton Run to Hamilton Mall has been a recent addition that enables more people to shop and provide transportation for employees. The suburban nature of most of the County makes it difficult to serve the more remote areas. There has been an effort to create more bike ways, with a recent addition in Galloway Township.

MONITORING 91.230

73. Describe the standards and procedures the jurisdiction will use to monitor its housing and community development projects and ensure long-term compliance with program requirements and comprehensive planning requirements.

Programs and Activities

The Atlantic County Improvement Authority Office of Community Development monitors activities carried out to further the Consolidated Plan to ensure long-term compliance with program requirements. The objectives of the monitoring are to make sure that activities 1) comply with all regulations governing their administrative, financial, and programmatic operations; 2) achieve their performance objectives within schedule and budget; and 3) comply with the Consolidated Plan.

Internal controls have been designed to ensure adequate segregation of duties. The Office of Community Development prepares agreements for non-housing activities supported by CDBG and establishes accounts. Invoices are monitored for compliance with the approved spending plan and federal regulations. The Office of Community Development administers Atlantic County's Integrated Disbursement and Information System (IDIS). The Office of Community Development is also primarily responsible for setting up and administering activities.

Each project is reviewed for eligibility and meeting a national objective before approval. Then, before bidding, all contracts are reviewed to ensure that they contain the required federal language from Part 85. During construction wage rates are reviewed. Beneficiary information on direct service activities are collected annually and reported in the Consolidated Annual Performance Evaluation Report (CAPER). On-site monitoring is conducted as needed and although the county does not fund non-profit subrecipients, when municipalities undertake public service activities, monitoring is conducted to ensure program compliance.

For each objective, Atlantic County reports on outcomes as part of its CAPER.

Minority Business Outreach

Atlantic County encourages participation by minority-owned businesses in CDBG and HOME assisted activities. The ACIA maintains records concerning the participation of minority-owned businesses to assess the results of its efforts and to complete the semi-annual "Minority Business Enterprise Report" to HUD. Any contractor interested in bidding on jobs available under the Housing Rehabilitation Program receives an application package and, if qualified, is included on a list of contractors to receive announcements about the availability of bid packages.

Comprehensive Planning Requirements

To ensure compliance with the comprehensive planning requirements of the Consolidated Plan process, the Office of Community Development works with other County offices on a regular basis to better understand the needs of the County and its citizenry. The selection of projects is undertaken in a

ATLANTIC COUNTY, NJ

manner that ensures consistency with the county's plans and those of local government.

On-going review of in-house procedures ensures compliance with federal requirements concerning citizen participation and consistency of actions taken with those specified in Atlantic County's "Citizen Participation Plan." Records documenting actions taken are maintained for each program year.

HOUSING OPPORTUNITIES FOR PEOPLE WITH AIDS (HOPWA)

**Refers to the HOPWA Table in the Needs.xls workbook.*

Questions 74 through 81

Not applicable – Atlantic County does not receive a HOPWA allocation.

OTHER NARRATIVES AND ATTACHMENTS

- 82.** Include any Strategic Plan information that was not covered by a narrative in any other section. If optional tables are not used, provide comparable information that is required by consolidated plan regulations.

Not Applicable.

- 83.** Section 108 Loan Guarantee: If the jurisdiction has an open Section 108 project, provide a summary of the project. The summary should include the Project Name, a short description of the project and the current status of the project, the amount of the Section 108 loan, whether you have an EDI or BEDI grant and the amount of this grant, the total amount of CDBG assistance provided for the project, the national objective(s) codes for the project, the Matrix Codes, if the activity is complete, if the national objective has been met, the most current number of beneficiaries (jobs created/retained, number of FTE jobs held by/made available to LMI persons, number of housing units assisted, number of units occupied by LMI households, etc.)

If the jurisdiction has an open Section 108 project, provide a summary of the project. The summary should include the Project Name, a short description of the project and the current status of the project, the amount of the Section 108 loan, whether you have an EDI or BEDI grant and the amount of this grant, the total amount of CDBG assistance provided for the project, the national objective(s) codes for the project, the Matrix Codes, if the activity is complete, if the national objective has been met, the most current number of beneficiaries (jobs created/retained, number of FTE jobs held by/made available to LMI persons, number of housing units assisted, number of units occupied by LMI households, etc.)

Atlantic County received a Section 108 Loan to assist the Boscov's Department Store in Atlantic County. The following reports the status of the job creation and loan distribution.

Grantee Name	Atlantic County
State	NJ
Section 108 Project Number	B09-UC-34-0111
Project Name	Boscov's Department Store Project
Address	Shore Mall, 6725 Black Horse Pike Egg Harbor, NJ
ZipCode	08234
Census Tract	118.02
EDI or BEDI Grant Number (if applicable)	Not applicable

ATLANTIC COUNTY, NJ

108 Loan Amount	\$3,000,000
108 Amount Advanced	
108 Project Amount (for multiple projects)	Not applicable
EDI or BEDI Grant Amount	Not applicable
Other CDBG	Not applicable
Total CDBG Assistance	
Have EDI or BEDI funds been drawn (Y/N)	Not applicable
National Objective Code	LMJ
IDIS Matrix Code	18A
Is Activity Complete? (Y/N)	NO
Has N.O. Been Met? (Y/N)	NO
Presumed Low/ Mod Benefit (P) or Rev. Strategy Area (RSA)	NO
FTE Jobs Est. in 108 Appl.	181
Total Actual FTE Jobs Created or Retained (September, 2010)	165
Number of FTE Jobs Held by/ Made Avail. to Low/ Mod	145 of 212 (includes part-time)
Total Housing Units Assisted	Not applicable
Number of Units Occpd. by Low/ Mod Households	Not applicable
Slum/Blight Area Y=Yes	Not applicable

- 84. Regional Connections:** Describe how the jurisdiction's strategic plan connects its actions to the larger strategies for the metropolitan region. Does the plan reference the plans of other agencies that have responsibilities for metropolitan transportation, economic development, and workforce investment?

This Consolidated Plan considered the actions and plans of a wide range of regional and county-wide agencies including the South Jersey Economic Development Agency, WIB, County planning department and other county-wide agencies.

2011

Annual Action Plan
for Housing and Community Development

Annual Action Plan

The CPMP Annual Action Plan includes the SF 424 and Narrative Responses to Action Plan questions that CDBG, HOME, HOPWA, and ESG grantees must respond to each year in order to be compliant with the Consolidated Planning Regulations.

Narrative Responses

ACTION PLAN

Annual Action Plan includes the [SF 424](#) and is due every year no less than 45 days prior to the start of the grantee's program year start date. HUD does not accept plans between August 15 and November 15.

EXECUTIVE SUMMARY 91.220(b)

1. The Executive Summary is required. Include the objectives and outcomes identified in the plan and an evaluation of past performance.

Atlantic County receives funding annually from the U.S. Department of Housing and Urban Development (HUD) under the Community Development Block Grant (CDBG) and HOME Investment Partnership programs. The Atlantic County Improvement Authority (ACIA) is the County's designated agency responsible for the federal grant programs covered by the Consolidated Plan, namely the CDBG and HOME programs. ACIA also administers the CDBG program for the Town of Hammonton, a separate HUD entitlement. (Note: The City of Atlantic City is a separate HUD entitlement. Therefore, this plan does not address the needs of the City nor do the statistics presented herein include the City.)

One of the requirements for receiving these funds is the development of a five-year Consolidated Plan for Housing and Community Development (CP) to provide policy direction for the next five years of funding decisions. In general, the CP is guided by three overarching goals set by HUD that are applied according to a community's needs. The goals are:

- To provide decent housing by preserving the affordable housing stock, increasing the availability of affordable housing, reducing discriminatory barriers, increasing the supply of supportive housing for those with special needs and transitioning homeless persons and families into housing.
- To provide a suitable living environment through safer, more livable neighborhoods, greater integration of low and moderate income residents throughout the cities, increased housing opportunities and reinvestment in deteriorating neighborhoods.
- To expand economic opportunities through more jobs paying self-sufficient wages, homeownership opportunities, development activities that promote long-term community viability and the empowerment of low- and moderate-income persons to achieve self-sufficiency.

This CP corresponds to the next five fiscal years, which begin September 1, 2011, and end August 31, 2015. The primary federal funding resources in the 2011-2015 Consolidated Plan are the following:

- Community Development Block Grant (CDBG): The primary objective of this program is to develop viable urban communities by providing decent housing, a suitable living environment, and economic opportunities, principally for persons of low and moderate income levels. Funds can be used for a wide array of activities, including: housing rehabilitation, homeownership assistance, lead-based paint detection and removal, construction or rehabilitation of public facilities and infrastructure, removal of architectural barriers, public services, rehabilitation of commercial or industrial buildings and loans or grants to businesses.
- HOME Investment Partnerships Program (HOME): The HOME program provides federal funds for the development and rehabilitation of affordable rental and ownership housing for low and moderate income households. HOME funds can be used for activities that promote affordable rental housing and homeownership by low and moderate income households, including reconstruction, moderate or substantial rehabilitation, homebuyer assistance and tenant-based rental assistance.

Focus of the Plan

As required by the federal government, the identification of needs and the adoption of strategies to address those needs must focus primarily on low- and moderate-income (LMI) individuals and households. The CP must also address the needs of persons with “special needs” such as the elderly, persons with disabilities, large families, single parents, homeless individuals and families and public housing residents. The CP identifies housing, homeless, community and economic development needs and resources, while providing a strategic plan to address those needs in accordance with community priorities.

Priority Needs and Strategies

ACIA works with the municipalities in the County to allocate funds to activities that serve the needs of the lowest-income and most disadvantaged residents. Households with incomes less than 80% of the area median income, particularly those with extremely low incomes (less than 30% of area median income), are particular priorities. The County has also identified special needs individuals as among those who face the greatest challenges and who should receive high priority in the expenditure of federal funds, including at-risk youth, low income families, the homeless and persons threatened with homelessness, the elderly, and persons with disabilities. The following needs address this priority:

- The provision and maintenance of affordable housing
- Investment in community development activities in lower-income neighborhoods and in facilities that serve lower-income populations, and
- Supportive services for target populations.

By focusing on these needs, the County seeks to address community concerns such as:

- A need for suitable affordable housing to address the growing gap between housing costs and local incomes, which leads to rising rates of overcrowding, and overpayment for the lowest-income residents
- Programs that improve community facilities and services, particularly in low-income areas
- Adoption of a Housing-First model to prevent homelessness.
- Programs that promote economic development, create jobs and increase the job skills level of potential employees, and
- Supportive services that promote independence, particularly for elderly residents.

The CP requires that the County specifically address needs and proposed strategies in three areas: housing, homelessness and community development.

Activities to be undertaken in 2011 are identified on the following table.

Priority	Project	Strategic Plan Priority Need	CDBG	HOME
Goal Housing Needs – Expand Home Ownership Among Low Income Households				
Assistance with Home Ownership	Atlantic Co. – Homebuyer Program	H		270,000
CHDO	Housing construction	H		101,722
Goal Housing Needs – Improve and Maintain Existing Housing				
Owner Households	Atlantic Co. - Housing Rehabilitation Program (includes	H		238,606
	Hamilton Township	H	73,824	
	Folsom Borough – Housing Rehabilitation Program	H	15,000	
	Total Housing		88,824	610,328
Goal Public Facilities Needs – Support for Improvement and Construction of Public Facilities				
Senior Centers	Galloway Twp. – Acquisition and Reconstruction of senior center 621 West White Horse Pike	H	144,824	
	Buena Vista Township – Senior Center	H	49,520	
	Atlantic County – improvements to county building in May's Landing	H	70,000	
Removal of Architectural Barriers	Weymouth Township – community center ADA parking lot	H	15,000	
	Corbin City – ADA city hall	H	15,000	
	City of Estell Manor – ADA walking path/recreation fields	H	15,000	
	City of Linwood – ADA – Wabash / bike path	H	20,128	
	Margate City – ADA bulkheads	H	35,065	
	Northfield City – ADA – walkway improvements	H	24,646	
	Longport – ADA improvements entrance ramp	H	15,000	
	Total Public Facilities		404,183	

<i>Goal Infrastructure Needs – Improve, Maintain and Expand Infrastructure</i>				
Street Improvements	City of Brigantine – 8th Street between Brigantine and Bayshore Aves. Includes replacement of storm and sanitary sewer, ADA compliant ramps	H	57,827	
	Town of Hammonton - 12th Street improvements	H	117,204	
	Pleasantville – Walnut St improvements		112,149	
	Egg Harbor Township - Farr Avenue, North Avenue, South Avenue, and Foster Avenue	H	83,828	
	Somers Point – Sunny Ave. from Meyran Ave. to Shuman's alley to Harnerd Ave.	H	57,388	
	Ventnor – Rosbough Ave. - Monmouth Ave. and Winchester Ave.	H	61,473	
Drainage Improvements	Mullica Township - Reading Ave. at Oak St. and between 24th and 23rd ave. and at 21st and Columbia Road	H	27,379	
	Buena Boro – Forest Grove Road storm water management near Central Ave.	H	27,261	
	Total Infrastructure		544,509	
<i>Goal Public Service Needs – Provide Public Service to Qualified Populations</i>				
Public Services	Absecon – Senior transportation service	H	28,867	
	Total Public Services		28,867	
<i>Goal Planning Needs – Support Planning and Administration of Community and Housing Development</i>				
Planning and Administration	Atlantic County Improvement Authority – planning and program administration	H	237,295	67,814
	Hammonton Metro-City Administration	H	29,301	67,814
	Total Planning and Administration		266,596	67,814
	Program Total		1,332,979	678,142

Evaluation of Past Performance

Atlantic County's FY 2009 Comprehensive Annual Performance and Evaluation Report (CAPER) provides an evaluation of the County's performance in that year and through the four years of the prior five year Consolidated Plan, 2006 – 2010. The FY 2010 CAPER will be made available after the completion of the program year on August 30, 2011. In 2009, Atlantic County allocated all of its CDBG funds to activities that benefit low income households. The FY 2009 CP included a multi-year blight certification including 2008, 2009 and 2010. The cumulative benefit for the 3 year period was 100%.

In FY 2009, Atlantic County assisted 33 low and moderate income households with rehabilitation. Atlantic County's Housing Rehabilitation Program provides a 100 percent interest free deferred loan repayable at time of sale. The primary funding source is HOME funds. Additionally, some of the municipalities used CDBG funds from Atlantic County to assist with housing rehabilitation. Through 2008, 278 households were assisted since the inception of the 5 year cycle beginning in FY 2006. This exceeds the goal of 250 units set for the 5 year period.

First-time home buyers are provided with assistance to purchase a home. The County provides households with a deferred loan of up to \$20,000. Loans are forgiven after the period of affordability has expired. Households are eligible to receive up to \$25,000 for down payment and closing and rehabilitation of the unit that is purchased. In FY 2009, 18 households were provided down payment and closing cost assistance.

Homeownership is also supported by new housing construction. Funding has been provided to non-profit sponsors to construct homes for sale to lower income buyers at affordable rates. During 2009, Habitat for Humanity started work on a homeownership unit which is expected to be sold in FY 2010. Two municipalities in Atlantic County received NSP funds from NJ DCA, Pleasantville and Buena Vista. These programs will provide additional affordable housing opportunities.

The number of households assisted through both closing costs as well as CHDO construction of new affordable housing during the period is a cumulative total of 97 assisted homebuyers. The five year goal was 40 households.

Rental housing development was also supported. During 2009, the Camden Diocese received assistance for development of a 73 unit senior building in Pleasantville expected to open in 2011. The County supported HUD Section 811 applications for CARING, Inc. to purchase and renovate group homes for persons with disabilities. A total of 20 units are in service. In 2006 CARING, a CHDO, received \$303,075 of HOME funds from prior years to develop 10 units for disabled seniors in Pleasantville City. The five year goal was 30 units. The cumulative accomplishment is anticipated to be 103 units.

Municipalities undertook infrastructure projects during 2009. Projects completed in FY 2009 from prior year and FY 2009 funding included:

- Northfield – ADA improvements at Park
- Brigantine – Street improvements
- Pleasantville – pump station
- Ventnor – water system improvements
- Linwood - curb ramps
- Hammonton - curb ramps

Absecon undertook a public service providing transportation services to the elderly

Cumulative 35 infrastructure and public facilities projects and 2 public services transportation projects have been undertaken and completed in the 4 years of this CP.

CITIZEN PARTICIPATION 91.200 AND 91.220(b)

2. Provide a summary of the citizen participation and consultation process (including efforts to broaden public participation in the development of the plan.

Citizen Participation and Agency Consultation

Atlantic County has made the decision to encourage a high level of agency consultation in an effort to demonstrate a commitment to (a) identifying priority needs and (b) engaging the participation of public agencies and non-profit organizations in a productive and collaborative manner. A list of stakeholders was developed to include public agencies and private non-profit organizations whose missions focus on the provision of affordable housing and human services to LMI households and persons. Public and private agencies which were identified as stakeholders in the process were asked to complete written questionnaires to provide data on special needs populations such as the elderly, youth, persons with HIV/AIDS, public housing residents, persons with disabilities and the homeless. Follow up interviews were conducted with a variety of agencies.

In agreement with 24 CFR 91.115(e) Atlantic County adopted a Citizen Participation Plan describing the citizen participation requirements of its CDBG program and HOME program. The Citizen Participation Plan is on file at the Atlantic County Improvement Authority Office of Community Development.

The series of opportunities for public engagement for preparation of the Five Year Plan and 2011 Action Plan were conducted. On March 17, 2011, three public hearings were held at different times and locations in the County to solicit input from social service agencies, housing providers, local municipalities, and County departments. Atlantic County held the hearing three times at three different locations in order to maximize the opportunity for citizen participation. The public hearings were held in the Atlantic County Libraries in Egg Harbor Township and Mays Landing, and at the Galloway municipal building. It was at these public hearings that the County solicited input from the municipalities for use in developing the objectives and priorities for the 5-Year Strategic Plan. The public hearings were advertised in The Press of Atlantic City.

On Thursday, May 26, 2011, a summary of the CP was published in The Press of Atlantic City alerting interested persons as to the availability of the CP and providing 3 opportunities for comment once again. Three public hearings were held on June 16, 2011, to allow for review and discussion of the County's Five-Year CP and proposed use of FY 2011 Program Funds. On Thursday, May 26, 2011, a summary of the CP was published in The Press of Atlantic City alerting interested persons as to the availability of the CP. The CP was placed at the following locations in Atlantic County for public review.

- Atlantic County Improvement Authority
Office of Community Development
5909 Main Street 2nd Floor
Mays Landing, NJ 08330
- Atlantic County Government Center
1333 Atlantic Avenue
Atlantic City, NJ 08401
- Atlantic County Library
40 Farragut Avenue
Mays Landing, NJ 08330

The Consolidated Plan was available through the website for ACIA. Documentation of the Citizen Participation process is included in Appendix B of this document.

In agreement with 24 CFR 91.100(4), Atlantic County notified the adjacent units of government that it

was completing this CP. Copies of the letters are contained in Appendix 3 of this document. Atlantic County also has sent a copy of the completed CP to the New Jersey Department of Community Affairs.

a. Based on the jurisdiction's current citizen participation plan, provide a summary of the citizen participation process used in the development of the consolidated plan. Include a description of actions taken to encourage participation of all its residents, including the following:

1. low- and moderate-income residents where housing and community development funds may be spent;
2. minorities and non-English speaking persons, as well as persons with disabilities;
3. local and regional institutions and other organizations (including businesses, developers, community and faith-based organizations);
4. residents of public and assisted housing developments and recipients of tenant- based assistance;
5. residents of targeted revitalization areas.

To provide access to the draft Consolidated Plan, a Notice of Availability was published in *The Press of Atlantic City* and on the county website. Copies of the notice of availability were sent to agencies identified in the previous section as a means to inform the population of the County that is difficult to reach through mainstream media due to language or disability. The agencies disseminated information to their constituents. There are no alternative language media in Atlantic County in which to announce the availability of the CP.

Municipalities were also informed of the availability of the CP for public comment and urged to announce this at their Council meetings.

Further, a copy of the Notice was sent to the two housing authorities with a request to post it in the public housing and in their tenant offices and Section 8 offices.

b. Identify agencies, groups, and organizations that participated in the process. This should reflect consultation requirements regarding the following:

1. General §91.100 (a)(1) - Consult with public and private agencies that provide health services, social and fair housing services (including those focusing on services to children, elderly persons, persons with disabilities, persons with HIV/AIDS and their families, homeless persons) during the preparation of the plan.
2. Homeless strategy §91.100 (a)(2) – Consult with public and private agencies that provide assisted housing, health services, and social services to determine what resources are available to address the needs of any persons that are chronically homeless.
3. Metropolitan planning §91.100 (a)(5) -- Consult with adjacent units of general local government, including local government agencies with metropolitan-wide planning responsibilities, particularly for problems and solutions that go beyond a single jurisdiction, i.e. transportation, workforce development, economic development, etc.
4. HOPWA §91.100 (b)-- Largest city in EMSA consult broadly to develop metropolitan-wide strategy for addressing needs of persons with HIV/AIDS and their families.

5. Public housing §91.100 (c) -- Consult with the local public housing agency concerning public housing needs, planned programs, and activities.

General

The Five Year Consolidated Plan has been developed in accordance with Title I of the Cranston-Gonzalez National Affordable Housing Act and pursuant to the requirements of HUD. ACIA solicited input for the development of the CP from County departments and private agencies.

Health Services

- AtlanticCare at the Rescue Mission

Fair housing Services

- South Jersey Legal Aid

Children

- Covenant House

Elderly

- Atlantic County Division of Intergenerational Services

Persons with Disabilities

- Atlantic County Division of Intergenerational Services
- Career Opportunity Development Inc. (CODI)
- Hansen House
- Mental Health Association of Atlantic County
- ARC of Atlantic County
- Atlantic County Alliance
- Office of Disability Services

Persons with HIV/AIDS

- South Jersey Alliance
- NJ Department of Community Affairs

Homeless persons

- Women's Center
- Jewish Family Services
- Atlantic City Rescue Mission
- Veteran's Services
- Atlantic County Department of Family and Community Development

Homeless strategy

The Atlantic County Continuum of Care is supported by the Atlantic County Department of Family and Community Development. The planning process for a new 10 year Plan to End Homelessness was initiated in January 2011. The CP was coordinated with the Plan to End Homelessness planning effort. The Continuum of Care Committee is a working group of the Human Services Advisory Board which is a function of County government. Extensive outreach was conducted on the homeless planning effort in order to accurately count the number of homeless in Atlantic County and to devise strategies that would address needs of the homeless in the County.

Lead-based paint hazards

The County's Public Health Officer in the Department of Health monitors lead-based paint problems. When children are reported with an Elevated Blood Lead Level (EBLL), the Public Health Officer is responsible to ensure that the housing unit is tested and appropriate steps are taken to remediate the problem. State data from the NJ Department of Health and Senior Services FY 2007 Annual Report, the most recent report available, was consulted.

Adjacent governments

ACIA meets annually with the individual municipalities that participate in the Urban County program. The municipalities were provided an opportunity to discuss their needs and contribute to the CP during the annual meeting on Feb. 2, 2011. A questionnaire was provided to obtain additional comments.

Metropolitan planning

Several groups were contacted to provide input at the County level:

- Atlantic County Regional Planning And Economic Development
- Work Force Investment Board
- Atlantic County Economic Development Authority

HOPWA

HOPWA services in Atlantic County are administered by the NJ Department of Community Affairs. The state department was consulted in preparation of this CP.

Public housing

There are two housing authorities in Atlantic County serving specific communities within the county:

- Pleasantville Housing Authority
- Buena Vista Housing Authority

3. Provide a summary of citizen comments or views on the plan.

There were no comments received on the plan.

4. Provide a written explanation of comments not accepted and the reasons why these comments were not accepted.

There were no comments received on the plan.

RESOURCES 91.220(c)(1)) AND (c)(2)

5. Identify the federal, state, and local resources (including program income) the jurisdiction expects to receive to address the needs identified in the plan. Federal resources should include Section 8 funds made available to the jurisdiction, Low-Income Housing Tax Credits, and competitive McKinney-Vento Homeless Assistance Act funds expected to be available to address priority needs and specific objectives identified in the strategic plan.

Table 1 shows the County's anticipated HUD entitlement for FY 2011.

Table 1
Funds Available in FY 2011

Funding Source	Amount (\$)
Community Development Block Grant Program	
• FY 2011 Entitlement	1,186,474
• Hammonton Entitlement	146,505
HOME Investment Partnerships Program	
• FY 2011 Entitlement	678,142
• Program Income	25,000
Total	\$ 2,036,121

During the fiscal year other federal resources that will likely be available in Atlantic County, but administered by other agencies, include McKinney Continuum of Care Grant, Community Services Block Grant (CSBG), Department of Energy Weatherization funds, and Housing Opportunities for Persons with AIDS Program (HOPWA).

The Pleasantville Housing Authority has 176 housing units and 326 Section 8 Vouchers and receives HUD funds from the public housing Operating funds Program, Capital Funds Program and Section 8 rental vouchers. In addition, the Housing Authority receives HOPE VI funds.

During 2011, HUD funding from the Supportive Housing Program and Shelter Plus Care Program through the Continuum of Care for the Homeless application will be requested. This funding provides rental assistance for homeless persons and supports the county's participation in the state's Homeless Management Information System.

Two municipalities in Atlantic County were awarded Neighborhood Stabilization Funds from NJ DCA. These projects are on-going.

Pleasantville	Atlantic	\$1,773,000
Buena Vista	Atlantic	\$826,908

The "Consolidated Plan Listing of Projects" (HUD Table 3) forms contained in this Part reports that all of the CDBG Program and HOME Program entitlements and estimated program income is allocated to the projects.

6. Identify federal resources the jurisdiction expects to receive from the Housing and Economic Recovery Act (HERA) and the American Recovery and Reinvestment Act (ARRA) that will be used to address priority needs and specific objectives identified in the plan.

Identify whether Neighborhood Stabilization Program funding is being used to address priority needs.

Identify whether CPD funding will be coordinated with Department of Energy's Energy Efficiency and Conservation Block Grants, and the Department of Labor's Workforce Investment Act programs to provide opportunities for unemployed, lower-skilled, and low-income women and men to advance along a middle class career track of increasing skills and wages.

Two communities received Neighborhood Stabilization Program (NSP) funds through DCA under the HERA. These activities are on-going.

Pleasantville	Atlantic	\$1,773,000
Buena Vista	Atlantic	\$826,908

Atlantic County received and expended funds provided through the American Recovery and Reinvestment Act (ARRA) of 2009. Atlantic County received a supplemental allocation of \$356,997. Projects were completed in three communities.

The ARRA also made Homeless Prevention and Rapid Re-housing Funds available to Atlantic County. Funding in the amount of \$545,890 was available to prevent homelessness and assist homeless persons to move to permanent housing. These funds are mostly expended with on-going commitments remaining to assist on a few families.

7. Explain how federal funds will leverage resources from private and non-federal public sources.

Potential matching funds for the HOME program includes funds from closed out Small Cities CDBG grants. These are repayment proceeds from the housing rehabilitation loans that have cycled through repayment more than one time. Before starting the HOME Program in 1997, the Atlantic County Improvement Authority's Office of Community Development requested clarification of the use of the repayment funds from closed out Small Cities CDBG grants. The Newark Area Office of HUD advised Atlantic County that such funds from closed out Small Cities CDBG grants was an acceptable match.

Additionally federal low-income housing tax credits (LIHTC), reduced mortgage rates, and funds from the State's Balanced Housing program may also be available. Since the County relies on developers for the construction of new affordable rental housing, it is unknown if any LIHTC projects will be implemented in the County in FY 2011. Any LIHTC projects will be reported in the year end CAPER.

In addition, a county in New Jersey has no authority over developing land use policy, zoning or approvals for residential developments. Therefore, the County does not know what may be occurring in the year.

Street improvements are funded throughout Atlantic County with funds from NJDOT. The funds complement street improvements funded with CDBG funds.

Many of the social service agencies in Atlantic County will benefit from the State Social Service Block

Grant funds. These funds allow the agencies to increase the number of persons they are able to serve.

ANNUAL OBJECTIVES 91.220(c)(3)

**If not using the CPMP Tool: Complete and submit Table 3A.*

**If using the CPMP Tool: Complete and submit the Summary of Specific Annual Objectives Worksheets or Summaries.xls*

Goals and objectives to be carried out during the action plan period are indicated by placing a check in the following boxes.

<input type="checkbox"/>	Objective Category Decent Housing Which includes:	<input type="checkbox"/>	Objective Category: Suitable Living Environment Which includes:	<input type="checkbox"/>	Objective Category: Expanded Economic Opportunities Which includes:
<input type="checkbox"/>	assisting homeless persons obtain affordable housing	<input checked="" type="checkbox"/>	improving the safety and livability of neighborhoods	<input type="checkbox"/>	job creation and retention
<input type="checkbox"/>	assisting persons at risk of becoming homeless	<input checked="" type="checkbox"/>	eliminating blighting influences and the deterioration of property and facilities	<input type="checkbox"/>	establishment, stabilization and expansion of small business (including micro-businesses)
<input checked="" type="checkbox"/>	retaining the affordable housing stock	<input checked="" type="checkbox"/>	increasing the access to quality public and private facilities	<input type="checkbox"/>	the provision of public services concerned with employment
<input checked="" type="checkbox"/>	increasing the availability of affordable permanent housing in standard condition to low-income and moderate-income families, particularly to members of disadvantaged minorities without discrimination on the basis of race, color, religion, sex, national origin, familial status, or disability	<input type="checkbox"/>	reducing the isolation of income groups within areas through spatial deconcentration of housing opportunities for lower income persons and the revitalization of deteriorating neighborhoods	<input type="checkbox"/>	the provision of jobs to low-income persons living in areas affected by those programs and activities under programs covered by the plan
<input type="checkbox"/>	increasing the supply of supportive housing which includes structural features and services to enable persons with special needs (including persons with HIV/ADOS) to live in dignity and independence	<input type="checkbox"/>	restoring and preserving properties of special historic, architectural, or aesthetic value	<input checked="" type="checkbox"/>	availability of mortgage financing for low income persons at reasonable rates using non-discriminatory lending practices
<input type="checkbox"/>	providing affordable housing that is accessible to job opportunities	<input type="checkbox"/>	conserving energy resources and use of renewable energy sources	<input type="checkbox"/>	access to capital and credit for development activities that promote the long-term economic social viability of the community

8. Provide a summary of specific objectives that will be addressed during the program year.

The ability to clearly demonstrate program results at a national level is having serious consequences on program budgets. In response, HUD has developed an outcomes performance measurement system to collect information on outcomes of activities and to aggregate that information at the local and national level. The outcomes that HUD is tracking include:

- Availability/accessibility

Availability is related to making services, infrastructure, housing, or shelter available or accessible to individual residents/beneficiaries.

- **Affordability**

Affordability may include the creation or maintenance of affordable housing, basic infrastructure hook-ups or services such as transportation or day care.

- **Sustainability: Promoting livable or viable communities**

Sustainability is specifically tied to activities that are meant to ensure that a particular geographic area as a whole (neighborhood, downtown, etc) remains viable. It is targeted at supporting a specific physical location.

Each outcome is paired with an objective:

- **Create a suitable living environment**

This objective relates to activities that are intended to address a wide range of issues faced by LMI persons from physical problems with their environment such as poor quality infrastructure to social issues such as crime prevention, literacy or elderly health services.

- **Provide decent affordable housing**

This objective focuses on housing programs where the purpose of the program is to meet individual family or community needs and not programs where housing is an element of a larger effort since they would be more appropriately reported under suitable living environment.

- **Create economic opportunities**

This objective applies to the types of activities related to economic development, commercial revitalization or job creation.

The objectives, outcomes, and output indicators will be combined to produce outcome narratives that will be comprehensive and will demonstrate the benefits that result from the expenditure of these federal funds.

HUD Specific Objectives Matrix

	Availability/ Accessibility	Affordability	Sustainability
Decent Housing	DH-1	DH-2	DH-3
Suitable Living Environment	SL-1	SL-2	SL-3
Economic Opportunity	EO-1	EO-2	EO-3

Table 1C Summary of Specific Objectives

Grantee Name: Atlantic County

Decent Housing with Purpose of New or Improved Availability/Accessibility (DH-1)							
Specific Objective		Source of Funds	Year	Performance Indicators	Expected Number	Actual Number	Percent Completed
DH 1.1	Housing Rehabilitation New housing construction Homebuyer Assistance	HOME CDBG NSP	2011	Housing units	45		%

The Housing Rehabilitation goal was derived as follows:

- Approximately 30 units of single family owner occupied rehabilitation per year
- Approximately 10 units of new construction by CHDOs over 5 years
- Approximately 10 units per year of assistance for homebuyers

DESCRIPTION OF ACTIVITIES 91.220(d) AND (e)

**If not using the CPMP Tool: Complete and submit Table 3C*

** If using the CPMP Tool: Complete and submit the Projects Worksheets*

9. Provide a summary of the eligible programs or activities that will take place during the program year to address the priority needs and specific objectives identified in the strategic plan.

Describe the outcome measures for activities in accordance with Federal Register Notice dated March 7, 2006, i.e., general objective category (decent housing, suitable living environment, economic opportunity) and general outcome category (availability/accessibility, affordability, sustainability).

Priority	Project	Outcome Measure	Objective	Output Indicator
<i>Goal Housing Needs – Expand Home Ownership Among Low Income Households</i>				
Assistance with Home Ownership	Atlantic Co. – Homebuyer Program	Availability/Accessibility	Provide decent, affordable housing	10 households
CHDO	Housing construction	Availability/Accessibility	Provide decent, affordable housing	1 Housing Unit
<i>Goal Housing Needs – Improve and Maintain Existing Housing</i>				
Owner Households	Atlantic Co. - Housing Rehabilitation Program (includes program income)	Availability/Accessibility	Provide decent, affordable housing	20 Households
	Hamilton Township	Availability/Accessibility	Provide decent, affordable housing	4 Households
	Folsom Borough – Housing Rehabilitation Program	Availability/Accessibility	Provide decent, affordable housing	1 Household
<i>Goal Public Facilities Needs – Support for Improvement and Construction of Public Facilities</i>				
Senior Centers	Galloway Twp. – Acquisition and Reconstruction of senior center 621 West White Horse Pike	Availability/Accessibility	Create a Suitable Living Environment	3,369 Elderly Persons
	Buena Vista Township – Senior Center	Availability/Accessibility	Create a Suitable Living Environment	Approx. 100 Elderly Persons
	Atlantic County – improvements to county building in May's Landing	Availability/Accessibility	Create a Suitable Living Environment	1 Public Facility
Removal of Architectural Barriers	Weymouth Township – community center ADA parking lot	Availability/Accessibility	Create a Suitable Living Environment	1 Public Facility
	Corbin City – ADA city hall	Availability/Accessibility	Create a Suitable Living Environment	1 Public Facility
	City of Estell Manor – soccer complex walking path	Availability/Accessibility	Create a Suitable Living Environment	1 Public Facility

GEOGRAPHIC DISTRIBUTION/ALLOCATION PRIORITIES 91.220(d) AND (f)

10. Describe the geographic areas of the jurisdiction (including areas of low income families and/or racial/minority concentration) in which assistance will be directed during the next year. Where appropriate, the jurisdiction should estimate the percentage of funds the jurisdiction plans to dedicate to target areas.

Priority funding areas in Atlantic County include those where the percentage of low and moderate income (LMI) persons exceeds 45.1%. The County also prioritizes areas of racial and ethnic concentration, defined as census tracts where the percentage of a specific racial or ethnic group is at least 10 percentage points higher than the County's rate overall.

During 2011, activities will be funded in communities with higher racial and Latino concentrations in the communities of:

- Absecon
- Galloway Township
- Egg Harbor Township
- Hammonton
- Hamilton Township
- Pleasantville

Concentrations of Minority and Hispanic Persons

Atlantic County has become increasingly diverse since 1990. Between that year and 2009, the County's percentage of minority residents increased from 14.9% to 26.8%. The minority share of the population grew during a time of population increase, as the County continued to gain White residents, although at a slower rate than it gained persons of other races.

In Atlantic County, diversity has also recently expanded within the non-White population. The percentage of Black residents has decreased slightly since 2000, although it increased since 1990. Additionally, there have been sizable increases in the number of Asian/Pacific Islanders, persons of "other" race, and persons of Hispanic ethnicity. Between 1990 and 2009, the following trends could also be noted:

- Atlantic County's Black population increased by 6.3% and Black persons now represent a larger share of the total population than they did in 1990.
- In Atlantic County, Native Americans decreased in number from 372 in 1990 to 340 in 2009, a change of -8.6%.
- The number of Asian/Pacific Islanders more than tripled, increasing at the greatest rate among racial and ethnic groups (265.4%).
- Persons of "some other race," increased by 255.7% in Atlantic County.
- "Persons of two or more races" was a new category in the 2000 Census. At that time, persons in this category comprised 2.2% of the total population of Atlantic County. This segment changed little, increasing to 2.3% of the County's population in 2009.

- Persons of Hispanic origin¹ account for 12.9% of Atlantic County's total population, an increase from 5.5% in 1990.

Atlantic County: Population Trends by Race and Ethnic Origin, 1990 to 2009

	1990		2000		2009		% Change 1990-2009

Hispanic	10,304	5.5%	20,622	9.7%	29,741	12.9%	188.6%

* Data for Two or More Races was not available in 1990.

Source: 1990 Census SF1 (P1, P6, P8); Census 2000 SF1 (P1, P3, P4); 2005-2009 American Community Survey (B01003, B02001, B03001)

The following table presents population data for Atlantic County by race and ethnicity. The data is presented by municipality for all 230,344 Atlantic residents in 2009. HUD defines areas of racial or ethnic concentration as geographical areas where the percentage of a specific minority or ethnic group is 10 percentage points higher than in the County overall.

In Atlantic County, Black residents comprised 12.3% of the population. Therefore, an area of racial concentration includes census tracts where the percentage of Black residents is 22.3% or higher. Of the 22 total municipalities in Atlantic County (not including Atlantic City), five include census tracts that qualify using this definition. In the County, Asian/Pacific Islander residents comprised 5.1% of the population; therefore, an area of racial concentration includes census tracts where the percentage of Asian/Pacific Islander residents is 15.1% or higher. Of the 22 total municipalities in Atlantic County, two include census tracts that qualify using this definition. Further, persons of Hispanic ethnicity represent 12.9% of Atlantic County's population. Therefore, an area of ethnic concentration would include census tracts of 22.9% or higher. Of the 22 total municipalities in Atlantic County, four include census tracts that qualify using this definition.

¹ Hispanic origin is defined by the Census Bureau as "people whose origins are from Spain, the Spanish-speaking countries of Central or South America, the Caribbean, or those identifying themselves generally as Spanish, Spanish-American, etc. Origin can be viewed as ancestry, nationality, or country of birth of the person or person's parents or ancestors prior to their arrival in the United States. Spanish/Hispanic/Latino people may be of any race."

* These census tracts are partially within the municipality. Population figures for these areas may be higher than actual numbers, as some municipalities may share census tracts, but lack a quantitative breakdown of discrete populations in each area.

** Other Race includes the Census categories of Some Other Race Alone, American Indian and Native Alaskan Alone, and Two Or More Races

Source: 2005-2009 American Community Survey (B01003, B02001, B03001)

The locations of areas of racial concentration in Atlantic County are illustrated in the following map.

Low Moderate Income Areas

The following table presents information regarding low and moderate income (LMI) persons in Atlantic County. LMI persons, as determined by HUD, have incomes at or below 80% of the median family income (MFI). In its 2010 estimates, HUD determined that there were 74,393 LMI persons in Atlantic County, equivalent to 35.9% of the population for whom this rate is determined.

HUD defines an LMI census block group in Atlantic County as one in which 45.1% or more of the population have incomes of 80% or less of MFI. According to these criteria, 37 of the County's 152 census block groups qualify as LMI areas. The table below lists all block groups for which LMI status has been determined.

Source: Housing and Urban Development FY2010 LMI estimates

Atlantic County's LMI areas are illustrated in the following map.

Concentrations of LMI Persons and Minority Persons

In Atlantic County, of the 24 census tracts which contained block groups identified as LMI areas, nine were noted also to be areas of racial or ethnic concentration. The census tracts that qualified as both areas of racial concentration and LMI concentration were: 105.03, 108, 111, 113, 117.02, 119, 120, 121, and 122. These areas are illustrated in the following map.

11. Describe the reasons for the allocation priorities, the rationale for allocating investments geographically within the jurisdiction (or within the EMSA for HOPWA) during the next year, and identify any obstacles to addressing underserved needs.

Atlantic County allocates CDBG funds to each municipality through a pro-rata formula based on population. Each community can then select a project that meets its needs provided the activity also meets the national objectives and eligibility of the CDBG program. HOME funds are used for housing activities county-wide.

The chief obstacles for meeting underserved needs are the limited amount of funding provided to meet such infrastructure and housing needs. In the past year, the County has not had enough HOME funds to meet the demand for homeownership assistance, nor rehabilitation of owner-occupied housing.

ANNUAL AFFORDABLE HOUSING GOALS 91.220(g)

**If not using the CPMP Tool: Complete and submit Table 3B Annual Housing Completion Goals.*

**If using the CPMP Tool: Complete and submit the Table 3B Annual Housing Completion Goals.*

12. Describe the one-year goals for the number of homeless, non-homeless, and special-needs households to be provided affordable housing using funds made available to the jurisdiction and one-year goals for the number of households to be provided affordable housing through activities that provide rental assistance, production of new units, rehabilitation of existing units, or acquisition of existing units using funds made available to the jurisdiction. The term affordable housing shall be defined in 24 CFR 92.252 for rental housing and 24 CFR 92.254 for homeownership.

**Table 3B / ANNUAL AFFORDABLE HOUSING
COMPLETION GOALS**

PUBLIC HOUSING 91.220(h)

13. Describe the manner in which the plan of the jurisdiction will help address the needs of public housing and activities it will undertake during the next year to encourage public housing residents to become more involved in management and participate in homeownership.

The Pleasantville Housing Authority has a ROSS Coordinator who works with the elderly and disabled to address their needs to maintain their ability to live independently. The Family Self-Sufficiency Coordinator works with the Section 8 voucher holders to increase their financial stability.

Under the HOPE VI grant, a program called the Program Coordinating Committee was formed. The committee is composed of local professionals who are willing to serve as role models and mentors to model behaviors for residents of New Hope. There are currently 20-30 professional members.

14. If the public housing agency is designated as "troubled" by HUD or otherwise is performing poorly, the jurisdiction shall describe the manner in which it will provide financial or other assistance in improving its operations to remove such designation during the next year.

Not applicable – The Pleasantville Housing Authority and Buena Housing Authority have not been designated as "troubled."

HOMELESS AND SPECIAL NEEDS 91.220(i)

15. Describe, briefly, the jurisdiction's plan for the investment and use of available resources and describe the specific planned action steps it will take over the next year aimed at eliminating chronic homelessness.

There is an unusually large homeless population in Atlantic County with a concentration in Atlantic City. A new Ten Year Plan to End Homelessness is being prepared. The Continuum of Care is a City-County public and private partnership uniting a wide range of agencies on the provision of services to prevent homelessness and provide services to those already homeless. The Continuum of Care committee has worked to expand housing opportunities and services for persons who are chronically homeless. The PATH program at JFS provides street out-reach and engagement to persons with mental illness and who are homeless.

A 2010 McKinney COC award will allow Covenant House to assist homeless women and children, many of whom fit the new definition for family chronic homelessness. New funds available in 2011 have not yet been allocated but the County will pursue the full pro-rata allocation.

At this time Atlantic County does not intend to provide CDBG nor HOME funds for such activities but does support the preparation of the Continuum of Care application for funding and the County will provide a certification of consistency with the Consolidated Plan for requests for funding from HUD programs to provide housing and services for persons who are chronically homeless.

16. Describe specific action steps to address the needs of persons that are not homeless identified in accordance with 91.215(e).

It is hard to quantify the specific needs within the County. Part 2B of this CP reports on needs using information provided by services providers and through use of census indicators including CHAS Data 2000 and. The service providers generally did not quantify unmet needs.

The United Way's Needs Assessment in 2010 identified the need for mental health services.

Local health and human service professionals cite a lack of available funding for substance abuse and mental health treatment programs for youth, particularly for uninsured youth. Detoxification treatment services are also in short supply. 17% of Atlantic County adults report binge drinking in the past month according to The County Health Rankings 2010. The Crime in New Jersey – 2008 Uniform Crime Report notes that there were 2,303 drug related arrests in Atlantic County. (2008)

More than 70% of survey respondents reported Anxiety, Stress and Depression as a major community issue. According to the National Institute of Mental Health an estimated 57.7 million Americans ages 18 and older suffer from a diagnosable mental disorder a year. Additionally, one in five Americans report being depressed or unhappy, and report high levels of stress, anxiety and sadness. (2009)

Within Atlantic County there are individuals and families with special needs, such as the elderly and frail elderly, persons with severe mental illness, persons with mental retardation, persons with drug and/or

alcohol addictions, persons with AIDS and related diseases, the physically disabled, youth in danger of separation from their families and youth aging out of foster care who require supportive housing. In addition to housing assistance, supportive housing provides a range of services that are integral to the ability of persons with special needs to transition to independent, community living. Those in need are assisted by varying service providers who continue to work diligently to address those needs.

a. Elderly/Frail Elderly

The increase in the older elderly suggests that there will be increased demand for home-based services that enable them to age in place. Similarly there will be increased demand for service enriched housing at a variety of prices because of the increase in the very old population. Concerns regarding the elderly are as follows.

- Home maintenance assistance, including minor home repairs is the most needed supportive housing service.
- Adaptive modifications that allow them to remain in their homes as their physical conditions change.
- For people age 75 and over, the need for medical and other types of professional care rises sharply as evidenced by the large number of the elderly age 75 and over with self-care and go-outside the home disabilities.
- As people live longer, there will likely be more people in need of care because of dementia or other illnesses that diminish their mental capacity. The 2000 Census reports that there were 2,809 non-institutionalized persons age 65 and over in Atlantic County with a mental disability.

b. Persons with Disabilities

The organizations that represent persons with disabilities identified a number of needs, which for the most part, mirror those of all low income people. These needs were identified:

- Affordable housing and housing subsidies
A person on SSI receives \$705 per month but FMR for a one – bedroom unit is \$1,033.
- Housing repairs to major systems
- Home modification for wheelchair access in rental units
- Permanent supportive housing for adults and families with special needs
- Transportation to work, shopping and medical appointments

c. Persons with HIV/AIDS and their Families

The housing needs and problems of people living with HIV and AIDS are similar to those of people of similar health or socio-economic status. Many people living with HIV and AIDS have other psychosocial, health, and emotional problems such as chemical dependency and mental health problems. Key housing problems include:

- Affordability
- Security
- Transportation
- Child care issues

Financial constraints are central to most housing issues faced by people living with HIV and AIDS in the community. Financial problems often appear to be accentuated by the inability to work and expenses for medical care and medicines beyond the scope of insurance.

d. Persons with Alcohol and Drug Addictions

The primary need for persons with substance abuse is detox and treatment services. Housing needs are similar to other populations with mental and physical health issues and lack of stable income.

17. Homelessness Prevention—Describe planned action steps over the next year to address the individual and families with children at imminent risk of becoming homeless.

Atlantic County employs the Housing First model. When a family is in need of Emergency Assistance, the case managers at the County EA office take steps to place them in permanent housing as quickly as possible. When needed, most homeless families are housed at the Atlantic City Rescue Mission (ACRM). ACRM employs a Housing Locator Specialist who works with local landlords to place families in appropriate housing. The County received both HPRP and additional Social Services for the Homeless (SSH) funds from the stimulus program. ACRM has administered the Homeless Prevention and Rapid Re-housing Program (HPRP) for Atlantic County. Through these funds, individuals and families threatened with imminent homelessness were able to access funds for several months for payment of rent and utilities while they worked with a case manager to stabilize their housing situation. The County is seeking additional funds to continue this program. A one month subsidy is available through CEAS funds.

The Housing Locator at ACRM and JFS provides assistance for persons who need immediate housing. To prevent eviction, the housing locator develops relationships and provides rental owners with resources to contact when families are falling behind. Thus, an early warning system will be established so that families at risk of becoming homeless can be identified. When a family is in trouble, rather than evict, the landlord will have the knowledge of community resources to help stabilize that family.

BARRIERS TO AFFORDABLE HOUSING 91.220(j)

18. Describe the actions that will take place during the next year to remove barriers to affordable housing.

The policies that may impact affordable housing, including zoning and other land use controls and building and development permits are regulated by the municipalities in Atlantic County. While housing costs have depreciated in the last two years, there is still a gap in housing that is affordable to low income households in Atlantic County and housing that is available. The cost of land and construction and rehabilitation costs, however, continue to rise. The increasing costs are passed on by way of increased housing prices and rents that negatively impact the affordability of housing by low income households. Within the resource constraint, Atlantic County diligently works to alleviate the cost burden and provide housing opportunities for low income households.

In agreement with the HOME program requirements, Atlantic County will continue to spend its funds on direct housing initiatives. HOME funds will be used to support the Housing Rehabilitation Program and the Homebuyer Program. Funds will also continue to be used to support development of housing. Some of the municipalities in the County also elect to use CDBG funds to assist residents with housing rehabilitation. In terms of dollar amount, the resources comprise a significant commitment to improving the quality of the housing stock and the ability of households to afford housing.

Municipalities in New Jersey are required to complete a Fair Share Plan in agreement with the rules and regulations of the New Jersey Council on Affordable Housing (COAH). The Fair Share Plan, which is certified by COAH, indicates that the community has a plan to address its regional fair share for affordable housing. COAH reports that as of March 2011, six municipalities have petitioned for certification. The municipalities are working to expand affordable housing opportunities locally in furtherance of the goal to remove barriers to affordable housing.

Atlantic County has a fair housing officer who works foster compliance with the Fair Housing Act in order to overcome the effects of the impediments to fair housing choice. Over the last five years, the fair housing office has not received any fair housing complaints. A new Analysis of Impediments to Fair Housing will be prepared in 2011.

OTHER ACTIONS 91.220(k)

19. Describe the actions that will take place during the next year to address obstacles to meeting underserved needs, foster and maintain affordable housing, evaluate and reduce the number of housing units containing lead-based paint hazards, reduce the number of poverty-level families develop institutional structure, enhance coordination between public and private agencies (see 91.215(a), (b), (i), (j), (k), and (l)).

i. Address Obstacles to Meeting Underserved Needs

Atlantic County continues to use its entitlement funds to provide assistance with activities that meet the underserved needs of the community. Through continued support of the Comprehensive Emergency Assistance Systems Committee and the Homeless Assessment Resource Team, Atlantic County remains apprised of the needs of the underserved and the

changes in the needs over time. This facilitates use of scarce funds in an efficient way.

ii. Foster and Maintain Affordable Housing

Atlantic County has budgeted \$ 508,606 of FY 2011 HOME entitlement funds to assist with housing activities that will foster and maintain affordable housing. Funds have been allocated to the Home Buyer Program and the County-wide Housing Rehabilitation Program. In addition, the County also will provide CDBG funds in the amount of \$15,000 for housing rehabilitation in Folsom Township and \$73,824 in Hamilton Township.

During the next year Atlantic County estimates that it will assist with rehabilitation of up to 20 housing units through the funding of the county-wide housing programs and assist 10 homebuyers. In addition, one unit will be completed in Folsom Borough and up to 4 units will be completed in Hamilton Township.

During the year funds will be allocated to CHDO activities that will also support expanding affordable housing in the County.

iii. Removing Barriers to Affordable Housing

The main barrier to affordable housing in Atlantic County is increased housing costs due to continued demand and limited supply. The presence of the Pine Land and desirable seashore put pressure on the housing market even in difficult economic times. The rehabilitation activities, assistance to homebuyer and construction of a new unit by the CHDO will support removing the identified barrier. There are no court orders, consent decrees or sanctions against Atlantic County from HUD or any other organization regarding housing and related services.

iv. Reduce Lead-Based Paint Hazards

All children in New Jersey are at risk of lead poisoning; therefore, New Jersey State law (Public Law 1995, chapter 328) requires every physician, professional registered nurse, and health care facility to screen all children under six years of age who come to them for care.

The state's 2007 report from the NJ Department of Health and Senior Services is the most current report on the number of children with elevated blood lead levels. This report shows that of the 6,403 children 6 to 29 months old in Atlantic County, 40.9% were tested, and of those outside Atlantic City, five were shown to have some level of elevated blood lead levels with two having 20 to 44 ug/dL, and five with an EBLL of 15-19 ug/dL, significantly high levels of lead. An additional 8 had EBLL of 10-14 ug/dL which is still considered an elevated level.

Of the children in Atlantic County under age six, 20,219 were tested (23%) of which 79 had EBLL, of which 39 were in Atlantic City and 40 resided outside Atlantic City.

Lead based paint hazard reduction has been integrated into the County's housing policies and programs as follows.

- The guidelines for the Housing Rehabilitation Program comply with the lead based paint hazards at 24 CFR Part 35 and the new EPA guidelines.

- When paint is disturbed in the course of non-emergency rehabilitation work in properties constructed prior to January 1, 1978, only a qualified contractor performs lead hazard reduction activities. The contractor must employ a certified lead-based paint abatement supervisor, or have employees certified in lead-based paint abatement. Certified testing companies perform a pre-rehabilitation risk assessment for lead-based paint hazards and a post-rehabilitation clearance test for lead dust hazards where the non-emergency work disturbs a painted surface.
- Where emergency work is completed, to the maximum extent practicable, occupants must be protected from exposure to lead in dust and debris generated.
- Lead paint hazard reduction is an eligible rehabilitation activity funded by the Housing Rehabilitation Program.

Households participating in the Homebuyer Program are not allowed to purchase units that have deteriorated interior or exterior painted surfaces. An exception to the requirement is allowed where minimal deteriorated paint surfaces exist and the seller is willing to have the surfaces tested, at their expense, by certified lead-based paint inspectors or risk assessors to determine if the deteriorated paint contains lead. If the paint contains lead, the household is not permitted to purchase the property and the agreement of sale becomes null and void. If it is determined by the testing that there is no lead-based paint, then the household can purchase the property provided that all deteriorated paint surfaces and any other Housing Quality Standards violations are corrected prior to settlement. The counseling agencies working with the prospective homebuyers make them aware of the lead-based paint requirements. The counseling agencies also inform all home inspection companies used by the participating homebuyers, of the requirements.

The County's Health Department refers households with children with elevated blood lead levels to ACIA to determine if the household is eligible to receive assistance through the housing rehabilitation program.

The NJ Lead-Safe Housing Registry is a service provided to New Jersey residents who are interested in Lead-Safe Housing. The registry can be accessed on line at http://www.state.nj.us/dca/dcr/leadsafe/lead_hsg_registry_list.pdf or call 1-877-DCA-LEAD. Units are listed in Absecon, Brigantine, Buena Borough, Buena Vista Township, Egg Harbor City, Egg Harbor Township, Galloway Township, Hamilton Township, Hammonton, Linwood, Longport, Margate, Northfield, Pleasantville, Somers Point, Ventnor and Weymouth Township.

v. Reduce the Number of Poverty Level Families

Atlantic County, in conjunction with the public and private agencies and institutions, provides low income households with the opportunity to gain the knowledge and skills, as well as the motivation, to become fully self-sufficient. The Atlantic County Workforce Investment Board offers a One Stop Career Center, which is a customer driven and outcome-based system that assists individuals in reattachment to the labor force. The Atlantic County Department of Family and Community Development will continue to work as an anti-poverty agency, providing job training, safety net services and case management.

Job creation is the principal means to reduce poverty. The loss of business in the entertainment industry has hurt the economy of the region. The South Jersey Economic Development District has developed varied programs in support of expanding the community's tax ratable base and creating living wage jobs. Plans are underway to create a new technology park with a concentration on aviation research.

Engaging local residents in the construction trades on CDBG and HOME funded activities in the goal of the Section 3 program. By engaging local residents in the construction projects that impact low income communities, a double benefit is achieved.

vi. Develop Institutional Structure and Enhance Coordination

The Atlantic County Improvement Authority is responsible for the administration of the CDBG and HOME programs. All sub-recipients agreements with the municipalities and CHDOs are monitored on an ongoing basis. The Atlantic County Improvement Authority participates with other groups that where appropriate, such as it does in planning for the homeless, to facilitate cooperative problem solving in Atlantic County.

20. Describe the actions to coordinate its housing strategy with local and regional transportation planning strategies to ensure to the extent practicable that residents of affordable housing have access to public transportation.

Atlantic County has been actively working to link affordable housing with public transportation. Limited financial resources have been a hindrance to some of the efforts, but the County has looked at creating better links to the airport, with a recently added Pleasantville shuttle to the airport. There are issues of service to outlying areas, since the current delivery model is focused on east-west routes, with few north- south connections. The Stockton Run to Hammonton Mall has been a recent addition that enables more people to shop and provide transportation for employees. The suburban nature of most of the County makes it difficult to serve the more remote areas. There has been an effort to create more bike ways, with a recent addition in Galloway Township.

PROGRAM SPECIFIC REQUIREMENTS

CDBG 91.220(I)(1)

1. Identify program income expected to be received during the program year, including:
 - amount expected to be generated by and deposited to revolving loan funds;
 - total amount expected to be received from each new float-funded activity included in this plan; and
 - amount expected to be received during the current program year from a float-funded activity described in a prior statement or plan.

CDBG –The One Year Action Plan describes the activities that Atlantic County will undertake with its FY 2011 CDBG entitlement. The County does not anticipate any program income through their CDBG program funds. These funds come from the countywide housing rehabilitation program and will be reinvested in this program. The County will not have any surplus from urban renewal settlements, nor will it have any grant funds returned to the line of credit for which planned use has not been included in a prior statement or plan.

The County has determined that it will meet the 70% low/mod benefit threshold by averaging the three years 2011-2013. The three-year certification has allowed the County to provide additional assistance to one or more activities that aid in the prevention of slums and blight.

2. Program income received in the preceding program year that has not been included in a statement or plan.
3. Proceeds from Section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in its strategic plan.
4. Surplus funds from any urban renewal settlement for community development and housing activities.
5. Any grant funds returned to the line of credit for which the planned use has not been included in a prior statement or plan.
6. Income from float-funded activities.

Atlantic County will not have any income from float-funded activities nor will it seek to address any activities as an "urgent need."

7. Urgent need activities, only if the jurisdiction certifies.
8. Estimated amount of CDBG funds that will be used for activities that benefit persons of low- and moderate income.

Atlantic County has signed the certifications to ensure that CDBG funds shall principally benefit persons of low and moderate income in a manner that ensures that at least 70 percent of the funds will benefit low and moderate income persons and meet the defined National Objectives. The program has three years (2011-2013) to meet the slum and blight criteria. An estimated 100% of non-administrative funds provided hereunder through the CDBG program will be used to benefit low- and moderate-income persons.

HOME 91.220(I)(1)

1. Describe other forms of investment. (See Section 92.205)
If grantee (PJ) plans to use HOME funds for homebuyers, did they state the guidelines of resale or recapture, as required in 92.254.

HOME – all of Atlantic County’s HOME investments for FY 2011 will conform to those described in 24 CFR Section 92.205.

In FY 2011, Atlantic County will receive \$678,142 in Home Investment Partnerships (HOME) Program funds. The County anticipates \$25,000 of program income for a total of \$703,142. HOME funds will be used as follows:

- Administration of the County’s HOME program
 - Assistance with downpayment and closing costs to first-time homebuyers. Funds are also available to assist with rehabilitation that is completed in conjunction with the purchased home.
 - Rehabilitation of single-family owner-occupied units Countywide
 - Assistance with a CHDO activity
2. If grantee (PJ) plans to use HOME funds to refinance existing debt secured by multifamily housing that is being rehabilitated with HOME funds, state its refinancing guidelines required under 24 CFR 92.206(b).

Atlantic County will not utilize HOME funds for refinancing existing debt.

3. Resale Provisions -- For homeownership activities, describe its resale or recapture guidelines that ensure the affordability of units acquired with HOME funds? See 24 CFR 92.254(a)(4).

Resale/Recapture

The issue of resale/recapture arises when a homeowner who received homebuyer assistance under the HOME program decides to sell the property. If the property is sold after the period of affordability has expired, there are no restrictions in terms of resale or recapture of HOME funds that apply to such a transaction. If, however, the sale occurs before the period of affordability has expired, certain regulatory limitations apply.

The regulations at 92.254(a)(5) give the participating jurisdiction two broad options relative to the treatment of properties that are sold before the period of affordability has expired:

- The owner who received HOME assistance must sell the home to a low-income family who will use the property as their principal residence, or
- The participating jurisdiction must recapture some or all of the HOME investment that was initially extended to the homebuyer.

It is the policy of Atlantic County, wherever possible, to recapture the appropriate amount of the HOME investment rather than restricting the sale to a qualified low-income family who will use the property as its principal residence. The County’s recapture method is as follows.

In accordance with 24 CFR 92.254(a)(5)(ii)(A)(3), the County will share the net proceeds. If the net proceeds are not sufficient to recapture the full HOME investment plus enable the homeowner to recover the amount of the homeowner's downpayment and any capital improvement investment made by the owner since purchase, the County may share the net proceeds. The net proceeds are the sales price minus loan repayment (other than HOME funds) and closing costs. The net proceeds are divided proportionally as set forth in the following mathematical formula.

<u>HOME Subsidy</u> HOME Subsidy = Homeowner investment	X Net Proceeds	= HOME Recapture Amount
<u>Homeowner Investment</u> HOME investment + homeowner investment	X Net Proceeds	= amount to homeowner

The HOME investment will be forgiven if the home is owned beyond the period of affordability as described in 24 CFR Part 92.254.

4. HOME Tenant-Based Rental Assistance -- Describe the local market conditions that led to the use of a HOME funds for tenant based rental assistance program.

If the tenant based rental assistance program is targeted to or provides a preference for a special needs group, that group must be identified in the Consolidated Plan as having an unmet need and show the preference is needed to narrow the gap in benefits and services received by this population.

Atlantic county will not fund Tenant Based Rental Assistance.

5. If a participating jurisdiction intends to use forms of investment other than those described in 24 CFR 92.205(b), describe these forms of investment.

The County will not use any form of investment other than those described in 24 CFR 92.205(b).

6. Describe the policy and procedures it will follow to affirmatively market housing containing five or more HOME-assisted units.

In accordance with Atlantic County's commitment to non-discrimination and equal opportunity in housing, the County has established procedures to affirmatively market housing units rehabilitated or assisted under the HOME Program. These procedures are intended to further the objectives of title VIII of the Civil Rights Act of 1968 and Executive Order 11063.

Atlantic County believes that individuals of similar economic levels in the same housing market area should have available to them a similar range of housing choices regardless of their race, color, religion, sex, familial status, handicap, or national origin. Individuals eligible for public housing assistance or individuals who have minor children should also have available a similar range of housing choices.

Atlantic County implemented this policy through affirmative marketing procedures designed for the HOME program. All participants in the HOME program must agree in writing to abide by the county's Affirmative Marketing Policy. The Affirmative marketing Policy becomes part of the loan agreement that is signed by the owner of a rental project, or in case of a CHDO or subrecipient, the agreement specifies the affirmative marketing procedures that must be followed. This procedure applies where five or more units are receiving assistance.

7. Describe actions taken to establish and oversee a minority outreach program within its jurisdiction to ensure inclusion, to the maximum extent possible, of minority and women, and entities owned by minorities and women, including without limitation, real estate firms, construction firms, appraisal firms, management firms, financial institutions, investment banking firms, underwriters, accountants, and providers of legal services, in all contracts, entered into by the participating jurisdiction with such persons or entities, public and private, in order to facilitate the activities of the participating jurisdiction to provide affordable housing under the HOME program or any other Federal housing law applicable to such jurisdiction.

Atlantic County encourages participation by minority-owned businesses in CDBG assisted activities. The County maintains records concerning the participation of minority-owned businesses to assess the results of its efforts and to complete the semi-annual "Minority Business Enterprise Report" to HUD. Any contractor interested in bidding on jobs available under the Housing Rehabilitation Program receives an application package and, if qualified, is included on a list of contractors to receive announcements about the availability of bid packages.

Atlantic County's Minority Business Enterprises/Women Business Enterprises (MBE/WBE) efforts are designed to ensure the inclusion, to the maximum extent possible, of minorities and women, and entities owned by minorities and women, in all contracts entered into by the County in order to facilitate the activities of the County to provide affordable housing authorized under the Cranston-Gonzalez National Affordable Housing Act and any other fair housing law applicable to the Consortium. Atlantic County carries out its efforts in accordance with the requirements of Executive Orders 11625 and 12432 concerning minority business enterprises and Executive Order 12138 concerning women's business enterprises. In addition, the program implements 24 CFR Part 85.36(e) which outlines the actions to be taken to assure that minority business enterprises and women business enterprises are used, when possible, in the procurement of property and services.

The County is in the process of updating a list of MBE or WBE businesses that are registered with the State. The list will be distributed as part of any project which is identified for funding.

8. If a jurisdiction intends to use HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds, state its financing guidelines required under 24 CFR 92.206(b).

The County does not intend to use funds to refinance debt.

HOPWA 91.220(I)(3)

1. One year goals for the number of households to be provided housing through the use of HOPWA activities for: short-term rent, mortgage, and utility assistance to prevent homelessness of the individual or family, tenant-based rental assistance, units provided in housing facilities that are being developed, leased, or operated.

Not applicable

OTHER NARRATIVES AND ATTACHMENTS

Include any action plan information that was not covered by a narrative in any other section. If optional tables are not used, provide comparable information that is required by consolidated plan regulations.

MONITORING 91.230

Programs and Activities

The Atlantic County Improvement Authority Office of Community Development monitors activities carried out to further the Consolidated Plan to ensure long-term compliance with program requirements. The objectives of the monitoring are to make sure that activities 1) comply with all regulations governing their administrative, financial, and programmatic operations; 2) achieve their performance objectives within schedule and budget; and 3) comply with the Consolidated Plan.

Internal controls have been designed to ensure adequate segregation of duties. The Office of Community Development prepares agreements for non-housing activities supported by CDBG and establishes accounts. Invoices are monitored for compliance with the approved spending plan and federal regulations. The Office of Community Development administers Atlantic County's Integrated Disbursement and Information System (IDIS). The Office of Community Development is also primarily responsible for setting up and administering activities.

Each project is reviewed for eligibility and meeting a national objective before approval. Then, before bidding, all contracts are reviewed to ensure that they contain the required federal language from Part 85. During construction wage rates are reviewed. Beneficiary information on direct service activities are collected annually and reported in the Consolidated Annual Performance Evaluation Report (CAPER). On-site monitoring is conducted as needed and although the county does not fund non-profit subrecipients, when municipalities undertake public service activities, monitoring is conducted to ensure program compliance.

For each objective, Atlantic County reports on outcomes as part of its CAPER.

Minority Business Outreach

Atlantic County encourages participation by minority-owned businesses in CDBG and HOME assisted activities. The County maintains records concerning the participation of minority-owned businesses to assess the results of its efforts and to complete the semi-annual "Minority Business Enterprise Report" to HUD. Any contractor interested in bidding on jobs available under the Housing Rehabilitation Program receives an application package and, if qualified, is included on a list of contractors to receive announcements about the availability of bid packages.

Comprehensive Planning Requirements

To ensure compliance with the comprehensive planning requirements of the Consolidated Plan process, the Office of Community Development works with other County offices on a regular basis to better understand the needs of the County and its citizenry. The selection of projects is undertaken in a

manner that ensures consistency with the county's plans and those of local government.

On-going review of in-house procedures ensures compliance with federal requirements concerning citizen participation and consistency of actions taken with those specified in Atlantic County's "Citizen Participation Plan." Records documenting actions taken are maintained for each program year.

CERTIFICATIONS

In accordance with the applicable statutes and the regulations governing the consolidated plan regulations, the jurisdiction certifies that:

Affirmatively Further Fair Housing -- The jurisdiction will affirmatively further fair housing, which means it will conduct an analysis of impediments to fair housing choice within the jurisdiction, take appropriate actions to overcome the effects of any impediments identified through that analysis, and maintain records reflecting that analysis and actions in this regard.

Anti-displacement and Relocation Plan -- It will comply with the acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, and implementing regulations at 49 CFR 24; and it has in effect and is following a residential anti-displacement and relocation assistance plan required under section 104(d) of the Housing and Community Development Act of 1974, as amended, in connection with any activity assisted with funding under the CDBG or HOME programs.

Drug Free Workplace -- It will or will continue to provide a drug-free workplace by:

1. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;
2. Establishing an ongoing drug-free awareness program to inform employees about –
 - (a) The dangers of drug abuse in the workplace;
 - (b) The grantee's policy of maintaining a drug-free workplace;
 - (c) Any available drug counseling, rehabilitation, and employee assistance programs; and
 - (d) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;
3. Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph 1;
4. Notifying the employee in the statement required by paragraph 1 that, as a condition of employment under the grant, the employee will -
 - (a) Abide by the terms of the statement; and
 - (b) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;
5. Notifying the agency in writing, within ten calendar days after receiving notice under subparagraph 4(b) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

6. Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph 4(b), with respect to any employee who is so convicted-
 - (a) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or
 - (b) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;
7. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs 1, 2, 3, 4, 5 and 6.

Anti-Lobbying -- To the best of the jurisdiction's knowledge and belief:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of it, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement;
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, it will complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions; and
3. It will require that the language of paragraph 1 and 2 of this anti-lobbying certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

Authority of Jurisdiction -- The consolidated plan is authorized under State and local law (as applicable) and the jurisdiction possesses the legal authority to carry out the programs for which it is seeking funding, in accordance with applicable HUD regulations.

Consistency with plan -- The housing activities to be undertaken with CDBG, HOME, ESG, and HOPWA funds are consistent with the strategic plan.

Section 3 -- It will comply with section 3 of the Housing and Urban Development Act of 1968, and implementing regulations at 24 CFR Part 135.

Title

Specific CDBG Certifications

The Entitlement Community certifies that:

Citizen Participation -- It is in full compliance and following a detailed citizen participation plan that satisfies the requirements of 24 CFR 91.105.

Community Development Plan -- Its consolidated housing and community development plan identifies community development and housing needs and specifies both short-term and long-term community development objectives that provide decent housing, expand economic opportunities primarily for persons of low and moderate income. (See CFR 24 570.2 and CFR 24 part 570)

Following a Plan -- It is following a current consolidated plan (or Comprehensive Housing Affordability Strategy) that has been approved by HUD.

Use of Funds -- It has complied with the following criteria:

1. **Maximum Feasible Priority.** With respect to activities expected to be assisted with CDBG funds, it certifies that it has developed its Action Plan so as to give maximum feasible priority to activities which benefit low and moderate income families or aid in the prevention or elimination of slums or blight. The Action Plan may also include activities which the grantee certifies are designed to meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community, and other financial resources are not available);
2. **Overall Benefit.** The aggregate use of CDBG funds including section 108 guaranteed loans during program years 2011-2013, shall principally benefit persons of low and moderate income in a manner that ensures that at least 70 percent of the amount is expended for activities that benefit such persons during the designated period;
3. **Special Assessments.** It will not attempt to recover any capital costs of public improvements assisted with CDBG funds including Section 108 loan guaranteed funds by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements. However, if CDBG funds are used to pay the proportion of a fee or assessment that relates to the capital costs of public improvements (assisted in part with CDBG funds) financed from other revenue sources, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds.

The jurisdiction will not attempt to recover any capital costs of public improvements assisted with CDBG funds, including Section 108, unless CDBG funds are used to pay the proportion of fee or assessment attributable to the capital costs of public improvements financed from other revenue sources. In this case, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds. Also, in the case of properties owned and occupied by moderate-income (not low-income) families, an assessment or charge may be made against the property for public improvements financed by a source other than CDBG funds if the jurisdiction certifies that it lacks CDBG funds to cover the assessment.

Excessive Force -- It has adopted and is enforcing:

1. A policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in non-violent civil rights demonstrations; and
2. A policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of such non-violent civil rights demonstrations within its jurisdiction;

Compliance With Anti-discrimination laws -- The grant will be conducted and administered in conformity with title VI of the Civil Rights Act of 1964 (42 USC 2000d), the Fair Housing Act (42 USC 3601-3619), and implementing regulations.

Lead-Based Paint -- Its activities concerning lead-based paint will comply with the requirements of 24 CFR Part 35, subparts A, B, J, K and R;

Compliance with Laws -- It will comply with applicable laws.

**OPTIONAL CERTIFICATION
CDBG**

Submit the following certification only when one or more of the activities in the action plan are designed to meet other community development needs having a particular urgency as specified in 24 CFR 570.208(c):

The grantee hereby certifies that the Annual Plan includes one or more specifically identified CDBG-assisted activities which are designed to meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community and other financial resources are not available to meet such needs.

Specific HOME Certifications

The HOME participating jurisdiction certifies that:

Tenant Based Rental Assistance -- If the participating jurisdiction intends to provide tenant-based rental assistance:

The use of HOME funds for tenant-based rental assistance is an essential element of the participating jurisdiction's consolidated plan for expanding the supply, affordability, and availability of decent, safe, sanitary, and affordable housing.

Eligible Activities and Costs -- it is using and will use HOME funds for eligible activities and costs, as described in 24 CFR § 92.205 through 92.209 and that it is not using and will not use HOME funds for prohibited activities, as described in § 92.214.

Appropriate Financial Assistance -- before committing any funds to a project, it will evaluate the project in accordance with the guidelines that it adopts for this purpose and will not invest any more HOME funds in combination with other Federal assistance than is necessary to provide affordable housing;

APPENDIX TO CERTIFICATIONS

INSTRUCTIONS CONCERNING LOBBYING AND DRUG-FREE WORKPLACE REQUIREMENTS:

A. Lobbying Certification

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

B. Drug-Free Workplace Certification

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification.
2. The certification is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, HUD, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
3. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
4. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio stations).
5. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph three).
6. The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant:

Place of Performance (Street address, city, county, state, zip code)

Atlantic County Improvement Authority
5909 Main Street, 2nd Floor
Mays Landing, NJ 08330

Check _____ if there are workplaces on file that are not identified here.

The certification with regard to the drug-free workplace is required by 24 CFR part 24, subpart F.

7. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

"Controlled substance" means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);

"Conviction" means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

"Criminal drug statute" means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

"Employee" means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All "direct charge" employees; (ii) all "indirect charge" employees unless their impact or involvement is insignificant to the performance of the grant; and (iii) temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

APPENDIX A

EVIDENCE OF CITIZEN PARTICIPATION

Public Notice and Sample Public Hearing Invitation

PUBLIC HEARING NOTICE

Notice is hereby given that Atlantic County, in accordance with the County's Plan for Citizen Participation, will hold a public hearing on Thursday, March 17th, 2011. The hearing will be held at 2PM, 4PM and 6PM at three separate locations in the County. The same information will be presented at each of these three (3) times and places. The three (3) times and location format is being used in order to maximize the opportunity for citizen participation. The time and location of each public hearing is as follows:

<u>Time</u>	<u>Location</u>
2:00 PM	Atlantic County Library Egg Harbor Township 1 Swift Drive Egg Harbor Township, NJ 08234 (609) 927-8664
4:00 PM	Atlantic County Improvement Authority Office 5909 Main Street Mays Landing, NJ 08330 (609) 645-5838
6:00 PM	Atlantic County Library Galloway Township 306 E. Jim Leeds Road Galloway Township, NJ 08201 (609) 652-2352

The Libraries and ACIA Offices are handicapped accessible. The purpose of the hearing is as follows:

- a. Obtain the views and comments of individuals and organizations concerning the County's housing and community development needs. The information gathered will be used in the preparation of the County's Five Year Consolidated Plan for Fiscal Years 2011-2015 and the Annual Action Plan elements for Fiscal Year 2011 Community Development Block Grant, HOME and related programs.
- b. Review the County's CDBG, HOME and related programs and provide an opportunity to the public to comment on program performance.
- c. Summarize the Five Year Strategy of the County's Consolidated Plan and obtain the views of citizens, public agencies and other interested parties on the housing needs of the County relative to the required components of the Five Year Consolidated Plan including the Annual Action Plan.

All interested individuals and organizations are invited to attend any or all of the hearings and offer their views and comments on the housing and community development needs of Atlantic County.

A summary of the proposed Five Year Consolidated Plan and Annual Action Plan will be published in the Press of Atlantic City prior to the public hearing on said plans. The County intends to submit its Five Year Consolidated Plan and Annual Action Plan and application for F.Y. 2011 funds to HUD on or about July 15, 2011. The allocation has not yet been determined but the County estimates that its F.Y. 2011 Community Development Block Grant (CDBG) Program allocation will be around \$1,200,000 and its FY 2010 HOME Investment Partnerships (HOME) program allocation will be around \$700,000.

would equate to a \$43 increase for a home assessed at \$100,000. The tax rate for Galloway residents would go up by 0.6 cents, equating to a \$6 increase for a home assessed at \$100,000. The rate for Mullica residents would go down by 0.8 cents, equating to an \$8 decrease for a home assessed at \$100,000.

The tax rate in Hamilton would go down as well, but district officials could not say how much because of a recent revaluation of proper-

PUBLIC HEARING NOTICE

Notice is hereby given that Atlantic County, in accordance with the County's Plan for Citizen Participation, will hold a public hearing on Thursday, March 17th, 2011. The hearing will be held at 2PM, 4PM and 6PM at three separate locations in the County. The same information will be presented at each of these three (3) times and places. The three (3) times and location format is being used in order to maximize the opportunity for citizen participation. The time and location of each public hearing is as follows:

Time	Location
2:00 PM	Atlantic County Library Egg Harbor Township 1 Swift Drive, Egg Harbor Township, NJ 08234 • (609) 927-8664
4:00 PM	Atlantic County Improvement Authority Office 5909 Main Street, Mays Landing, NJ 08330 • (609) 645-5838
6:00 PM	Atlantic County Library Galloway Township 306 E. Jim Leeds Road, Galloway Township, NJ 08201 • (609) 652-2352

The Libraries and ACIA Offices are handicapped accessible. The purpose of the hearing is as follows:
a. Obtain the views and comments of individuals and organizations concerning the County's housing and community development needs. The information gathered will be used in the preparation of the County's Five Year Consolidated Plan for Fiscal Years 2011-2015 and the Annual Action Plan elements for Fiscal Year 2011. Community Development Block Grant, HOME and related programs.
b. Review the County's CDBG, HOME and related programs and provide an opportunity to the public to comment on program performance.
c. Summarize the Five Year Strategy of the County's Consolidated Plan and obtain the views of citizens, public agencies and other interested parties on the housing needs of the County relative to the required components of the Five Year Consolidated Plan including the Annual Action Plan.

All interested individuals and organizations are invited to attend any or all of the hearings and offer their views and comments on the housing and community development needs of Atlantic County.

A summary of the proposed Five Year Consolidated Plan and Annual Action Plan will be published in the Press of Atlantic City prior to the public hearing on said plans. The County intends to submit its Five Year Consolidated Plan and Annual Action Plan and application for F.Y. 2011 funds to HUD on or about July 15, 2011. The allocation has not yet been determined but the County estimates that its F.Y. 2011 Community Development Block Grant (CDBG) Program allocation will be around \$1,200,000 and its FY 2010 HOME Investment Partnerships (HOME) program allocation will be around \$700,000.

Grocery worker
pistol-whipped
in Atlantic City

A grocery store worker was injured after an armed robber pistol whipped him Saturday night, fleeing with \$200, Atlantic City police said.

The suspect left the gun behind, which police discovered was fake.

Police were called to the store on the 2500 block of Pacific Avenue near Texas Avenue just before 7 p.m. They were told the male suspect brandished a gun, there was a struggle and the victim was struck. The victim suffered lacerations to his face and was treated at AtlantiCare Regional Medical Center, City Campus.

**NOTICE OF PUBLIC DISPLAY AND PUBLIC HEARING
FIVE YEAR CONSOLIDATED PLAN 2011-2015
ANNUAL ACTION PLAN FY 2011
AND MODIFICATION OF FY 2010 ANNUAL PLAN
ATLANTIC COUNTY, NJ
and
TOWN OF HAMMONTON, NJ**

Notice is hereby given that in accordance with the Federal regulations at 24 CFR, Part 91 and Atlantic County's Plan for Citizen Participation, Atlantic County has prepared a Five Year Consolidated Plan for FY 2011-2015 Annual Action Plan for F.Y. 2011 for Community Planning and Development Programs. Atlantic county administers the grant funds on behalf of the Town of Hammonton, a separate HUD entitlement community. The Five Year Plan outlines the needs, goals and objectives that the County expects to accomplish during the five year period. The Annual Plan covers program period from September 1, 2011 to August 31, 2012 and provides specific funding levels for projects to be undertaken in the program year. The plans are available for 30 days for public comment and review.

Atlantic County will hold 3 public hearings on Thursday, June 16, 2010. The hearings will be held at 10AM, 2PM and 4PM at the following locations:

2:00 PM	Atlantic County Library Egg Harbor Township 1 Swift Drive Egg Harbor Township, NJ 08234
4:00 P.M.	Atlantic County Library Galloway Township 306 East Jim Leeds Road Galloway Township, NJ 08201
6:00 PM	Atlantic Library – May's Landing 40 Farragut Avenue Mays Landing, NJ 08330

The purpose of the hearing is to solicit citizen comments on the Five Year Plan 2011-2015 and the FY 2011 Annual Action Plan. The same information will be presented at each of these three times and locations. The three time and location format is used in order to maximize the opportunity for citizen participation. The locations are handicapped accessible.

Copies of the Five Year Plan 2011-2015 and the Annual Action Plan for F.Y. 2011 are available for public inspection and review at the following locations for a thirty-day period from May 26, 2011 through June 27, 2011.

Atlantic County Improvement Authority
5909 Main Street, 2nd Floor
Mays Landing, NJ 08330

Department of Family and Community Development
Atlantic County Office Building
1333 Atlantic Avenue
Atlantic City, NJ 08401
On line at *www.aclink.org*

The following are the financial resources the County expects to have available:

Funding Source	Amount (\$)
Community Development Block Grant Program <ul style="list-style-type: none">• FY 2011 Entitlement Atlantic County• FY 2011 Entitlement Hammonton	\$1,186,449 \$146,503
HOME Investment Partnerships Program <ul style="list-style-type: none">• FY 2010 Entitlement• Program Income	\$678,174 25,000
Total	\$2,036,126.00

The modification of the FY 2010 Action Plan will allow Atlantic County to use HOME funds to assist Habitat for Humanity, a Community Housing Development Organization (CHDO), with the construction of 2 new homes and use a Resale Restriction provision instead of recapture provision to ensure compliance with the affordability period.

Atlantic County intends to submit Five Year Plan 2011-2015 and Annual Action Plan for F.Y. 2011 to the U.S. Department of Housing and Urban Development (HUD) on or about July 15, 2011. Interested persons are encouraged to express their views on the Five Year Plan 2011-2015 and Annual Action Plan for F.Y. 2011 at the public hearing or in writing to the Atlantic County Improvement Authority, Office of Community Development, 5909 Main Street, 2nd Floor, Mays Landing, NJ 08330. All comments received on by June 28, 2011 will be considered.

Historic Preservation

The County will be undertaking an evaluation of the activities to be funded in an effort to identify historic and archaeological resources that may be affected by the activities. By this Notice, the County invites interested parties who have an interest in activities that may impact historic and archaeological resources to make themselves known. Parties should contact the Atlantic County Improvement Authority at the above address or call 645-5838 or (TTY: NJ Telecommunications Relay Center: 7-1-1). The County will involve such parties in the notification and review process of the National Council on Historic Preservation as set forth in Part 800.

4. Mailing address: P.O. Box 443
Pleasantville, NJ 08232
5. Telephone number: 609 487 9472 x4 Fax number: 609 487 7516
6. E-mail address: decenthomes@aol.com
7. What are the mission, principal activities, and service area of your organization? Attach a brochure, if available.
Please see attached Mission Statement and
Information Letter.
8. What special needs classification of persons and/or households does your organization serve? (Example: persons with disabilities, persons with HIV/AIDS, etc.)
Please see response attached.
9. Please describe the housing and/or supportive service needs of the area in which you are based.
Please see response attached.

10. What is the magnitude of the need? Please attach any statistics, records, or survey results that substantiate this need. (Example: number on waiting list for housing)

Please see response attached.

11. In your opinion, what is the major unmet housing and/or supportive service need *faced by your organization?*

- 1) Donated and/or affordable land.
- 2) Skilled volunteer base.
- 3) Due to the down-turn in the economy we are paying more contractors.

12. In your opinion, what is the major unmet housing and/or supportive service need in Atlantic County?

- 1) Land for affordable housing.
- 2) Unemployed individuals.

13. Does your organization *develop* housing? Yes _____ No ☒

14. If yes, please describe the housing developments planned by your organization *for the next five years*. (Please indicate the type of housing, location, type of residents served, number of units, etc.) Use additional sheets if necessary.

Check all that apply	Type of housing	No. of units	Neighborhood Location	Type of residents served
	Rental			
	For sale			
	Other (assisted living, etc.)			

15. Does your organization *manage* housing? Yes _____ No ☒

16. If yes, please check the type of housing your organization manages and the total number of units.

☐ Rental # _____

☐ Other # _____

17. Based on the housing assistance needs of your organization's clients and your plans to provide housing assistance to your clients over the next five years, please complete the chart below (Priority Housing Needs).

EXPLANATION OF CHART:

Current Need: Number of housing units needed to meet your current demand

Current Inventory: Number of housing units you currently have available to meet your demand

Unmet Need/Gap: Difference between the current need and current inventory

Goals to Address Unmet Need/Gap: Number of new housing units you plan to develop and/or make available over the next five years to meet your unmet need/gap

MFI = Median Family Income

PRIORITY HOUSING NEEDS (households)			Current Need	Current Inventory	Unmet Need/Gap	Goals to Address Unmet Need/Gap
<i>Example</i>			20	10	10	5
Renter	Small Related Family (2-4 persons)	0-30% of MFI				
		31-50% of MFI				
		51-80% of MFI				
	Large Related Family (5 or more persons)	0-30% of MFI				
		31-50% of MFI				
		51-80% of MFI				
	Elderly (Age 62+)	0-30% of MFI				
		31-50% of MFI				
		51-80% of MFI				
	All Other (single persons, etc.)	0-30% of MFI				
		31-50% of MFI				
		51-80% of MFI				
Owner		0-30% of MFI				
		31-50% of MFI				
		51-80% of MFI				
Special Needs		0-80% of MFI				
Total Goals						

18. Does your organization have any new projects or initiatives planned for the next five years? Please describe the nature, location, anticipated beneficiaries, anticipated cost of the projects, and funding sources.

Please see response attached.

19. For each of the projects listed in #18, please describe any partnerships you may undertake to implement the projects (example: Housing Authority, other nonprofit organization, etc.)

- 1) Hamilton Township - Eaglesmere Properties
- 2) Conson LLC, Robert Akerenson, Owner, Hamilton Twp - Atlantic County Improvement Authority (ACIA)
- 3) Atlantic County Institute of Technology (ACIT), - ACIT, Galloway Township (land), ACIA

Thank you for completing this survey. Please attach any additional thoughts or information (studies, surveys, reports, statistics, etc.) that may assist Atlantic County in completing its affordable housing and supportive services needs assessment.

Please complete this survey and return it no later than
February 11, 2011 to Mr. John Lamey.

Atlantic County Improvement Authority
5909 Main Street, 2nd Floor
Mays Landing, NJ 08330

Re: Atlantic County New Jersey Affordable Housing Provider Survey FY 2011-2015

Dear Mr. Lamey,

The statements below are in response to the Atlantic County New Jersey Affordable Housing Provider Survey FY 2011-2015:

Question # 8: What special needs classification of persons and/or households does your organization serve? (Example: persons with disabilities, persons with HIV/AIDS, etc.)

Answer: We have completed one wheelchair accessible house and are in the process of completing an additional wheelchair accessible house which is currently under construction. If a family with special needs qualifies for a Habitat house we would work to accommodate that family. We do not target specific persons/families with special needs.

Question # 9: Please describe the housing and/or supportive service needs of the area in which you are based.

Answer: We receive daily telephone calls inquiring about housing. We have a current wait list of 271 families interested in housing. Due to the economy we are experiencing challenges with loss of jobs which lead to unemployment which puts the ability to repay the mortgage in question.

Question # 10: What is the magnitude of the need? Please attach statistics, records, or surveys that substantiate this need. (Example: number on waiting list for housing)

Answer: As of January 2011 we had a wait list of 271 families interested in housing. On January 4, 2011 we mailed to these families a notice (see attached) stating that our application process will open beginning January 12, 2011. We additionally emailed the notice to: our iContacts database of 960 persons, Atlantic County Municipal Offices, Channel 40 News, Channel 6 News, Richard Stockton College Radio Station, our Church Congregation of 19 Churches, WOND Radio Station, The Current Newspapers of Atlantic County, Atlantic City Weekly News, Hammonton News, Mainland Journal News, Egg Harbor News, and the Press of Atlantic City. Since January 28, 2011 we have held four New Homeowner Orientations with 211 persons in attendance. We've also mailed seven new homeowner applications from the Habitat office. An additional Orientation has been scheduled for March 9, 2011 as the January 12th Orientation was canceled

due to ice and snow conditions. The application process will close March 23, 2011. The closing date for applications was also emailed to the above contacts on February 22, 2011.

Thus far we have received 69 new homeowner applications which are partially completed. The Family Selection Committee is in the process of reviewing the five documents requested in the application package: Application for Home Ownership, Background Search Release Authorization, Bank Verification Form, Employer Verification and Request for Rental History.

Question # 18: Does your organization have any new projects or initiatives planned for the next five years? Please describe the nature, location, anticipated beneficiaries, anticipated cost of the projects, and funding sources.

Answer: 1) Hamilton Township: We have recently acquired 2 three bedroom two story houses and are in the process of applying for permits (see Deeds for the properties attached). Both houses are designated for low income families.

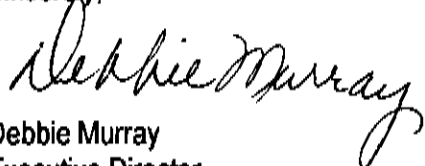

2) Atlantic County Institute of Technology: The Atlantic County Institute of Technology is currently constructing a three bedroom rancher wheelchair accessible house designated for a low income family (see contract for construction attached).

3) Galloway Township: We are currently reviewing two potential discounted sales from Galloway Township.

If you have any further questions or concerns please contact me at decenthomes@aol.com or (609)487-9472 extension 4.

Thank you.

Sincerely,

Debbie Murray
Executive Director

Current Need: Number of housing units needed to meet your current demand

Current Inventory: Number of housing units you currently have available to meet your demand

Unmet Need/Gap: Difference between the current need and current inventory

Goals to Address Unmet Need/Gap: Number of new housing units you plan to develop and make available **over the next five years** to address your unmet need/gap

MFI = Median Family Income

HEALTH & HUMAN SERVICE PROVIDER SURVEY

1. Name of organization: Office on Disability, Atlantic Co. Government
2. Name of person completing this survey: Kathleen Quish
3. Title of person completing this survey: Director
4. Mailing address: Shorenew Bldg 101 S. Shore Rd,
Northfield, NJ. 08225
5. Telephone number: 609-645-7700 Ext 4519 Fax number: 609-645-5963
6. E-mail address: _____
7. What are the mission, principal activities, and service area of your organization? Attach a brochure, if available.
Within Atl. Co. Dept of Human Services, Division of Intergenerational Services,
plans + coordinates a network of information + cooperation among
agencies serving residents of Atl. Co. who have a variety of
disabilities
8. What special needs classification of persons and/or households does your organization serve? (Example: persons with disabilities, persons with visual impairments, etc.)
Persons with disabilities - any disability
9. In your opinion, what is the major unmet housing and/or supportive service need faced by your organization?
see attached
10. What is the magnitude of the need? Please attach any statistics, records, or survey results that substantiate this need.
See Attached

11. In your opinion, what is the major unmet housing and/or supportive service need in Atlantic County?

SAME ANS. AS #9

12. Please identify your priority needs among the public facility and public service activities listed below. Also, please provide the county with an estimate of the cost to provide the facility or service and the basis for your estimate (architectural/engineering plans and estimate, current service budget, etc.)

Community Development Needs	Quantify Need*	Estimated Dollars Needed to Address
PUBLIC FACILITY NEEDS

Special Needs		0-80% of MFI				
Total Goals						

19. Please describe any partnerships you may undertake to implement your housing projects.

Thank you for completing this survey. Please attach any additional thoughts or information (studies, surveys, reports, statistics, etc.) that may assist Atlantic County in completing their affordable housing and supportive services needs assessment.

Please complete this survey and return it no later than February 11, 2011 to Mr. John Lamey.

W:\CLIENT\NJ\Atlantic County\2011-2015 CP\Surveys\Health & Human Service.doc

9. Major unmet housing and/or supportive housing need faced by *your organization* ...

- **Affordable and handicapped accessible rental units for individuals with physical disabilities under age of 62.**

10. Magnitude of need?

- NJ DCA's Consolidated Plan 2010-2014 documents this critical problem. A person on SSI of \$705 per month should pay "affordable" rent of \$202 but FMR for a one-bedroom is \$1033. (pg 51)
- On page 58, the Census "Civilian non-institutionalized persons between 18 years and 64 years of age with a mobility or self-care limitation ... offers some relationship to housing need. Of the adult population 18 – 64 years of age, 9.8% reported at least one disability. This group generally would require dwelling units which are barrier free with special features to compensate for their individuals situation."
- NJ DCA's Consolidated Plan notes repeatedly the shortage of rental assistance. People with disabilities cannot add their names to "waiting lists" because such lists are closed. The State Rental Assistance Program (SRPA) closed list in 2007. Local PHAs no longer maintain "waiting lists" for Section 8.
- The ACIA's Housing Rehabilitation Program is a valuable resource for a low income home owner with a disability to fund modifications such as bathroom access or a wheelchair ramp. The problem is very difficult for individuals who rent, cannot afford the allowable "reasonable" modification to their apartment and cannot find any other accessible and affordable rental unit. Also related to this issue is the significant degree of housing discrimination based on disability. This is the highest category (41% of cases filed) of housing discrimination per the Division of Civil Rights. (pg 79)

Other Comments:

- While the new affordable rental projects developing in Atlantic County are much needed, it is significant to note the eligibility criteria. The Village at St. Peter's in Pleasantville will be affordable units for those *over 62 years* of age. A new, low income, *disabled veterans* supportive housing program and rental units will be available at the new "Veteran's Point at the Gate" in Somers Point. Unfortunately, it will replace a subsidized apartment complex that was open to a wider criteria / population of individuals including low income people with disabilities under the age of 62. Even a subsidized apartment complex with an assisted living program, The John P. Whittington Assisted Living, in Atlantic City will be only be for those low income persons with disabilities *over the age of 62*.

Other housing being developed for individuals with disabilities are usually for select consumers of those agencies developing the housing with funding supports from DDD or DMHS. DCA Consolidation Plan (pg 52) notes that group home facilities and condos are becoming more affordable housing options for this population. The total number of residents on DDD's waiting list was 8,000 in December 2008. Although a condo maybe more affordable, DDD would be required to provide funding for supportive housing programs, at various levels of staffing, for each individual. DDD's waiting list continues to grow larger every year.

There is a much broader population of individuals with disabilities in need of affordable and accessible housing that are not eligible for DDD, DMHS, or HOPWA.

STATE OF NEW JERSEY

Hamilton County	\$1,129	30.1
Montgomery County	\$1,052	30.9
Schenectady County	\$943	29.4

In New Jersey, a minimum wage worker earns an hourly wage of \$7.25. In order to afford the FMR for a two-bedroom apartment, a minimum wage earner must work 129 hours per week, 52 weeks per year. Or, a household must include 3.2 minimum wage earner(s) working 40 hours per week year-round in order to make the two-bedroom FMR affordable.

Monthly Supplemental Security Income (SSI) payments for an individual are \$705 in New Jersey. If SSI represents an individual's sole source of income, \$212 in monthly rent is affordable, while the FMR for a one-bedroom is \$1,033.

Group home facilities and condominiums are quickly becoming affordable housing options for special needs populations. According to New Jersey's Division of Developmental Disabilities (DDD), the total number of residents currently residing in community residences is roughly 7,000 people. However, many more are still needed as evidenced by the number of N.J. residents currently on group home waiting lists (nearly 8,000 in December 2008).

Homeowner Housing Affordability

The median value of New Jersey housing is ranked 4th in the country, behind Hawaii, D.C. and California. 42.9% of all occupied housing units have a value greater than \$400,000. it is virtually impossible for very -low and low-income households to afford homeownership without a subsidy such as Section 8 Homeownership.

Figure 17: 2010 Out of Reach Report

	Estimated renter median income	Rent affordable at renter median income	Percent of median renter income needed to afford 2 bdrm FMR	Rent affordable at 30% of AMI	Rent affordable at 50% of AMI	Rent affordable at 80% of AMI	Rent affordable at median income	Rent affordable with full-time job paying min wage	Rent affordable with full-time job paying mean renter wage	Rent affordable to SSI recipient

zoning laws to provide more opportunity for affordable housing. Over the next 5 years, the State will continue to identify and address local and State policies that effect the provision of affordable housing.

Over the past twenty years, COAH has gone through three rounds of regulations in an effort to address stakeholders concerns with regards to affordable housing. The most recent rules became effective on June 2, 2008, with amendments through October 20, 2008, and govern municipal affordable housing obligations for the period 1999-2018.

As of March 12, 2010, 61 of New Jersey's 566 municipalities have received COAH certification. As of December 8, 2009, COAH certified towns have proposed creating 129,999 affordable units and have completed 72,874 units.

On February 9, 2010, Governor Christie established a Housing Opportunity Task Force to review the Fair Housing Act, State Planning Act and the current and former COAH regulations and methodologies. The Task Force shall assess the effect of these laws in accomplishing the goals of meeting the constitutional obligations under the Mt. Laurel decisions.

Demand and Suitability of Housing

In 2008, 13.2% (1,149,946) of the population in New Jersey were 65 or older in 2008. 9.7% of elderly persons live alone. Of those living alone, 73.6% were women, many with special housing needs. 6.6% (1,146,946) of the elderly are currently caring for grandchildren less than 18 years of age. The balance of the elderly population, 18% (56,487) reside in group quarters, primarily nursing homes.

In 2008, 33.6% of all seniors who are 65 years old or older claimed at least 1 disability. Disabled seniors make up 12.9% of the entire disabled population. In 2008, 307,468 elderly that claimed a disability also lived in poverty. Of those, 40,031 (13%) actually received disability income.

Civilian non-institutionalized persons between 18 years of age and 64 years of age with a mobility or self-care limitation is also reported in Census updates and offers some relationship to housing need. Of the adult population 18 to 64 years of age, 9.8% reported at least one disability. This group generally would require dwelling units which are barrier free with special features to compensate for their individual situation.

A total of 91,654 adults between the ages of 18 and 64 have a self-care limitation. Frequently living with family, this group also includes residents of small group homes or sheltered apartments. A total of 412,585 adults in New Jersey reported to have more than one disability in 2008. The future of this segment of the population remains perilous if their individual housing and service needs cannot be met within the state.

Barriers to Affordable Housing

There are a myriad of both State and federal issues affecting the availability of affordable housing. Barriers to affordable housing include the locally held *Not In My Backyard* syndrome (NIMBY), outdated land-use regulations, high development standards, costly permit processes, infrastructure financing and fluctuations in interest rates. The resistance to affordable housing is often evidenced in minimum lot size requirements for residential properties, which indirectly has an impact on the cost of housing.

Many very low and low-income households have difficulty obtaining adequate housing as a result of credit problems.

Shortage of Rental Assistance: The State is experiencing a shortage of available housing at every rental level. This is particularly the case with affordable housing. Many at-risk households turn to rental assistance programs to maintain and secure housing. The State, through the Housing Choice Voucher Program, HOME Tenant-Based Rental Assistance Program and the State Rental Assistance Program, is working to assist as many very low- and low-income households as possible within our financial constraints.

It should be noted that the State Rental Assistance Program is currently assisting over 4,000 households with rental assistance. With a new FY 2010 budget of \$52 million, the program will assist approximately 5,000 households.

Shortage of Workforce Housing: The shortage of affordable housing for low and moderate-wage workers is a problem in New Jersey. Many of these workers can only find affordable housing by living far from their jobs and enduring long commutes. The State through the State Rental Assistance is targeting the working poor, families making up to 40% of median income.

Not In My Backyard (NIMBY)/Racial, Ethnic and Income Discrimination: Perhaps the primary obstacle to affordable housing is the overall misconception as to how affordable housing impacts a community. The public perception is that it will attract a population full of the poor and uneducated, bringing about increased crime, decreased property values and social unrest. Community leaders are very much influenced by these public misconceptions. As a result, even if a municipality has the land and physical plant to support denser, more affordable housing, it may lack the will to do so. NIMBY attitudes were the targets of the New Jersey State Supreme Court Mount Laurel decisions and the State's Fair Housing Act of 1985. These initiatives try to extend housing opportunities for people earning less than 80% of median county income.

In addition, despite more than 38 years of prohibitions against housing discrimination in New Jersey, audits of race and national origin discrimination in the rental and sales markets continue to show high rates of discrimination. Research conducted by the Division on Civil Rights (2007) shows that 41 percent of housing discrimination cases filed in 2007 were disability related, 37 percent

PRIORITY HOUSING NEEDS (households)			Current Need	Current Inventory	Unmet Need/Gap	Goals to Address Unmet Need/Gap

Health & Human Service Provider Survey
Atlantic County, NJ - FY 2011 - FY 2015

HEALTH & HUMAN SERVICE PROVIDER SURVEY

1. Name of organization: Community Food Bank of NJ/Southern Branch
2. Name of person completing this survey: Margi Barham
3. Title of person completing this survey: Executive Director
4. Mailing address: 6735 Black Horse Pike
Egg Harbor Twp, NJ 08234
5. Telephone number: 609-383-8843 Fax number: 609-383-0474
6. E-mail address: MBARHAM@NJFOODBANK.ORG
7. What are the mission, principal activities, and service area of your organization? Attach a brochure, if available.
To Fight hunger + poverty. Provide food to those in
need in Atlantic, Cape May, Cumberland + Southern
Berlin County counties. (see attached brochure)
8. What special needs classification of persons and/or households does your organization serve? (Example: persons with disabilities, persons with visual impairments, etc.)
Families, seniors, the disabled - all those
with low or no income.
9. In your opinion, what is the major unmet housing and/or supportive service need faced by your organization?
Even with affordable housing, people need jobs
with an income there is nothing they can
afford.
10. What is the magnitude of the need? Please attach any statistics, records, or survey results that substantiate this need.
Since 2008 we've distributed 60 to more food.
In 2010 we distributed a record-breaker 7.1 million
pounds of food

11. In your opinion, what is the major unmet housing and/or supportive service need in Atlantic County?

Unemployment + under employment has hit our local area

12. Please identify your priority needs among the public facility and public service activities listed below. Also, please provide the county with an estimate of the cost to provide the facility or service and the basis for your estimate (architectural/engineering plans and estimate, current service budget, etc.)

Community Development Needs	Quantify Need*	Estimated Dollars Needed to Address
PUBLIC FACILITY NEEDS		
Senior Centers		
Handicapped Centers		
Homeless Facilities		
Youth Centers		
Child Care Centers		
Health Facilities		
Neighborhood Facilities		
Parks and/or recreation Facilities		
Parking Facilities

We need your help!

Volunteers are the lifeline of the FoodBank. Dedicated, concerned people just like you make all the difference in the world. Just look at what you can do ...

- Hold a food drive or fundraiser
- Sort and repack food boxes
- Pick up donations
- Office or clerical work
- Water, weed or harvest our garden
- Participate in special projects
- Join the Friends of the FoodBank Fundraising Auxiliary
- Donate to K.I.D.S. Resource Center
- Help with fundraising and community events

Hours are flexible. Just call 609-383-8843 for more information.

We welcome contributions.

- ☐ \$25 ☐ \$50 ☐ \$100 ☐ \$250
☐ Other \$ _____

Name: _____

Address: _____

City: _____

State: _____

Zip: _____

Phone: _____

- ☐ Please send me a volunteer application.

The Community FoodBank of New Jersey has received Charity Navigator's highest ranking—four stars—for sound fiscal management of donor funds. 96.5 cents of every dollar goes directly to support our programs and feed those in need.

Recipe for Organizing a Successful Food Drive:

This simple recipe always yields tremendous results. People always ask for the ingredients. Try it soon!

- 1 Choose a date and location for your food drive.
- 2 It often helps to have a theme, or plan your food drive around a holiday or event. Examples: "Have a Heart for the Hungry" on Valentine's Day; or "Hunger Doesn't Take a Vacation" during the summer months; "Give the Gift of Food" instead of presents for your birthday, anniversary or religious service.
- 3 Contact the FoodBank to inform us of your intentions. If you're going to use our name while promoting your food drive, we need to know about it first!
- 4 Make sure as many people as possible know about your food drive. Flyers, posters, press releases, emails, invitations, receptions or give-a-ways are all great ways to ensure a successful event.
- 5 Try to make arrangements for the delivery of your food donation to the FoodBank.

We can supply collection barrels or boxes, informational newsletters or brochures, or a speaker to kick-off or wrap-up your event.

Call us at 609-383-8843 for more information on how to get started.

COMMUNITY
FOOD BANK
OF NEW JERSEY

SOUTHERN BRANCH
FIGHTING HUNGER AND POVERTY

*Nourishing
body, mind
& spirit.*

Serving Atlantic,
Cape May, Cumberland
and southern Burlington
counties

*Get the facts.
Then get involved!*

Bringing *hope* to the *hungry*.

The Community FoodBank of New Jersey - Southern Branch, steps up to the plate every day to improve the quality of life for our residents. We are a private, non-profit organization with one primary mission—to fight hunger and poverty.

We distribute food and groceries to those who truly need assistance: the elderly, single parents, disabled individuals on fixed incomes, people on long-term unemployment, and those who are underemployed and just can't make ends meet.

HOW IT WORKS.

Operating from a 27,000-sq. ft. warehouse with over 17,000 cubic ft. of cooler space, we have a fleet of refrigerated trucks picking up and delivering food throughout the area.

Our member charities share in the expense of shipping and handling by contributing a nominal "shared maintenance fee" of 18¢ per pound for some of the food they receive from us. However, these fees account for less than 50% of our operating budget. We obtain the balance from charitable donations made by philanthropic individuals, foundations, civic groups and local industries.

WHAT WE DO.

We receive large scale donations—from a few cases to tractor-trailer loads of products—from food related businesses through our affiliation with Feeding America, the national food bank network.

To supplement this, we also:

- Distribute food commodities supplied by the U.S. Department of Agriculture and NJ State Food Purchasing Program.
- Operate a prepared food rescue program salvaging leftover food from casinos, hotels and restaurants.
- Facilitate the collection and distribution of products collected by caring individuals and groups who hold food drives on our behalf.

Our programs:

Community Assistance Pantry

An on-site resource for local residents is extremely helpful to those in need of various types of assistance. Not only do we provide an emergency supply of groceries, but we also offer information about food stamps, WIC, utility assistance and other vital community resources.

K.I.D.S. Resource Center

K.I.D.S. stands for Kids In Distressed Situations and is dedicated to providing essential items for those struggling to provide life's other basic necessities. A trio of "closets" is set up to help fulfill some of those needs. The Coat Closet is maintained through donations and coat drives, where hundreds of jackets in near perfect condition are distributed. A Linen Closet provides brand new donated towels, sheets, blankets and other household items to families in need. Plus, Tools 4 Schools, which is stocked through the generosity of donations, provides much-needed school supplies to teachers in low-income school districts.

Filling the need.

Over 250 charitable groups serving the poor and hungry throughout Atlantic, Cape May, Cumberland and parts of Burlington Counties benefit from the food provided from the Community FoodBank of New Jersey. They include:

EMERGENCY FOOD PANTRIES

Where people in need of temporary food assistance can get a 3- to 5-day supply of groceries to take home and prepare.

COMMUNITY SOUP KITCHENS

Usually serving a hot lunch or dinner prepared and served in a cafeteria setting to members of the community in need of a meal.

HOMELESS SHELTERS

Meals are served in these overnight-housing facilities for people temporarily displaced from a permanent residence.

DAY CARE CENTERS

Children or senior citizens receive nutritious meals and snacks as part of their care.

GROUP HOMES FOR THE DISABLED

Prepared meals are part of the daily care for physically or developmentally challenged people.

REHABILITATION FACILITIES

Good food nourishes people battling substance abuse addictions.

DISASTER RELIEF ORGANIZATIONS

Mobile canteens providing hot meals are a vital part of relief operations.

Cultivate a relationship with us.

Nine months of the year we have a bountiful, community garden just behind our warehouse in Egg Harbor Township. Here we grow a variety of organic fruits and vegetables that we distribute through our programs. You can exercise your green thumb by volunteering your time and gardening skills throughout the growing season.

Extra Helping: Community FoodBank's Prepared Food Rescue Program

Community FoodBank's Prepared Food Rescue Program is a community response to hunger and waste. Extra Helping is a food recovery and distribution service that picks up fully prepared foods from casinos, caterers and buffet-style restaurants. We then deliver it to area soup kitchens, homeless shelters and other non-profit, on-site feeding programs serving the disadvantaged.

HOMELESS ASSISTANCE PROVIDER SURVEY

1. Name of organization: Jewish Family Service of Atlantic
2. Name of person completing this survey: Laura Rodgers / Andrea Steinberg
3. Title of person completing this survey: Director of Partnership Exec Director
4. Mailing address: 607 N. Jerome Ave.
Margate, NJ 08402

OF ATLANTIC & CAPE MAY COUNTIES

JFS is ...

...for everyone

The mission of Jewish Family Service is to strengthen and promote Jewish individual, family, and community well-being. In keeping with Jewish values and the spirit of *tikkun olam* (healing the world) we are committed to providing services to the entire community regardless of race, religion, or ethnicity.

Throughout its history, Jewish Family Service has recognized and responded to the evolving needs of the community. Today, the agency provides an array of social services and programs designed to meet the contemporary needs of individuals and families. Our professional staff is highly qualified to help individuals reach their full potential in a setting which balances traditional values with personal needs and goals.

Children's Services

JFS provides services to families with children who are in need. Programs offered include home-based family treatment, individual treatment of children and outpatient counseling.

- Child & Adolescent Counseling
- Autism Spectrum Services
- Functional Family Therapy
- Children's Challenge Intensive In-Home Program
- In-Home Case Management Services

Rothenberg Center for Family Life

The Rothenberg Center offers programs to parents, teachers and adolescents, providing a source for information, resources and practical skills to help strengthen families.

- Parenting Programs
- Teacher Training
- Teen Support Programs
- One-on-One Parent Coaching

Healing Center

The Jewish Healing Center addresses issues related to loss and spirituality by helping attain a sense of wholeness through healing techniques and connections to a caring community and the spiritual traditions of Judaism.

- Bikur Cholim (Visiting the Sick)
- Spiritual Support
- Monthly Healing Services
- Hospice Resources & Services

Older Adult Services

JFS offers outreach, in-home psychotherapy, and geriatric assessments to older adults with the goal of enhancing their quality of life and helping them to maintain an independent lifestyle.

Sample Stakeholder Survey

ATLANTIC COUNTY, NEW JERSEY
GENERAL SURVEY

FY 2011-2015 FIVE YEAR CONSOLIDATED PLAN

Atlantic County is in the process of preparing a Five-Year Consolidated Plan for submission to the U.S. Department of Housing and Urban Development (HUD). The Consolidated Plan will serve as a blueprint for the expenditure of federal funds in Atlantic County from September 1, 2011 to August 31, 2015.

As part of this five-year planning process, the county is required to identify the housing and community development needs for low-moderate income persons and households, as well as persons with special needs such as disabilities, substance abuse, mental illness, HIV/AIDS, the elderly, etc. Your participation in this planning process will enable the county to develop an accurate strategy that addresses the priority needs of these groups and individuals.

Please remember that Atlantic County, for the purposes of HUD, is separate from Atlantic City. Please try to direct your answers to the needs of the county outside of the city.

Please complete this survey and mail it no later than February 11, 2011 to the address below. Please attach any additional information (statistics, surveys, studies, reports, applications, observations, annual reports, etc.) that will help the county to identify affordable housing needs, including barriers to affordable housing and employment issues.

Thank you for your prompt response to this survey and for assisting Atlantic County with completion of its consolidated planning responsibilities. If you have any questions regarding the survey, please contact:

Mr. John Lamey, Director
Office of Community Development
Atlantic County
5909 Main Street, 2nd Floor
Mays Landing, NJ 08330
Voice: (609) 645-5838
Fax: (609) 645-5813

Other Economic Development Needs (list: _____)		

*Number of centers/facilities, number of person needing services, etc.

13. What is the magnitude of the need? Please attach any statistics, records or survey results that substantiate this need.

14. Does your organization *develop* housing? Yes _____ No _____

15. If yes, please provide details in the chart below of the housing developments planned by your organization for the next five years. Attach additional sheets if necessary.

Check all that apply	Type of housing	No. of units	Neighborhood Location	Type of residents served
	Rental			
	For sale			
	Other (assisted living, etc.)			

16. Does your organization *manage* housing? Yes _____ No _____

17. If yes, please check the type of housing your organization manages and the total number of units.

☐ Rental # _____

☐ Other # _____

18. If your organization develops or manages housing, please complete the chart below (Priority Housing Needs). This information will assist the county in identifying the number of low-moderate income persons and households with disabilities, who are in need of housing

EXPLANATION OF CHART:

Current Need: Number of housing units needed to meet your current demand

Current Inventory: Number of housing units you currently have available to meet your demand

Unmet Need/Gap: Difference between the current need and current inventory

Goals to Address Unmet Need/Gap: Number of new housing units you plan to develop and make available **over the next five years** to address your unmet need/gap

MFI = Median Family Income

PRIORITY HOUSING NEEDS (households)			Current Need	Current Inventory	Unmet Need/Gap	Goals to Address Unmet Need/Gap
Example			20	10	10	5
Renter	Small Related Family (2-4 persons)	0-30% of MFI				
		31-50% of MFI				
		51-80% of MFI				
	Large Related Family (5 or more persons)	0-30% of MFI				
		31-50% of MFI				
		51-80% of MFI				
	Elderly (Age 62+)	0-30% of MFI				
		31-50% of MFI				
		51-80% of MFI				
	All Other	0-30% of MFI				
		31-50% of MFI				
		51-80% of MFI				
Owner		0-30% of MFI				
		31-50% of MFI				
		51-80% of MFI				
Special Needs		0-80% of MFI				
Total Goals						

19. Please describe any partnerships you may undertake to implement your housing projects.

Thank you for completing this survey. Please attach any additional thoughts or information (studies, surveys, reports, statistics, etc.) that may assist Atlantic County in completing their affordable housing and supportive services needs assessment.

Please complete this survey and mail it no later than February 11, 2011 to Mr. John Lamey.

May 31, 2011

Robert M. Damminger, Freeholder Director
Gloucester County
P.O. Box 337 - Courthouse
Woodbury, New Jersey 08096

Dear Director Damminger:

Atlantic County is preparing its five year Consolidated Plan (CP). The Atlantic County CP is being prepared in order to implement programs that fund housing, community development, and economic development within the community using the County's Community Development Block Grant (CDBG) program and HOME Investment Partnership (HOME) program entitlements from the US Department of Housing and Urban Development (HUD). The CP is being prepared for a five year period beginning at the start of the County's FY 2011 Program on September 1, 2011 for the period of 2011 to 2015.

In agreement with HUD regulations, Atlantic County is notifying the adjacent units of general local government regarding the preparation of the CP and the availability of the CP for review. The Atlantic County CP will be available for public review from May 26, 2011 to June 27, 2011. The Atlantic County CP will be available for review at the following locations:

Atlantic County Improvement Authority
Office of Community Development
5909 Main Street, 2nd Floor
Mays Landing, NJ 08330

Dept. of Family and Community Development
Atlantic County Office Building
1333 Atlantic Avenue
Atlantic City, NJ 08401

On line at www.aclink.org

Questions or comments regarding the Atlantic County CP' should be submitted to me at the Atlantic County Improvement Authority, 5909 Main Street, 2nd Floor, Mays Landing, N.J. 08330. All comments regarding the Atlantic County CP should be received prior to submission of the document to HUD on July 15, 2011.

Sincerely yours,

Priority Need

Housing - expand home ownership among low income households

Project

Owner-Occupied Housing

Activity

Atlantic County Homebuyer Program

Description

Assistance for down payment and closing costs in addition to rehabilitation that is completed in conjunction with the purchased home. The County provides households with a deferred loan of up to \$20,000 for down payment and closing costs. Loans are forgiven after the period of affordability. Households are eligible to receive up to \$25,000 for down payment and closing and rehabilitation of the unit that is purchased.

Project

Owner-Occupied Housing

Activity

Atlantic County Housing Rehabilitation Program

Description

Assist low income homeowners with repairs of housing code violations, weatherization and safety issues that are dangerous or injurious to the occupants. The program addresses all basic needs of the unit including plumbing, heating, electric and roof, lead paint abatement, plus windows, doors, insulation, and exterior repair and painting. Assistance is in the form of a 100 percent interest free deferred loan. The deferred loan has a one time payment at the time of sale of the home or transfer of the title. Participants are qualified on a first come first served basis. Funding includes \$50,000 of anticipated program income.

Objective category: ☐ Suitable Living Environment ☒ Decent Housing ☐ Economic Opportunity
Outcome category: ☒ Availability/Accessibility ☐ Affordability ☐ Sustainability
